# National Interagency Coordination Center <br> Incident Management Situation Report <br> Friday, August 31, 2018 - 0530 MT <br> National Preparedness Level 4 

National Fire Activity
Initial Attack Activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Light (57 fires)
3
11
34
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Nationally, there are 62 large fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.
Two hundred twenty-six soldiers from the $14^{\text {th }}$ Brigade Engineer Battalion based out of Joint Base LewisMcChord, Washington are deployed in support of the Mendocino Complex.

One hundred thirty-five fireline management personnel from Australia and New Zealand are assigned to support large fires in the California and Northwest Areas.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

## Northwest Area (PL 4)

| New fires: | 5 |
| :--- | :---: |
| New large incidents: | 1 |
| Uncontained large fires: | 10 |
| Type 1 IMMs committed: | 3 |
| Type 2 IMTs committed: | 5 |

Crescent Mountain, Okanogan/Wenatchee NF. IMT 1 (Turman). IMT is also managing the McLeod and Holman incidents. Eighteen miles west of Winthrop, WA. Timber. Active fire behavior with creeping, backing and flanking. Residences threatened. Evacuations, road, area and trail closures in effect.

McLeod, Okanogan/Wenatchee NF. Eight miles north of Mazama, WA. Timber. Active fire behavior with single tree torching, running and flanking. Numerous residences threatened. Road, area and trail closures in effect.

Holman, Okanogan/Wenatchee NF. Nineteen miles northwest of Mazama, WA. Timber. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Road, area and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. Transfer of command from IMT 1 (J. Kurth) to IMT 1 (Dueitt) will occur today. Nine miles northwest of Selma, OR. Timber and chaparral. Active fire behavior with flanking, uphill runs and backing. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

Terwilliger, Williamette NF. IMT 2 (Connell). Five miles southeast of Blue River, OR. Timber. Active fire behavior with uphill runs, torching and short-range spotting. Numerous structures threatened. Road, area and trail closures in effect.

Natchez, Rogue River-Siskiyou NF. IMT 2 (Gales). Fifteen miles southeast of Cave Junction, OR. Timber and chaparral. Moderate fire behavior with torching, backing and flanking. Numerous structures threatened. Road, area and trail closures in effect.

Cougar Creek, Okanogan/Wenatchee NF. IMT 2 (Lawson). IMT is also managing the Bannock Lakes incident. Twelve miles northwest of Ardenvoir, WA. Timber, medium logging slash and closed timber litter. Active fire behavior with torching, short crown runs and flanking. Numerous structures threatened. Road, area and trail closures in effect.

Bannock Lakes, Okanogan/Wenatchee NF. Fourteen miles southwest of Stehekin, WA. Timber and brush. Minimal fire behavior. Trail closures in effect.

Watson Creek, Fremont-Winema NF. IMT 2 (Sheldon). Thirteen miles west of Paisley, OR. Timber and brush. Moderate fire behavior with isolated torching and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Taylor Creek, Medford District, BLM. IMT 2 (Harrod). IMT is also managing the east side of the Klondike incident. Ten miles west of Grants Pass, OR. Timber and brush. Minimal fire behavior. Numerous structures threatened. Road, area and trail closures in effect.

Horns Mountain, Colville NF. Nineteen miles north of Evans, WA. Timber and heavy logging slash. Minimal fire behavior. Area closures in effect.

Miles, Umpqua NF. Five miles northeast of Trail, OR. Timber. Active fire behavior with backing, group torching and creeping. Numerous structures and energy infrastructure threatened. Road, area and trail closures in effect.

Columbus, Umpqua NF. Fifteen miles east of Tiller, OR. Timber. Active fire behavior with backing, isolated torching and creeping. Road, area and trail closures in effect.

Boyds, Northeast Region, Washington DNR. Three miles west of Kettle Falls, WA. Timber and brush. No new information.

Predictive Services Discussion: The breezy cold front that was over the Northern Rockies yesterday will move east toward the Great Lakes. As it does, showers and storms will bring needed rainfall to Minnesota and Wisconsin. To the west, a flat westerly flow will continue over the West, allowing for seasonal temperatures to continue. Weak ridging over California will produce overall warmer than average conditions. High pressure over Texas will weaken, but the state will remain under hot and dry conditions. A weak frontal boundary stretching from New Jersey southwest to Mississippi will allow for scattered storms to develop along its leading edge. Isolated sea breeze-induced storms are possible across Florida in the afternoon. Overall, there are no significant fire weather-related concerns today.

# Unburned Fuel Between You And The Fire 

Operational Engagement Category

It is important for firefighters to recognize unburned fuel between themselves and the fire as Watchout Situation \#11. Often it is not possible or practical for direct attack on a fire. Before attempting indirect attack and any time the firefighter is in a position where there is unburned fuel between them and the fire, the following questions must be addressed immediately:

- Can you see the fire or are you in contact with someone who can? Discuss situations you might find yourself in where you are out in the green and cannot see the fire. What can you do?
- Is fire spread in a direction away from you? Do you consider the potential for fire spread? Are you safe if the wind switches?
- Will your position be defensible when the fire reaches you? Talk about what must be taken into account when building indirect line or approaching a fire through the green.
- Is your line anchored? Discuss how you anchor indirect line.
- Are your escape routes and safety zones adequate? What is adequate?
- Are weather indicators constantly changing?
- To reduce the risks:
- Post lookouts
- Consider a different location. Review situations where you constructed indirect line or approached a fire through the green and how you provided for your safety.
