## National Fire Activity

Initial Attack Activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Light (84 fires)
3
4

Nationally, there are 59 large fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

## Northwest Area (PL 4)

| New fires: | 6 |
| :--- | :--- |
| New large incidents: | 0 |
| Uncontained large fires: | 9 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 3 |

Crescent Mountain, Okanogan-Wenatchee NF. IMT 1 (Turman). IMT is also managing the McLeod and Holman incidents. Eighteen miles west of Winthrop, WA. Timber. Active fire behavior with torching, backing and flanking. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

McLeod, Okanogan-Wenatchee NF. Eight miles north of Mazama, WA. Timber. Moderate fire behavior with isolated torching, backing and flanking. Road, area and trail closures in effect.

Holman, Okanogan-Wenatchee NF. Nineteen miles northwest of Mazama, WA. Timber. Minimal fire behavior. Structures and communication infrastructure threatened. Road, area and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. IMT 1 (Dueitt). Nine miles northwest of Selma, OR. Timber and brush. Active fire behavior with backing, group torching and uphill runs. Numerous residences threatened. Road, area and trail closures in effect.

Terwilliger, Williamette NF. IMT 2 (Connell). Five miles southeast of Blue River, OR. Timber. Active fire behavior with uphill runs, torching and short-range spotting. Numerous structures and energy infrastructure threatened. Road, area and trail closures in effect.

Natchez, Rogue River-Siskiyou NF. IMT 2 (Knerr). Fifteen miles southeast of Cave Junction, OR. Timber and chaparral. Active fire behavior with uphill runs, single tree torching and flanking. Numerous structures threatened. Road, area and trail closures in effect.

Cougar Creek, Okanogan-Wenatchee NF. IMT 2 (Lawson). IMT is also managing the Bannock Lakes incident. Twelve miles northwest of Ardenvoir, WA. Timber, medium logging slash and closed timber litter. Active fire behavior with torching, short crown runs and flanking. Numerous structures threatened. Road, area and trail closures in effect.

Bannock Lakes, Okanogan-Wenatchee NF. Fourteen miles southwest of Stehekin, WA. Timber and brush. Minimal fire behavior. Trail closures in effect.

Columbus, Umpqua NF. Fifteen miles east of Tiller, OR. Timber. Active fire behavior with backing, group torching and creeping. Road, area and trail closures in effect.

Miles, Umpqua NF. Five miles northeast of Trail, OR. Timber. Active fire behavior with single tree torching, backing and spotting. Road, area and trail closures in effect.

Watson Creek, Fremont-Winema NF. Thirteen miles west of Paisley, OR. Timber and brush. Minimal fire behavior. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Taylor Creek, Medford District, BLM. Ten miles west of Grants Pass, OR. Timber and brush. No new information.

Mile Marker 44, Yakama Agency, BIA. Seventeen miles southwest of Toppenish, WA. Brush and tall grass. No new information.

*1 Hectare = 2.47 Acres

Predictive Services Discussion: With the strong, hot upper level ridge of high pressure, remaining anchored over the East, the southerly flow along its western edge will continue to draw tropical moisture into Texas, New Mexico, and Colorado. Further north and west, a late season stream of monsoonal moisture will move into the Great Basin and possibly eastern Oregon, creating widely scattered showers and storms. Temperatures across the Pacific Northwest will begin to cool as another trough and front approach from the Gulf of Alaska. Weak high pressure ridging over the northern Great Plains will keep the area north of Nebraska warm and dry.

## Bias for Action

Leadership Category

Leaders in the wildland fire service are not only empowered but also duty-bound to act on a situation that is within our power to affect, even without direction from above.

This empowerment is not intended to encourage freelancing. In a high-risk environment, freelancing is a dangerous and unpredictable element, causing more harm than good. Ultimately, leaders are always accountable for their actions.

- A bias for action acknowledges wildfire as an environment where events do not always go according to plan.
- At times during an incident, one person may be the only one in a position to see what needs to be done and to make it happen.
- Time may not permit gathering all of the information that one might like to have; if you wait until you have all the facts to be $100 \%$ sure, it will almost always be too late.

In these time-critical situations, fire leaders use judgment, act within the intent of their leaders, work in unison with others, develop and communicate a plan, and then inform leaders of actions as soon as safely possible.

On a chaotic and rapidly developing wildfire, one person taking the initiative can make all the difference in seizing and taking advantage of on opportunity. Being hesitant, risk-averse, or indecisive can expose firefighters to greater long-term risks and translate into a waste of time, opportunity, energy, and money.

## Discussion Points

- Discuss the difference between freelancing and a bias for action.
- Discuss instances of taking appropriate action and indecisiveness/non-action.
- How are some ways we train for situations requiring a bias for action?
