

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday, September 16, 2018 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial Attack Activity:	Light (63 fires)
New large incidents:	0
Large fires contained:	4
Uncontained large fires:**	23
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	6
Type 2 IMTs committed:	11

Nationally, there are 59 large fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Three Type 2 Incident Management Teams have mobilized in support of Hurricane Florence. IMT 2 (Goff) is staged in Columbia, SC. IMT 2 (Parrish and Rabe) are staged in Atlanta, GA.

### Great Basin Area (PL 3)

New fires:	10
New large incidents:	0
Uncontained large fires:	5
Type 1 IMTs committed:	2

**Bald Mountain**, Uinta-Wasatch-Cache NF. Transfer of command from IMT 1 (Lund) to IMT 1 (Pechota) will occur today. Seven miles northeast of Mona, UT. Timber, brush and short grass. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

**Pole Creek**, Uinta-Wasatch-Cache NF. IMT 1 (Lund). Twelve miles northeast of Nephi, UT. Timber and brush. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

**Indian Butte**, Clark County. Eight miles northwest of Dubois, ID. Timber, brush and short grass. Moderate fire behavior with creeping, backing and smoldering. Structures and sage-grouse habitat threatened. Road closures in effect.

**Stewart Creek**, Sawtooth NF. Eighteen miles northwest of Fairfield, ID. Timber and brush. Minimal fire behavior. Structures and sage-grouse habitat threatened. Road, area and trail closures in effect.

**Bender Mountain**, Vernal Field Office, BLM. Seventeen miles northwest of Dutch John, UT. Timber. Moderate fire behavior with single tree torching, smoldering and creeping. Structures, energy infrastructure and sage-grouse habitat threatened. Road and area closures in effect.

\*\*\* Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion:** The persistent trough along the West Coast will weaken and begin to move inland. Scattered showers will increase across the Northwest and Northern Rockies. Elsewhere across the West, dry weather will prevail except for isolated showers or thunderstorms over the central Rockies. Breezy to locally windy conditions will continue over the Interior West. In the East, inland flooding will remain possible across the Carolinas and Virginia as the remnants of Hurricane Florence continue to move slowly westward, producing heavy rainfall over the Piedmont and the Blue Mountains.

## Burn Protocols

*Firefighter Health & First Aid*

Burn injuries are often difficult to diagnose and may continue to worsen if they do not receive immediate, specialized treatment. The initial evaluation and treatment of these burns often happens in rural medical facilities with limited experience in burn injury care. In the past, this has resulted in evaluation and treatment that did not provide the best care to injured firefighters. Therefore, victims with either severe burns or burns that meet any of the below criteria should be immediately referred and transported to a regional burn center.

- Burn injury criteria identified by the American Burn Association as warranting immediate referral to an accredited burn center.
  - Partial thickness burns (second degree) involving greater than 5% Total Body Surface Area.
  - Burns involving the face, hands, feet, genitalia, perineum, or major joints.
  - Third degree burns of any size.
  - Electrical burns, including lightning injury.
  - Inhalation injury suspected.
  - Burns accompanied by traumatic injury (such as fractures).
  - Individuals unable to immediately return to full duty.
- It is imperative that action is expeditious, as burn injuries are often difficult to evaluate and may take 72 hours to manifest themselves. When there is any doubt as to the severity of the injury, the required action is to immediately refer and transport the employee to a regional burn center.
- To ensure Workers Compensation assistance, an agency administrator or designee for the incident needs to coordinate with the firefighter's home unit.
- Do you know the location of the closest regional burn center?
  - <http://www.blm.gov/nifc/st/en/prog/fire/im.html>
