## Great Basin Area (PL 4)

New fires:
New large incidents:
Uncontained large fires:
Type 1 IMT's committed:
Type 2 IMT's committed:
Roosevelt, Bridger-Teton NF. Transfer of command from IMT 2 (Chadwick) to IMT 1 (Demasters) will occur tomorrow. Thirty-two miles south of Jackson, WY. Timber and brush. Extreme fire behavior with short crown runs, group torching and spotting. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Pole Creek, Uinta-Wasatch-Cache NF. IMT 1 (Lund). Twelve miles northeast of Nephi, UT. Timber and brush. Active fire behavior with uphill runs, group torching and short-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Bald Mountain, Uinta-Wasatch-Cache NF. IMT 1 (Pechota). Seven miles northeast of Mona, UT. Timber and brush. Active fire behavior with short crown runs, backing and isolated torching. Numerous residences and transportation and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Marten Creek, Bridger-Teton NF. IMT 2 (Rohrer). Thirteen miles east of Afton, WY. Timber and brush. Active fire behavior with short crown runs, wind-driven runs and spotting. Structures threatened. Road and area closures in effect.

Slate, Uinta-Wasatch-Cache NF. IMT 2 (Roide) mobilizing. IMT is also managing the Murdock incident. Six miles east of Kamas, UT. Timber. Active fire behavior with group torching, spotting and uphill runs. Trail closure in effect.

Murdock, Uinta-Wasatch-Cache NF. Previously reported incident. Twenty miles east of Kamas, UT. Timber. Active fire behavior with running, short-range spotting and torching. Road closures in effect.

* Conner, Cassia County. Four miles southwest of Malta, ID. Brush and short grass. Extreme fire behavior with wind-driven runs, running and single tree torching. Residences threatened.
* 8 Mile, Bear Lake County. Five miles south of Soda Springs, ID. Timber, brush and short grass. Active fire behavior with running and short-range spotting. Structures threatened. Evacuations and road closures in effect.

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.
${ }^{* * *}$ Additional wildfire information is available through the Geographic Areas at http://gacc.nifc.gov/

Prescribed Service Discussion: The previous days' westerly flow will continue across the country as temperatures remain near average in most areas. Breezy conditions are expected near the mountain passes across the northern tier of the country. At the surface, a weak Alberta Clipper will drop south into the northern Great Plains producing a breezy northerly flow. A stationary front positioned across the South will allow for a return to wet conditions across Texas, Arkansas, Louisiana, and Tennessee. Widespread critical fire weather conditions are not expected today across the country.

# Aviation Mishap Response 

Aviation Category

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period. Response plans have to be briefed to all on the crew.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations keeping the following priorities in mind:
- Preserve life. Rescuers first!!!
- Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
- Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
- Secure the area. Treat the crash site as a crime scene. Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media.
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.

Activity: Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.
