National Interagency Coordination Center Incident Management Situation Report Sunday, July 7, 2019 – 0530 MT National Preparedness Level 2

National Fire Activity

Initial attack activity: Light (134) new fires

New large incidents: 4
Large fires contained: 2
Uncontained large fires:** 13
Area Command teams committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 1
Type 2 IMTs committed: 2

Nationally, there are 47 large fires being managed under a strategy other than full suppression. **Uncontained large fires include only fires being managed under a full suppression strategy. Link to Geographic Area daily reports.

Link to Understanding the IMSR.

Alaska Area (PL 4)

New fires:	2
New large incidents:	1
Uncontained large fires:	4
NIMOs Committed:	1
Type 1 IMTs Committed:	1
Type 2 IMTs Committed:	1

Shovel Creek, Fairbanks Area, Alaska DOF. IMT 1 (PNW Team 2). Twenty miles northwest of Fairbanks, AK. Timber and brush. Active fire behavior with backing, creeping and isolated torching. Numerous residences and communication infrastructure threatened. Evacuations, road and trail closures in effect.

Swan Lake, Kenai-Kodiak Area, Alaska DOF. IMT 2 (NW Team 13). Started on FWS land six miles northeast of Sterling, AK. Timber and short grass. Active fire behavior with spotting, single and group tree torching. Numerous residences and structures threatened. Area, road and trail closures in effect.

Boundary River, Tok Area, Alaska DOF. NIMO (Portland) mobilizing. Started on Native corporation land 37 miles southeast of Tok, AK. Timber and short grass. Moderate fire behavior with single tree torching, short-range spotting and backing. Residences threatened.

Montana Creek, Mat-Su Area, Alaska DOF. Started on private land 13 miles south of Talkeetna, AK. Timber. Minimal fire behavior with smoldering, creeping and isolated torching. Residences threatened.

Hess Creek, Upper Yukon Zone, BLM. Started on state land 29 miles northeast of Steven's Village, AK. Timber and tall grass. Active fire behavior with short crown runs, running and flanking. Residences and structures threatened. Last narrative report unless significant activity occurs.

Hadweenzic River, Upper Yukon Zone, BLM. Previously reported incident. Started on FWS land 26 miles northeast of Beaver, AK. Timber. Active fire behavior with isolated torching, flanking and backing. Last narrative report unless significant activity occurs.

* **Tettjajik Creek**, Upper Yukon Zone, BLM. Fifty-seven miles east of Chalkyitsik, AK. Timber. Active fire behavior with short crown runs, backing and flanking. Last narrative report unless significant activity occurs.

Caribou Creek, Fairbanks Area, Alaska DOF. Twenty miles northeast of North Pole, AK. Timber and tall grass. Minimal fire behavior with smoldering. Residences threatened.

New fires: 19
New large incidents: 0
Uncontained large fires: 5
Type 2 IMTs Committed: 1

Miller, Coronado NF. IMT 2 (SW Team 4). Seven miles west of Cloverdale, NM. Timber and brush. Minimal fire behavior with backing. Residences threatened. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

Pine Lodge, Lincoln NF. Five miles northwest of Arabella, NM. Timber and short grass. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Orme, Prescott NF. Seven miles east of Dewey-Humboldt, AZ. Brush and tall grass. Minimal fire behavior.

Hofmann, Southeast District, Arizona DOF. Sixteen miles east of Tombstone, AZ. Brush and tall grass. Minimal fire behavior. Residences and structures threatened. Precipitation occurred over the fire area yesterday.

Azabachi, Rio Puerco Field Office, BLM. Nineteen miles southwest of Torreon, NM. Timber and brush. Minimal fire behavior with backing, flanking and creeping. Structures threatened.

Van Valer, Coronado NF. Eighteen miles southwest of Pima, AZ. Brush and tall grass. No new information.

Predictive Services Discussion: The high pressure ridge over Alaska will become more focused over the western two thirds of the state. Continued record setting heat is expected. Some cooling may begin to occur across the northeastern portion of the state as a northerly flow develops and brings cooler air in from the Arctic Ocean. Lingering troughiness along the West Coast will keep temperatures near normal and an on shore flow going. Inland, a warming trend will begin as a thermal trough begins to develop over the Great Basin. Monsoonal flow over the Southwest will once again be restricted mainly to New Mexico and Colorado, though a few storms will be possible in the Wasatch Range in Utah. Hot and humid conditions will be possible along the Gulf Coast and Great Plains while the East gets a reprieve from the heat with the passage of a weak cold front.

Operational Briefings

Fire Communications Category

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

Situation:

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

Mission/Execution:

- Command (Incident Commander/immediate supervisor)
- Leader's intent
- Specific tactical assignments
- Contingency plans

Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medevac Plan

Service/Support:

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

Risk Management:

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan

Resources:

Incident Response Pocket Guide

Interagency Standards for Fire & Fire Aviation Operations

Wildland Fire Incident Management Field Guide
