National Interagency Coordination Center Incident Management Situation Report Tuesday, July 16, 2019 – 0530 MT National Preparedness Level 2

National Fire Activity

| Initial attack activity: | Light (157) new fires |
|-------------------------------|-----------------------|
| New large incidents: | 17 |
| Large fires contained: | 4 |
| Uncontained large fires:** | 16 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 0 |
| Type 2 IMTs committed: | 3 |

Nationally, there are 80 large fires being managed under a strategy other than full suppression. **Uncontained large fires include only fires being managed under a full suppression strategy. Link to Geographic Area daily reports.

Link to Understanding the IMSR.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Fairbanks, AK in support of wildland fire operations in Alaska.

Five wildland fire suppression crews and one Interagency Resource Representative (IARR) are assigned to support large fires in Alberta, Canada.

| | Ac | tive Incide | ent Res | ource S | Summary | |

| <u>Alaska Area (PL 5)</u> | |
|---------------------------|----|
| New fires: | 9 |
| New large incidents: | 11 |
| Uncontained large fires: | 5 |
| NIMOs Committed: | 1 |
| Type 2 IMTs Committed: | 3 |

Shovel Creek, Fairbanks Area, Alaska DOF. IMT 2 (NR Team 6). Twenty miles northwest of Fairbanks, AK. Timber and brush. Minimal fire behavior with smoldering. Residences threatened.

Swan Lake, Kenai-Kodiak Area, Alaska DOF. IMT 2 (EA Gold Team). Started on FWS land six miles northeast of Sterling, AK. Timber and short grass. Moderate fire behavior with backing and creeping. Numerous structures threatened. Area, road and trail closures in effect.

Chalkyitsik Complex (4 Fires), Upper Yukon Zone, BLM. IMT 2 (AK Black Team). Fifteen miles east of Chalkyitsik, AK. Timber. Active fire behavior with wind-driven runs, flanking and backing. Numerous structures threatened.

Boundary River, Tok Area, Alaska DOF. NIMO (Portland). IMT is also managing the McArthur Creek incident. Started on Native Corporation land 37 miles southeast of Tok, AK. Timber and short grass. Minimal fire behavior with creeping and smoldering. Residences threatened.

McArthur Creek, Tok Area, Alaska DOF. Twenty-five miles northeast of Northway, AK. Timber, brush and short grass. Minimal fire behavior with creeping and smoldering. Structures threatened.

Kobe, Fairbanks Area, Alaska DOF. Twenty-five miles northwest of Healy, AK. Timber and tall grass. Active fire behavior with spotting, smoldering and torching.

* **McCally Creek**, Southwest Area, Alaska, DOF. Started on Native Corporation land one mile south of Red Devil, AK. Timber. Moderate fire behavior with creeping and torching. Last narrative report unless significant activity occurs.

Lloyd Mountain, Tanana Zone, BLM. Previously reported incident. Started on state land 33 miles southwest of Manley Hot Springs, AK. Timber and hardwood litter. Minimal fire behavior with smoldering. Residences threatened. Last narrative report unless significant activity occurs.

Foraker, Tanana Zone, BLM. Previously reported incident. Started on NPS land 148 miles southwest of Fairbanks, AK. Timber. Moderate fire behavior. Last narrative report unless significant activity occurs.

Montana Creek, Mat-Su Area, Alaska DOF. Started on private land 13 miles south of Talkeetna, AK. Timber and brush. Minimal fire behavior with smoldering. Residences threatened.

Old Grouch Top, Southwest Area Forestry, Alaska DOF. Previously reported incident. Sixty miles northwest of McGrath, AK. Timber and brush. Extreme fire behavior with running and spotting. Last narrative report unless significant activity occurs. Precipitation occurred over the fire area yesterday.

Page Mountain, Southwest Area Forestry, Alaska DOF. Previously reported incident. Twenty-five miles northwest of McGrath, AK. Timber. Minimal fire behavior with smoldering. Last narrative report unless significant activity occurs.

Kolmakof Hills, Southwest Area, Alaska DOF. Started on Native Corporation land 33 miles southwest of Crooked Creek, AK. Timber and short grass. Active fire behavior with running and torching. Last narrative report unless significant activity occurs.

* **Cotton Village**, Southwest Area, Alaska DOF. Twenty-five miles southeast of Sleetmute, AK. Timber. Active fire behavior with running. Last narrative report unless significant activity occurs.

* **Swift River**, Southwest Area, Alaska DOF. Seventeen miles northeast of Stony River, AK. Timber. Minimal fire behavior with creeping. Last narrative report unless significant activity occurs.

* Horn Foothills, Southwest Area, Alaska DOF. Started on Native Corporation land twenty miles west of Crooked Creek, AK. Timber. Moderate fire behavior with torching and spotting. Last narrative report unless significant activity occurs.

* Little Titnuk, Southwest Area, Alaska DOF. Sixty-five miles southeast of Napaimute, AK. Timber. Active fire behavior with torching and spotting. Last narrative report unless significant activity occurs.

* **Beaver House Hill**, Southwest Area, Alaska DOF. Started on Native Corporation land 12 miles southeast of Sleetmute, AK. Timber. Moderate fire behavior with creeping. Last narrative report unless significant activity occurs.

* **Door Mountains**, Southwest Area, Alaska DOF. Thirty-three miles southwest of Lime Village, AK. Timber. Active fire behavior with torching and spotting. Last narrative report unless significant activity occurs.

* **Molybdenum Mountains**, Southwest Area, Alaska DOF. Thirty-eight miles west of Crooked Creek, AK. Timber. Active fire behavior with running. Last narrative report unless significant activity occurs.

* **Taylor Mountains**, Southwest Area, Alaska DOF. Sixty-six miles southeast of Napaimute, AK. Timber. Active fire behavior with torching and spotting. Last narrative report unless significant activity occurs.

* **Jump Peak**, Southwest Area, Alaska DOF. Started on Native Corporation land seven miles northwest of Red Devil, AK. Timber. Minimal fire behavior with smoldering, creeping and backing.

Caribou Creek, Fairbanks Area, Alaska DOF. Twenty miles northeast of North Pole, AK. Timber and tall grass. No new information. Last report unless new information is received.

Predictive Services Discussion: Below average temperatures will continue along the Pacific Coast as a trough of low pressure remains entrenched. Northerly flow across northern California will allow for continued drying of the fuels. Dry, breezy winds will continue across the Great Basin through mid-week with monsoon moisture remaining over eastern Arizona and New Mexico. In the East, the remnants of Tropical Storm Barry will continue to bring rainfall to the middle Mississippi River Valley. Further east, hot and humid conditions will continue across the South. In Alaska the convective pattern will continue as scattered wet storms develop around the periphery of the Interior. Easterly flow will be present across areas experiencing fire in the state.

Managing Vehicle Traffic In Smoke

Vehicles/Roads Category

Smoke has the potential to cause safety hazards to vehicle traffic in the vicinity of active fires (both wildfires and prescribed), especially at night. The following traffic-related items should be considered and addressed in local unit planning documents prior to an incident/project.

- Identification, location, and phone numbers of local units that have law enforcement and traffic control responsibilities in the smoke-impacted areas. Review any local agreements with these agencies presently in place.
- Identification of important, public roads that may be impacted by smoke.
- Identification of adequate equipment and trained personnel to control traffic. This may include warning signs, communications equipment (preferably not using the active fire frequency) and vehicles equipped with warning or flashing lights.
- Identification and phone numbers of radio and television stations that can issue traffic advisories for the smoke-impacted area.
- Identification of alternative traffic routes as part of the incident/project traffic plan.
- Identification of traffic routes subject to temperature inversions as well as contributory factors such as fog and ice.
- When potential smoke-related problems are identified:
 - Advise the Incident Commander, Burn Boss, or Agency Administrator that severe smoke exists.
 - Notify local law enforcement units and highway departments of a potential problem.
 - Implement preplanned actions such as posting smoke warning signs.
 - Ensure that proper equipment is ready, and appropriate personnel are briefed on contingency plans and are available to control traffic.
