

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, July 24, 2019 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Moderate (226) new fires
New large incidents:	20
Large fires contained:	6
Uncontained large fires:**	29
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

Nationally, there are 102 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Alaska Area (PL 5)

New fires:	14
New large incidents:	4
Uncontained large fires:	6
NIMOs committed:	1
Type 2 IMTs Committed:	4

Chalkyitsik Complex (4 Fires), Upper Yukon Zone, BLM. Transfer of command from IMT 2 (AK Black Team) to IMT 2 (AK Green Team) will occur tomorrow. Fifteen miles east of Chalkyitsik, AK. Timber. Active fire behavior with flanking, group torching and backing. Numerous structures threatened.

Shovel Creek, Fairbanks Area, Alaska DOF. IMT 2 (NR Team 6). Twenty miles northwest of Fairbanks, AK. Timber and brush. Moderate fire behavior with flanking, short-range spotting and group torching.

Swan Lake, Kenai-Kodiak Area, Alaska DOF. IMT 2 (EA Gold Team). Started on FWS land six miles northeast of Sterling, AK. Timber and short grass. Moderate fire behavior with creeping and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

Cornucopia Complex (8 Fires), Upper Yukon Zone, BLM. NIMO (Portland). Twenty-five miles west of Fort Yukon, AK. Timber and brush. Extreme fire behavior with running, group torching and backing. Reduction in acreage due to more accurate mapping.

Kobe, Fairbanks Area, Alaska DOF. Twenty-five miles northwest of Healy, AK. Timber and tall grass. Minimal fire behavior with smoldering.

Grouse Creek, Tanana Zone, BLM. Nine miles northeast of Rampart, AK. Timber. Active fire behavior with backing and single tree torching. Structures threatened. Last narrative report unless significant activity occurs.

Little Creek, Tanana Zone, BLM. Started on state land six miles east of Ruby, AK. Timber. Moderate fire behavior with creeping and smoldering.

Boundary River, Tok Area, Alaska DOF. Started on Native Corporation land 37 miles southeast of Tok, AK. Timber and short grass. Minimal fire behavior with creeping and smoldering. Residences threatened.

Montana Creek, Mat-Su Area, Alaska DOF. Started on private land 13 miles south of Talkeetna, AK. Timber and brush. Minimal fire behavior with smoldering. Residences threatened.

Tom Cook Slough, Galena Zone, BLM. Started on FWS land 15 miles northwest of Huslia, AK. Brush and short grass. Minimal fire behavior with smoldering and creeping. Precipitation occurred over the fire area yesterday. Last narrative report unless significant activity occurs.

* **Strangle Creek**, Upper Yukon Zone, BLM. Started on FWS land ninety-five miles northeast of Chalkyitsik, AK. Timber and brush. Moderate fire behavior. Last narrative report unless significant activity occurs.

* **Toklat River**, Tanana Zone, BLM. Thirty miles west of Anderson, AK. Timber. Minimal fire behavior with creeping. Last narrative report unless significant activity occurs.

* **Buster Creek**, Tanana Zone, BLM. Thirty-five miles west of Tanana, AK. Timber. Minimal fire behavior with creeping, single tree torching and smoldering. Last narrative report unless significant activity occurs.

* **Batchelor Creek**, Upper Yukon Zone, BLM. Twenty-six miles north of Chena Hot Springs, AK. Timber and brush. Minimal fire behavior with smoldering and backing. Last narrative report unless significant activity occurs.

Predictive Services Discussion: A fast moving cold front will sweep east across the Pacific Northwest and Northern Rockies, pushing the northern edge of the monsoonal moisture plume east into the Great Plains. The passing front will also cool temperatures across the northwestern quarter of the country. To the south, scattered storms will redevelop across the Four Corner states. Cooler temperatures will remain entrenched in the East, leading to another cooler day. In Alaska, the ridge of high pressure will migrate east into the Yukon Territory. This will allow for the moisture that was previously located over the southern Interior to migrate northwestward, possibly leading to additional fire starts.

SAFENETs

Fire Communication Category

SAFENET is a form and process for front line firefighters that provides a way to be heard and get unsafe situations resolved. SAFENET has been in demand by firefighters themselves. It is a method for prompt reporting and timely resolution of safety and health concerns encountered in wildland fire, all hazard operations, or other related work environments. The information on the form assists in the collection of important, safety-related data at the National Interagency Fire Center, to determine long-term trends and problem areas. Here are some facts about SAFENET and how it works.

- Individuals who observe or who are involved in an unsafe situation shall initiate corrective actions if possible, and then report the occurrence using SAFENET. SAFENET reports should identify unsafe situations in wildland fire, all hazard operations, or other related work environments.
- SAFENETs should be submitted to the first line supervisor, whose responsibility it is to resolve the situation as quickly as possible.
- SAFENETs may also be submitted directly to the SAFENET system via: <https://safenet.nifc.gov/sindex.cfm>
- SAFENET was originally intended for wildland fire operations, but can be used to report on activities such as training, and all hazard events.
- Submitters are encouraged, but not required, to put your name on the report. You don't have to identify yourself to fill out a SAFENET, you can do it anonymously. All SAFENETs will be sanitized before posting to the web. See [SAFENET Protocols](#) for sanitizing process.
- There is no punishment or penalty for filing a SAFENET, nor is it mandatory.
- SAFENETs related to incidents that have on-going serious accident investigations will not be posted until formal investigation process is completed. These SAFENETs will be sent directly to the serious accident investigation team.
- SAFENETs that do not meet posting criteria (see [SAFENET Protocols](#)) will not be posted to the website.

SAFENET is not the only way to correct a safety-related concern; it does not replace accident reporting or any other official agency reporting method. It's simply an easy, quick way to report a safety concern. It's also a way for front line firefighters to be involved in the daily job of being safe and keeping others safe, by documenting and helping to resolve safety issues.

The NWCG encourages comments and suggestions for improvement of the SAFENET program. Please share your ideas by emailing the SAFENET_Administrator@blm.gov.
