Predictive Services Discussion: Monsoonal convection across the Southwest will begin to become somewhat suppressed, as the Four Corners high begins to migrate further to the west and flatten. An induced northerly flow will begin to push the moisture plume south. To the north, another dry cold front will begin to move on shore and into the Pacific Northwest. This will create breezy and dry conditions across the Columbia Basin and across northern California. Scattered showers will continue across Alaska, as moisture continues to feed into the state from the south. Temperatures across the East will warm to be above normal as high pressure begins to develop over Florida and the Bahamas.

Lookouts (LCES)<br>Operational Engagement Category

Lookouts are often better situated to notice the cumulative changes of fire behavior.
Fire Order \#5 says "Post lookouts when there is possible danger." Should you utilize lookouts at all times?

- Lookouts should be posted at all times.

What are you looking for when you are selecting a lookout location?

- Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
- Never rely exclusively on aircraft as your lookout.

What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?

- Experienced firefighter.
- Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
- Knowledge of crew locations, escape and safety locations and trigger points.
- Good communicator - keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
- Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.
- Knowledge of weather patterns, and signs of incoming weather changes.

What is the necessary equipment for a lookout?

- PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, water and watch.
