

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, July 27, 2019 – 0530 MT
National Preparedness Level 2**

National Fire Activity

| | |
|-------------------------------|-----------------------|
| Initial attack activity: | Light (160 new fires) |
| New large incidents: | 4 |
| Large fires contained: | 4 |
| Uncontained large fires:** | 20 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 4 |

Nationally, there are 119 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Alaska Area (PL 4)

New fires: 5
 New large incidents: 0
 Uncontained large fires: 4
 NIMOs committed: 1
 Type 2 IMTs committed: 2

Chalkyitsik Complex (4 fires), Upper Yukon Zone, BLM. IMT 2 (AK Green Team). Fifteen miles east of Chalkyitsik, AK. Timber. Active fire behavior with torching, running and flanking. Numerous residences threatened.

Cornucopia Complex (9 fires), Upper Yukon Zone, BLM. NIMO (Portland). Twenty-five miles west of Fort Yukon, AK. Timber and brush. Moderate fire behavior with flanking, backing and creeping.

Grouse Creek, Tanana Zone, BLM. Previously reported incident. Nine miles northeast of Rampart, AK. Timber. Moderate fire behavior with backing and creeping. Structures threatened. Precipitation occurred over the fire area yesterday. Last narrative report unless significant activity occurs.

Swan Lake, Kenai-Kodiak Area, Alaska DOF. IMT 2 (EA Gold Team). Started on FWS land six miles northeast of Sterling, AK. Timber and short grass. Minimal fire behavior with smoldering. Numerous structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Shovel Creek, Fairbanks Area, Alaska DOF. Twenty miles northwest of Fairbanks, AK. Timber and brush. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

Smith Creek, Southwest Area, Alaska DOF. Previously reported incident. Fourteen miles northwest of Crooked Creek, AK. Timber. Minimal fire behavior with smoldering and creeping. Last narrative report unless significant activity occurs.

Kobe, Fairbanks Area, Alaska DOF. Twenty-five miles northwest of Healy, AK. Timber and tall grass. Minimal fire behavior with smoldering.

Little Creek, Tanana Zone, BLM. Started on state land six miles east of Ruby, AK. Timber. Moderate fire behavior. Precipitation occurred over the fire area yesterday.

Montana Creek, Mat-Su Area, Alaska DOF. Started on private land 13 miles south of Talkeetna, AK. Timber and brush. No new information. Last report unless new information is received.

Garnet Creek, Tanana Zone, BLM. Previously reported incident. Started on Native Corporation land 12 miles southeast of Rampart, AK. Timber. Moderate fire behavior with backing. Precipitation occurred over the fire area yesterday. Last narrative report unless significant activity occurs.

New fires: 19
 New large incidents: 0
 Uncontained large fires: 2
 Type 1 IMTs committed: 1

Museum, Coconino NF. IMT 1 (SW Team 2). One mile north of Flagstaff, AZ. Timber and logging slash. Moderate fire behavior with creeping, single tree torching and smoldering. Area, road and trail closures in effect.

Cellar, Prescott NF. Twenty miles south of Prescott, AZ. Brush and short grass. Minimal fire behavior. Area, road and trail closures in effect.

Hart, Coconino NF. Previously reported incident. Twenty miles northeast of Payson, AZ. Timber and short grass. Moderate fire behavior with creeping. Last narrative report unless significant activity occurs.

Predictive Services Discussion: A cooler but breezy westerly flow will be in place across the northwestern states as the previous day's front moves into the northern Great Plains. As the front passes, the scattered wet and dry convection will be pushed east into Wyoming, Nebraska and the Dakotas across northern portions of the country, while the monsoonal flow is expected to continue over the Southwest and southern Great Basin. In the East, hot and humid conditions will continue as a weak high pressure area remains centered over the Ohio River Valley. In Alaska, showers with embedded thunderstorms will continue across much of the state as two low pressure systems, one over northeastern Siberia and the other in the Gulf of Alaska, feed moisture into the state's interior.

Hydration

Firefighter Health & First Aid

Dehydration is the result of the body trying to regulate its temperature naturally through sweating. Maintaining body fluids is essential for sweating. You must hydrate before, during, and after work.

- Studies conducted on wildland firefighters indicate that during fire suppression activities firefighters need to drink a minimum of 1 quart of fluid each hour of work.
- Before work you should take extra fluids to prepare for the heat. Drink 1 or 2 cups of water, juice, or a sport drink before work.
- While working drink at least 1 quart of fluid per hour. Drink as much as you can during the lunch break. Water is your greatest need during work in the heat.
- Hyponatremia (abnormally low concentration of sodium in the blood) as a result of excessive water intake a potentially life-threatening complication and can be prevented when rehydration is enhanced by fluids containing sodium and potassium, or when foods with these electrolytes are consumed along with water.
- After work it is important to continue drinking to replace fluid losses. Thirst always underestimates fluid needs, so you should drink more than you think you need.
- Unacclimatized workers lose more salt in the heat so they need to pay particular attention to salt replacement.
- Don't overdo salt intake; too much salt impairs temperature regulation. Excessive salt can cause stomach distress, fatigue, and other problems.
- You can assess your hydration by observing the volume, color, and concentration of your urine. Low volumes of dark, concentrated urine or painful urination indicate a serious need for rehydration. Other signs of dehydration include a rapid heart rate, weakness, excessive fatigue, and dizziness.
- Rapid loss of several pounds of body weight is a certain sign of dehydration. Rehydrate before returning to work; continuing to work in a dehydrated state can lead to serious consequences, including heat stroke, muscle breakdown, and kidney failure.

Discussion Points

- What are you doing right now to ensure that you are hydrated?
