# National Interagency Coordination Center Incident Management Situation Report <br> Saturday, August 10, 2019 - 0530 MT <br> National Preparedness Level 3 

National Fire Activity
Initial attack activity:
Light (180 new fires)
New large incidents:
Large fires contained: 5

Uncontained large fires:** 8

Area Command teams committed: 0
NIMOs committed:
1
Type 1 IMTs committed:
0
Type 2 IMTs committed:
Nationally, there are 56 large fires being managed under a strategy other than full suppression. *** Uncontained large fires include only fires being managed under a full suppression strategy. Link to Geographic Area daily reports.

Link to Understanding the IMSR.

## Northwest Area (PL 3)

New fires:
New large incidents:
Uncontained large fires: 6
NIMOs committed: 1
Type 2 IMTs committed:
Williams Flats, Colville Agency, BIA. IMT 2 (NW Team 8). Five miles southeast of Keller, WA. Timber, brush and short grass. Moderate fire behavior with uphill runs, flanking and short-range spotting. Structures threatened. Evacuations, area and road closures in effect.

163 HK Complex (3 fires), Umatilla NF. IMT 2 (NW Team 6). Fifteen miles north of Monument, OR. Timber, brush and light logging slash. Moderate fire behavior with creeping, smoldering and isolated torching. Area and road closures in effect.

Devore Creek, Okanogan-Wenatchee NF. NIMO (Phoenix). Three miles southwest of Stehekin, WA. Timber and brush. Minimal fire behavior with creeping, backing and flanking. Trail closures in effect.

MP 97, South Unit, Oregon DOF. One mile south of Canyonville, OR. Timber. No new information.

* North Mill Creek, Colville NF. Twelve miles northeast of Colville, WA. Timber and heavy logging slash. Active fire behavior. Road closures in effect.
* Ward, Klamath Unit, ODF. IMT 2 mobilizing. Thirteen miles west of Keno, OR. Timber and brush. Active fire behavior with group torching, running and long-range spotting.

E Evans Creek, Medford Unit, Oregon DOF. Ten miles northwest of Sams Valley, OR. Timber, chaparral and brush. No new information. Last report unless new information is received.

## Great Basin Area (PL 3)

New fires:
New large incidents:
Uncontained large fires:
Type 2 IMTs committed:
Nethker, Payette NF. IMT 2 (GB Team 3). Thirty miles northeast of McCall, ID. Timber. Moderate fire behavior with creeping and backing. Structures threatened. Evacuations, area, road and trail closures in effect.

Cove Creek, Salmon-Challis NF. IMT 2 (GB Team 7). Twenty-seven miles northwest of Salmon, ID. Timber and tall grass. Moderate fire behavior with backing, flanking and creeping. Structures threatened. Trail closures in effect. Precipitation occurred over the fire area yesterday.

Corta, Elko District, BLM. Eight miles southeast of Jiggs, NV. Timber, brush and tall grass. Moderate fire behavior with creeping and smoldering. Road closures in effect. Reduction in acreage due to more accurate mapping.

* Frehner Canyon, Arizona Strip Field Office, BLM. Ten miles east of Mesquite, NV. Brush and short grass. Moderate fire behavior with creeping, smoldering and backing.

Green Springs, Humboldt-Toiyabe NF. Fifty-one miles southwest of Austin, NV. Timber, brush and grass. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

Shelter Pass, Bear River Area, Utah DOF. Twenty-one miles south of Kelton, UT. Timber, brush and tall grass. Minimal fire behavior. Sage-grouse habitat threatened.

Goose, Elko District, BLM. Twenty-five miles east of Jackpot, NV. Timber, brush and tall grass. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

Alaska, Uinta-Wasatch-Cache NF. Three miles southeast of Provo, UT. Brush and grass. Minimal fire behavior. Last narrative report unless significant activity occurs.

## Southern Area (PL 1)

New fires:
New large incidents:
Uncontained large fires:
7D, Texas A\&M Forest Service. Started on private land 38 miles west of San Angelo, TX. Brush and tall grass. Active fire behavior with running.

* Chimney Creek, Texas A\&M Forest Service. Started on private land 7 miles southeast of Kalgary, TX. Brush and short grass. Moderate fire behavior with running.

Predictive Services Discussion: The low pressure area will weaken as it moves inland across Oregon. Significant wetting precipitation is expected across portions of the Pacific Northwest, Idaho, and the Northern Rockies as it begins to move northeast. While the system will bring noticeably cooler temperatures, breezy winds with low humidities are expected across the northern Great Basin and northeastern California. Monsoonal flow over Arizona will be relocated further east over New Mexico as the Four Corners High pressure area remains parked over Texas where the hot and dry conditions will continue. A stalled frontal boundary over the Southeast will lead to scattered storms across Georgia, Alabama, South Carolina and northern Florida. The Northeast will remain breezy under a dry northwesterly flow.

My Safety

Leadership Category

An important aspect of safety is individual responsibility for one's own health \& safety. Even with the best supervision, each individual firefighter will occasionally be required to make personal decisions concerning their safety. It is important that individual responsibility be taught as the basis for a viable safety program. Some of those individual responsibilities are:

- Fitness for duty. Begin each work shift both mentally and physically prepared for the rigors of wildland firefighting. Getting adequate sleep, maintaining a healthy diet, and proactively participating in physical training are the foundation of "My Safety."
- Utilization of personal protective equipment. Wear your PPE without being told. Each individual is responsible for performing their own risk assessments. If a hazard is identified that can be mitigated by wearing a particular PPE component it should be utilized. Fireline supervisors have more important duties to focus on other than performing glove patrol.
- Following safe work practices. Using a spotter when backing up vehicles is the prudent and professional course of action. If you are unsure of how to perform a job task safely, ask your supervisor or experienced coworker.
- Using the correct reference materials is an important aspect of safety. You should have a working knowledge of the Interagency Standards for Fire \& Fire Aviation Operations (Red Book), Incident Response Pocket Guide (IRPG), PMS 461, and your local operating guidelines.
- Ensure instructions are clearly understood. Communication is a basic responsibility for all fire personnel. Ask appropriate questions to clarify uncertain issues. Speak up when you observe hazards that may place yourself or others at risk.
- Maintain situational awareness at all times. Awareness is a vital component of "My Safety." Pay attention to what is happening around your area of operations. Always display an awareness of what is happening around you by asking questions or making comments.

## Summary:

Do not expect someone else to be responsible for your safety. Take it upon yourself to make "My Safety" your number one priority.

## Discussions Points:

1. Talk about ways you can improve on your safety.
2. Have your supervisor talk about their expectations for individual safety.
