

**National Interagency Coordination Center  
Incident Management Situation Report  
Friday, August 16, 2019 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (108 new fires)
New large incidents:	8
Large fires contained:	8
Uncontained large fires:***	20
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

Nationally, there are 42 large fires being managed under a strategy other than full suppression.

\*\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

## Great Basin Area (PL 2)

New fires:	9
New large incidents:	3
Uncontained large fires:	7
Type 2 IMTs committed:	1

**Nethker**, Payette NF, USFS. IMT 2 (GB Team 3). Thirty miles northeast of McCall, ID. Timber. Moderate fire behavior with creeping, backing and isolated torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

**Wood Canyon**, Carson City District, BLM. Seventy-five miles south of Winnemucca, NV. Timber, chaparral and short grass. Moderate fire behavior with torching, spotting and creeping.

\* **Treasureton**, Franklin County. Thirteen miles north of Preston, ID. Brush and tall grass. Active fire behavior with running and spotting. Structures threatened.

**Cove Creek**, Salmon-Challis NF, USFS. Twenty-seven miles northwest of Salmon, ID. Timber and tall grass. Minimal fire behavior with creeping and smoldering. Structures threatened. Trail closures in effect.

**Corta**, Elko District, BLM. Eight miles southeast of Jiggs, NV. Timber, brush and tall grass. Minimal fire behavior.

\* **Mayfield**, Boise District, BLM. Ten miles southeast of Boise, ID. Brush and short grass. Active fire behavior with running, flanking and backing. Structures threatened.

\* **Prospect**, Boise District, BLM. Twelve miles southeast of Boise, ID. Brush and short grass. Active fire behavior with running, flanking and backing. Structures threatened.

**Peavine Canyon**, Manti-La Sal NF, USFS. Previously reported incident. Twenty-two miles west of Blanding, UT. Timber and brush. Moderate fire behavior with backing, creeping and isolated torching. Area, road and trail closures in effect. Structures threatened. Last narrative report unless significant activity occurs.

**Predictive Services Discussion:** The cold front moving southeast across the Northern Rockies will stall out as a low pressure area located just southwest of the front over Oregon begins to develop. Widespread showers and storms are expected across Montana, Wyoming, Colorado, New Mexico and extreme West Texas as the front interacts with the monsoonal plume moving north. Northerly downsloping winds will continue across northern California. Seasonably hot and humid conditions will continue across the Southeast as a weak high pressure ridge begins to move into the region from the west. In Alaska, warm, breezy, and dry conditions will continue along the south central coast as a wet cold front moves east across the Interior into the Yukon Territory.

# Fatigue & Stress

*Firefighter Health First-Aid Category*

Accumulated (Chronic) Fatigue is defined as fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, which results in decreased productivity, compromised immune function, and reduced alertness. Fatigued workers perform poorly, behave carelessly, tolerate greater errors and become inattentive. Chronic fatigue often results in increased stress, which may present itself through certain behavioral and physiological indicators, such as those described below:

Behavioral indicators:

- Decreased motivation and low morale.
- Increased irritability and depression.

Physiological indicators:

- Confused, poor problem-solving.
- Poor abstract thinking.
- Poor attention/decisions.
- Poor concentration/memory.
- Extreme emotional responses.
- Social/behavioral changes.

Recommendations for chronic fatigue/stress are:

- Take longer periods of rest/recovery.
- Ensure that workers are adequately rested before they begin work shifts.
- Provide periodic rest breaks to allow physical and mental recovery.
- Alternate between heavy and light tasks.
- Eat well-balanced meals regularly, with energy supplements during periods of high exertion.
- Maintain hydration.
- Ensure workers maintain good personal hygiene.
- Maintain high standards of physical fitness and work capacity.
- In extreme cases, personnel may need to be relieved of their duties.
