

**National Interagency Coordination Center
Incident Management Situation Report
Monday, June 8, 2020 – 0730 MT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (133 new fires)
New large incidents:	7
Large fires contained:	4
Uncontained large fires:***	18
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	1

Nationally, there are 12 large fires being managed under a strategy other than full suppression.

*** Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 3)

New fires:	39
New large incidents:	6
Uncontained large fires:	11
Type 1 IMTs committed:	2

* **Bighorn**, Coronado NF, USFS. IMT 1 (SW Team 2) mobilizing. Three miles southeast of Oro Valley, Arizona. Brush and tall grass. Active fire behavior with torching, flanking and backing. Numerous structures threatened. Road, trail and area closures in effect.

Sawtooth, Tonto National Forest, USFS. Transfer of command from IMT 1 (SW Team 1) back to the local unit will occur tomorrow. Seven miles northwest of Superior, AZ. Brush and short grass. Minimal fire behavior. Road, trail and area closures in effect.

Blue River, San Carlos Agency, BIA. Eight miles northeast of San Carlos, AZ. Brush and tall grass. Extreme fire behavior. Structures threatened.

Tortolita, Southeast District, Arizona DOF. Seven miles northwest of Catalina, AZ. Brush and short grass. Active fire behavior with wind-driven runs and backing. Numerous residences threatened. Road closures in effect.

* **Emigrant**, Coronado NF, USFS. Twenty-five miles southeast of Willcox, AZ. Brush and tall grass. Moderate fire behavior with running, flanking and backing. Residences threatened.

* **Tadpole**, Gila NF, USFS. Twelve miles north of Silver City, NM. Timber and brush. Active fire behavior with uphill runs, backing and flanking. Structures threatened. Road, trail and area closures in effect.

* **Fort Craig**, Socorro Field Office, BLM. Started on Bureau of Reclamation land one mile south of Fort Craig, NM. Chaparral and hardwood litter. Active fire behavior with torching, short-range spotting and creeping. Energy infrastructure threatened.

Bringham, Apache-Sitgreaves NF, USFS. Twenty-five miles north of Morenci, AZ. Brush and timber litter. Moderate fire behavior with group and single tree torching.

* **Dry Lake**, San Carlos Agency, BIA. Thirty-four miles east of San Carlos, AZ. Brush, tall grass and timber litter. Moderate fire activity with backing, flanking and isolated torching.

Rafael, Southeast District, Arizona DOF. Fifteen miles southeast of Nogales, AZ. Brush and tall grass. Minimal fire behavior.

Farm Camp, Las Vegas District, New Mexico State Forestry Division. Five miles southeast of Mosquero, NM. Tall grass. No new information.

* **Uvas**, Las Cruces District, BLM. Eleven miles southwest of Hatch, NM. Brush and tall grass. Active fire behavior with wind-driven runs, backing and running. Last narrative report unless significant activity occurs.

Rocky Mountain Area (PL 2)

New fires: 13
 New large incidents: 0
 Uncontained large fires: 4

Bent Canyon, Fort Carson Army Base, DOD. Twenty-six miles southwest of La Junta, CO. Brush and short grass. Active fire behavior with isolated torching.

Wilson Crossing, Royal Gorge Field Office, BLM. Twenty miles northeast of Walsenburg, CO. Short grass and closed timber litter. Minimal fire behavior with creeping, smoldering and isolated torching.

Sieber, Grand Junction Field Office, BLM. Fifteen miles southwest of Fruita, CO. Brush. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

Hunter, Grand Junction Field Office, BLM. Ten miles northwest of Fruita, CO. Timber. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: High pressure will approach the West Coast and provide a warming and drying trend for the West. Temperatures will return to normal or above West-wide. Scattered wet storms will be possible across Wyoming and northern Colorado as a cold front moves east toward the Great Plains. Breezy westerly winds are expected across Arizona and New Mexico and will lead to locally critical fire weather conditions. To the east, Tropical Storm Cristobol will move north toward Arkansas and will quickly weaken. Hot and dry conditions are expected to the north across the Ohio River Valley and the Great Lakes as high pressure over the remainder of the East remains strong. In Alaska, widely scattered storms will be possible across the eastern Interior, including the Upper Yukon Basin.

Escape Routes 2

Operational Engagement Category

Escape Routes are the path the firefighter takes from their current locations – when exposed to danger – to an area free from danger. Notice that escape routes is used instead of escape route(s). Unlike the other components, there always must be more than one escape route available to the firefighter.

Escape routes are probably the most elusive component of LCES. Their effectiveness changes continuously. As the firefighter works along the fire perimeter, fatigue and spatial separation increase the time required to reach the safety zone.

The most common escape route (or part of an escape route) is the fireline. On an indirect or parallel fireline, situations become compounded. Unless safety zones have been identified ahead, as well as behind, firefighters retreat may not be possible.

- Have you ever timed an escape route? If not, how do you judge its effectiveness?

- Describe a time when you were uncomfortably distant from your escape route.

- Describe a method you have used to communicate an escape route to your crews.
