

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, June 11, 2020 – 0730 MT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (103 new fires)
New large incidents:	5
Large fires contained:	4
Uncontained large fires:***	20
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

Nationally, there are 14 large fires being managed under a strategy other than full suppression.

*** Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 3)

New fires:	10
New large incidents:	0
Uncontained large fires:	13
Type 1 IMTs committed:	1
Type 2 IMTs committed	1

Bighorn, Coronado NF, USFS. IMT 1 (SWA Team 2). Five miles northeast of Tucson, AZ. Brush, tall grass and hardwood slash. Active fire behavior with uphill runs, running and flanking. Numerous structures threatened. Trail and area closures in effect.

Mangum, Kaibab NF, USFS. IMT 2 (SWA Team 3). Twenty-four miles southeast of Fredonia, AZ. Timber, brush and short grass. No new information.

Sawtooth, Tonto NF, USFS. Seven miles northwest of Superior, AZ. Brush and short grass. Minimal fire behavior with smoldering.

Blue River, San Carlos Agency, BIA. Eight miles northeast of San Carlos, AZ. Brush and tall grass. Moderate fire behavior with backing, creeping and flanking. Structures threatened.

Emigrant, Coronado NF, USFS. Twenty-five miles southeast of Willcox, AZ. Brush and tall grass. Minimal fire behavior with backing and smoldering. Residences threatened.

Dry Lake, San Carlos Agency, BIA. Thirty-four miles east of San Carlos, AZ. Brush, tall grass and timber. Moderate fire behavior with uphill runs, backing and flanking. Structures threatened.

Tadpole, Gila NF, USFS. Twelve miles north of Silver City, NM. Timber, brush and chaparral. Active fire behavior with uphill runs, flanking and backing. Structures threatened. Road, trail and area closures in effect.

Fort Craig, Socorro Field Office, BLM. Started on Bureau of Reclamation land one mile south of Fort Craig, NM. Chaparral and hardwood litter. Minimal fire behavior with smoldering.

Bringham, Apache-Sitgreaves NF, USFS. Twenty-five miles north of Morenci, AZ. Brush and timber litter. Active fire behavior with uphill runs, group torching and flanking. Structures threatened. Road, trail and area closures in effect.

Turkey, Gila NF, USFS. Twenty-seven miles northwest of Mimbres, NM. Timber, brush and tall grass. Moderate fire behavior with flanking, creeping and backing.

Farm Camp, Las Vegas District, New Mexico State Forestry Division. Previously reported incident. Five miles southeast of Mosquero, NM. Tall grass. Active fire behavior.

Tortolita, Southeast District, Arizona DOF. Seven miles northwest of Catalina, AZ. Brush and short grass. No new information. Last report unless new information is received.

Good, Gila NF, USFS. Previously reported incident. Twenty-nine miles north of Silver City, NM. Timber, brush and tall grass. Moderate fire behavior with flanking, creeping and backing.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: The high pressure ridge over the Great Basin will move east toward the Continental Divide and will allow for a cold front to enter the Pacific Northwest that will bring scattered showers and storms. Further south across California and southeast across the Great Basin, hot and dry conditions are expected. Borderline critical fire weather conditions will be possible across Nevada as breezy southwesterly winds develop in the afternoon and interact with the very low humidities that are in place. Isolated storms will be possible along the entirety of the Continental Divide in the afternoon. In the East, windy conditions will dominate across the Great Lakes region. In Alaska, scattered storms will redevelop across the Southeastern Interior. Isolated storms will be possible on the western fringes of the Brooks Range and across Southwest Alaska.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

HAZMAT INCIDENT OPERATIONS

Miscellaneous Fireline Hazards

Firefighters who may encounter hazardous materials (hazmat) in the field should always recognize that hazmat requires special precautions. Hazardous materials in the field include, but are not limited to, clandestine drug waste, which may look like common household trash at first glance; midnight dumping, which may be recognized by the presence of barrels or containers; discoloration of land, plants, or water, and/or dead vegetation and animals; and transportation accidents with spillage or release of hazmat that may result in danger to life, property, or resources.

Think Safety

- Assess situation.
- Safe approach: upwind/upgrade/upstream.
- Identify, isolate, establish perimeter, and deny entry.
- Notify agency dispatcher.
- Use *Global Positioning System (GPS)* for exact location.
- Request assistance and identify a safe route.

Scene Management

- The goal is to protect life, environment, and property.
- Attempt to identify substance using *Emergency Response Guide* (use binoculars to look for placards/labels, container shapes/colors, Material Safety Data Sheets, shipping papers, and license plate).
- Assess quantity of material involved.
- Identify exposures and hazards surrounding the site.
- Anticipate weather influences.

Isolation Distances

- Minor event (1 drum, 1 bag, etc.) = 150 feet.
- Major event (more than 1 drum or bag, etc.) = 500 feet.
- Residential/light commercial = 300 feet.
- Open areas = 1,000 feet.
- BLEVE (Boiling Liquid Expanding Vapor Explosion) potential = 2,500 feet (one-half mile).
- Stage arriving units 2,500 feet upwind.
- Position vehicles heading out.
