

**National Interagency Coordination Center  
Incident Management Situation Report  
Thursday, June 18, 2020 – 0730 MT  
National Preparedness Level 3**

**National Fire Activity:**

Initial attack activity:	Light (88 new fires)
New large incidents:	8
Large fires contained:	6
Uncontained large fires:***	22
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

Nationally, there are 17 large fires being managed under a strategy other than full suppression.

\*\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

## **Southwest Area (PL 4)**

New fires:	6
New large incidents:	0
Uncontained large fires:	8
Type 1 IMTs committed:	2
Type 2 IMTs committed	3

**Bush**, Tonto NF, USFS. Transfer of command from IMT 2 (SW Team 5) to IMT 1 (SW Team 1) will occur tomorrow. Thirty-eight miles northeast of Mesa, AZ. Brush and tall grass. Extreme fire behavior with wind-driven runs, flanking and torching. Numerous structures threatened. Evacuations, road, trail and area closures in effect.

**Bighorn**, Coronado NF, USFS. IMT 1 (SW Team 2). Five miles northeast of Tucson, AZ. Brush, tall grass and hardwood slash. Extreme fire behavior with crowning, wind-driven runs and spotting. Numerous structures and energy infrastructure threatened. Evacuations, trail and area closures in effect.

**Mangum**, Kaibab NF, USFS. IMT 2 (SW Team 3). Twenty-four miles southeast of Fredonia, AZ. Timber, brush and short grass. Extreme fire behavior with wind-driven runs, torching and short-range spotting. Numerous structures and energy infrastructure threatened. Evacuations, road, trail and area closures in effect.

**Bringham**, Apache-Sitgreaves NF, USFS. IMT 2 (SW Team 4). Twenty-five miles north of Morenci, AZ. Brush and timber litter. Active fire behavior with backing and creeping. Structures threatened. Road, trail and area closures in effect.

**Tadpole**, Gila NF, USFS. Twelve miles north of Silver City, NM. Timber, brush and chaparral. Moderate fire behavior with flanking, backing and single tree torching. Structures threatened. Road, trail and area closures in effect.

**Blue River**, San Carlos Agency, BIA. Eight miles northeast of San Carlos, AZ. Brush and tall grass. Minimal fire behavior with smoldering.

**Dry Lake**, San Carlos Agency, BIA. Thirty-four miles east of San Carlos, AZ. Brush, tall grass and timber. Minimal fire behavior with smoldering.

**Good**, Gila NF, USFS. Twenty-nine miles north of Silver City, NM. Timber, brush and tall grass. Minimal fire behavior with creeping and smoldering.

**Predictive Services Discussion:** Showers and storms will continue over the Northern Rockies and Wyoming as the associated low pressure area moves north into Saskatchewan. Winds across the Southwest will continue to diminish. A large high pressure ridge in the eastern Pacific Ocean will move east toward the West Coast, weaken, and move on shore late in the day. Temperatures will rebound to near normal levels from Washington south to California. In the East, a broad area of low pressure will remain anchored over the Virginias and will keep a majority of the area cool and somewhat moist. New England, however, will remain warm and dry beneath a high pressure ridge. In Alaska, warm and dry conditions will continue for most of the state except for the western Interior where a low pressure area over the Alaskan Peninsula will spread showers into the region

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## No Communication Link

*Fire Communication Category*

Watchout Situation #7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

- Can communication(s) be established?
  - Talk about how communications are set up on fires, including the variables that have to be considered.
  - Review situations where communications were a problem and what was done to fix the problem.
  - Do you need a repeater setup or can an experienced firefighter act as a human repeater?
  
- Is the communication triangle complete?
  - Review the communication triangle, and where it comes up in the "10 Standard Fire Orders" and the "18 Watchout Situations."
  - Discuss ways that firefighters can maintain the communication triangle on the fireline.
  
- Reduce the risks
  - If the situation is complex, wait until communications are in place.
  - Talk about the fires where crews had to leave the line, didn't go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications.
  - Discuss possible scenarios in which communications could be disrupted, and possible solutions.
