Predictive Services Discussion: Borderline critical fire weather conditions due to breezy southwesterly winds and low humidities will continue across northern Nevada and southern Idaho as a low pressure trough off the coast of Washington lingers. Temperatures across the Pacific Northwest will continue to be slightly below average. Scattered wet storms are possible across western portions of the Northern Rockies. A second surge of monsoonal moisture into the Four Corners is expected. So, expect widely scattered storms to develop in the afternoon. In Alaska, high pressure over the western Interior will begin to retreat to Southwest Alaska as another low pressure area moves into northwestern portions of the state and begins to be absorbed into the stronger low pressure area over the northern Yukon Territory. Scattered showers will be possible across the Interior through the day.

Minutes FOR SAFETY

WEEK OF REMEMBRANCE

June 30 - July 6

“We as firefighters can most honor them by recognizing and cherishing the lessons they have imparted to us at the greatest price.” – Paul Gleason

The Week of Remembrance is a somber time for all of us. Spending an entire week discussing loss should cause even the proudest among us to reflect. What we do with that reflection is how we honor those memories.

This is our history. Learn from it today. Use it tomorrow.

Today we mark the anniversary of the [South Canyon Fire](#) and through learning we honor those lost on the fireline that day. Anniversaries of such events provide an opportunity for all of us to reflect on our mission and seek improvement. Reflecting on the pieces written by the authors for this Week of Remembrance, it becomes clear how tightly entwined learning and tragedy are. As a result of these tragedies, we have learned countless lessons that are passed to us through our leaders, our teachers, our mentors, and our conversations with each other.

“We honor and remember through learning.” – Brit Rosso

ACTION: We encourage all fireline personnel, incident management, fire support staff, and program management to take a moment of remembrance, when/if appropriate, to reflect on, and discuss lessons we learned from this Week of Remembrance, and how we will apply those lessons.

In memory of the firefighters mentioned during this Week of Remembrance and to all whose ultimate sacrifice has allowed us to learn...Never Forgotten.
