# National Interagency Coordination Center <br> Incident Management Situation Report <br> Monday, July 13, 2020 - 0730 MT <br> National Preparedness Level 3 

National Fire Activity:
Initial attack activity:
Light (151 new fires)
New large incidents:
9
Large fires contained:
5
Uncontained large fires:*** 24
Area Command teams committed: 0
NIMOs committed:
1
Type 1 IMTs committed:
1
Type 2 IMTs committed:
2
Nationally, there are 10 large fires being managed under a strategy other than full suppression. *** Uncontained large fires include only fires being managed under a full suppression strategy.

*1 Hectare $=2.47$ Acres

Predictive Services Discussion: Isolated monsoonal storms will continue to redevelop over Arizona and New Mexico as the Four Corners High remains over the Southwest and Texas. Hot and dry conditions will continue across both states, the southern Great Basin, and Southern California. To the north a breezy westerly flow will continue across the northern Great Basin, Oregon, Wyoming, Montana, and the Dakotas. A low pressure area moving east from the Great Lakes will bring showers and storms to New England. In Alaska, a breezy westerly flow will develop across the Interior. Isolated storms will be possible across southern portions of the Upper Yukon.

LESD Time

Looking out for our people includes not only those who work for us but also our leaders and peers. Leadership is about influencing others to accomplish tasks that are in the best interest of our organization which often means influencing those above us and leading up. Similarly, we are open to upward leadership - and, in fact, encourage and reward it.
Fire leaders are expected to lead in many directions, an expectation that increases complexity and risk. Summoning the courage needed to intervene and influence peers or leaders above can be difficult, especially if providing unwelcome feedback about behavior or pointing out an alternative to a potentially bad decision. In high-risk environments, no one can afford to assume that anyone has all the answers.
To build the kind of healthy and resilient culture required in the wildland fire service, we lead up - holding our leaders accountable, providing unvarnished situational awareness in challenging situations, and offering unbiased and viable alternatives.

## Discussion Points:

- How can we practice leading up?
- Describe a situation where leading up took place. How was the situation affected?
- Describe a situation where there was opportunity for leading up but it was not done. How was the situation affected?
- Discuss leading "laterally": influencing peers or those with similar responsibilities.
