

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, August 16, 2020 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Initial attack activity:	Light (136 new fires)
New large incidents:	5
Large fires contained:	9
Uncontained large fires:***	27
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	5
Type 2 IMTs committed:	6

Nationally, there are 14 large fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Rocky Mountain Area (PL 4)

New fires:	6
New large incidents:	1
Uncontained large fires:	6
Type 1 IMTs committed:	2
Type 2 IMTs committed:	2

Grizzly Creek, Garfield County. IMT 1 (GB Team 1). One mile east of Glenwood Springs, CO. Timber and brush. Extreme fire behavior with crowning, running and spotting. Energy and transportation infrastructure and numerous structures threatened. Evacuations, area, road and trail closures in effect.

Williams Fork, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. IMT 2 (SW Team 3). Fifteen miles southwest of Fraser, CO. Timber. Extreme fire behavior with long-range spotting, crowning and running. Structures and energy infrastructure threatened. Evacuations, area, road and trail closures in effect.

Pine Gulch, Grand Junction Field Office, BLM. IMT 1 (RM Team 1). Eighteen miles north of Grand Junction, CO. Timber and brush. Extreme fire behavior. Structures, energy infrastructure and sage-grouse habitat threatened. Evacuations and road closures in effect.

Cameron Peak, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. IMT 2 (RM Blue Team). Fifteen miles southwest of Redfeather Lakes, CO. Timber and closed timber litter. Extreme fire behavior with short crown runs and long-range spotting. Structures threatened. Evacuations, area, road and trail closures in effect.

Lake Creek, Medicine Bow-Routt NF, USFS. Thirty miles south of Gillette, WY. Timber, brush and short grass. Minimal fire behavior with smoldering. Structures, energy infrastructure and sage-grouse habitat threatened.

High Bull, Pine Ridge Agency, BIA. Seven miles northeast of Pine Ridge, SD. Tall grass and timber. Minimal fire behavior.

*1 Hectare = 2.47 Acres

Predictive Services Discussion: The Four Corners High will continue to strengthen further as it drifts north into the central Great Basin. Heat across the West will continue to build to near-record highs. Monsoonal convection will be focused mainly along the western edge of the high pressure ridge across California and the Pacific Northwest. A few late day storms will develop across central Idaho. Most storms should be wet but scattered in coverage. Another focus point for afternoon convection will be across eastern Colorado, West Texas, and New Mexico where residual moisture from a departed back door cold front continues to bank up against the southern Continental Divide. In the East, temperatures will be near to below normal as a broad upper level trough lingers. Some convective activity will be possible along the Atlantic Coast south into central Florida.

Fatigue & Stress

Firefighter Health & First Aid

Accumulated (Chronic) Fatigue is defined as fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, which results in decreased productivity, compromised immune function, and reduced alertness. Fatigued workers perform poorly, behave carelessly, tolerate greater errors and become inattentive. Chronic fatigue often results in increased stress, which may present itself through certain behavioral and physiological indicators, such as those described below:

● Behavioral indicators:

- Decreased motivation and low morale.
- Increased irritability and depression.

● Physiological indicators:

- Confused, poor problem solving.
- Poor abstract thinking.
- Poor attention/decisions.
- Poor concentration/memory.
- Extreme emotional responses.
- Social/behavioral changes.

● Recommendations for chronic fatigue/stress are:

- Take longer periods of rest/recovery.
- Ensure that workers are adequately rested before they begin work shifts.
- Provide periodic rest breaks to allow physical and mental recovery.
- Alternate between heavy and light tasks.
- Eat well-balanced meals regularly, with energy supplements during periods of high exertion.
- Maintain hydration.
- Ensure workers maintain good personal hygiene.
- Maintain high standards of physical fitness and work capacity.
- In extreme cases, personnel may need to be relieved of their duties.
