# National Interagency Coordination Center Incident Management Situation Report <br> Saturday, September 5, 2020 - 0730 MDT <br> National Preparedness Level 5 

## National Fire Activity:

Initial attack activity:
Light (74 new fires)
New large incidents:
Large fires contained:
3
Uncontained large fires:*** 65
Area Command teams committed: 1
NIMOs committed: 3
Type 1 IMTs committed: 15
Type 2 IMTs committed: 15
Nationally, there are 25 large fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.
Link to Understanding the IMSR.
NIMO (Houseman) has been assigned to COVID-19 support at Forest Service headquarters in Washington, D.C.

Two hundred thirty-three soldiers from the $14^{\text {th }}$ Brigade Engineer Battalion based out of Joint Base LewisMcChord, Washington are deployed in support of the August Complex.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Fairchild AFB (Spokane, WA), in support of wildland fire operations.

Two MAFFS C-130 airtanker and support personnel each from the 153rd Airlift Wing (Wyoming Air National Guard) and the 146th Airlift Wing (California Air National Guard) have been deployed to support wildland fire operations in California.

Three wildland fire suppression crews and three overhead personnel from Quebec, Canada are supporting fire suppression efforts in the Northern California Area.

## Northern California Area (PL 5)

| New fires: | 14 |
| :--- | :---: |
| New large incidents: | 0 |
| Uncontained large fires: | 24 |
| Area Command: | 1 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 7 |
| Type 2 IMTs committed: | 4 |

Area Command Team (Jalbert) has been mobilized to Northern California to support COVID-19 mitigation planning and the mobilization of international personnel.

Butte/Tehama/Glenn Complex (7 fires), Butte Unit, Cal Fire. IMT 1 (Cal Fire Team 4). Two miles northwest of Oroville, CA. Timber, brush and tall grass. Moderate fire behavior with torching and creeping. Residences threatened. Evacuations, area, road and trail closures in effect.

North Complex (2 fires), Plumas NF, USFS. IMT 1 (CA Team 4). One mile southwest of Crescent Mills, CA. Timber and brush. Active fire behavior with running and single tree torching. Structures threatened.
Evacuations, area, road and trail closures in effect.
August Complex ( 5 fires), Mendocino NF, USFS. IMT 1 (SA Blue Team). Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Active fire behavior with running, flanking and isolated torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Red Salmon Complex (2 fires), Six Rivers NF, USFS. IMT 2 (GB Team 5). NIMO (Quesinberry) and IMT 2 (CA Team 15) mobilizing. Fourteen miles northeast of Willow Creek, CA. Timber and grass. Active fire behavior with uphill runs, backing and torching. Community of Hoopa threatened. Area, road and trail closures in effect.

Sheep, Plumas NF, USFS. IMT 2 (CA Team 10). Thirteen miles east of Westwood, CA. Timber, chaparral and short grass. Minimal fire behavior with creeping, isolated torching and smoldering. Area, road and trail closures in effect.

Woodward, Point Reyes National Seashore, NPS. IMT 1 (NR Team 2). Three miles southwest of Olema, CA. Timber, brush and chaparral. Moderate fire behavior with flanking, backing and creeping. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Hobo, Shasta-Trinity NF, USFS. Seven miles northwest of Junction City, CA. Timber, brush and short grass. Minimal fire behavior with creeping, smoldering and isolated torching. Residences threatened. Reduction in acreage due to more accurate mapping.

CZU Aug Lightning Complex, San Mateo-Santa Cruz Unit, Cal Fire. IMT 1 (Cal Fire Team 3). Eight miles east of Pescadero, CA. Timber, chaparral and closed timber litter. Active fire behavior with backing, creeping and smoldering. Numerous residences and energy infrastructure threatened. Evacuations, area, road and trail closures in effect.

SCU Lightning Complex, Santa Clara Unit, Cal Fire. IMT 1 (Cal Fire Team 6). Five miles southwest of Brentwood, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, creeping and smoldering. Area, road and trail closures in effect.

LNU Lightning Complex (2 fires), Sonoma-Lake Napa Unit, Cal Fire. IMT 1 (Cal Fire Team 2). Two miles north of Barro, CA. Timber, chaparral and tall grass. Minimal fire behavior with creeping and smoldering. Numerous structures, energy and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

W-5 Cold Springs, Northern California District, BLM. Transfer of command from IMT 2 (CA Team 13) back to the local unit will occur on $9 / 7$. Eleven miles east of Madeline, CA. Timber and brush. Minimal fire behavior with creeping, backing and single tree torching. Sage-grouse habitat threatened.

Predictive Services Discussion: Critical fire weather conditions are expected across the Northern Rockies as another, weaker Alberta Clipper moves east-southeast across the region and creates windy conditions from the Continental Divide east into North and South Dakota. While winds won't be as strong as the previous event, humidity levels will be much lower, generally in the lower teens. To the south, the high pressure ridge over the remainder of the West will strengthen and lead to near record heat under hot, dry, and unstable conditions that will promote very active burning conditions. Once again, overnight humidity recoveries will be poor in most areas. In the East, windy conditions will continue across the Great Lakes Region into New England as northwesterly flow strengthens along the Canadian Border. In the Southeast, hazy, hot, and humid conditions will continue under a weakened high pressure ridge.

## http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

Leaders in the wildland fire service are not only empowered but also duty-bound to act on a situation that is within our power to affect, even without direction from above.

This empowerment is not intended to encourage freelancing. In a high-risk environment, freelancing is a dangerous and unpredictable element, causing more harm than good. Ultimately, leaders are always accountable for their actions.

- A bias for action acknowledges wildfire as an environment where events do not always go according to plan.
- At times during an incident, one person may be the only one in a position to see what needs to be done and to make it happen.
- Time may not permit gathering all of the information that one might like to have; if you wait until you have all the facts to be $100 \%$ sure it will almost always be too late.

In these time-critical situations, fire leaders use judgment, act within the intent of their leaders, work in unison with others, develop and communicate a plan, and then inform leaders of actions as soon as safely possible.
On a chaotic and rapidly developing wildfire, one person taking the initiative can make all the difference in seizing and taking advantage of an opportunity. Being hesitant, riskaverse, or indecisive can expose firefighters to greater long-term risks and translate into a waste of time, opportunity, energy, and money.

## Discussion Points

- Discuss the difference between freelancing and a bias for action.
- Describe and discuss instances of taking appropriate action and indecisiveness / non-action.
- How are some ways we train for situations requiring a bias for action?
