Predictive Services Discussion: An upper-level shortwave trough will move over the Northern Rockies as a stronger upper-level trough approaches the Pacific Northwest with widely scattered showers across western Washington and portions of the Northern Rockies. Gusty winds and low RH are expected along the Sierra Front and portions of the Great Basin and Wyoming. Isolated thunderstorms are possible across the broader Four Corners region into Wyoming. Tropical Storm Beta will continue to produce heavy rainfall and storm surge flooding to portions of the east Texas and Louisiana coasts with heavy rain also expected farther inland across east/central Texas and the Lower Mississippi Valley. A cold front will continue moving east into the Great Lakes with outer rain bands from Hurricane Teddy reaching eastern Maine.

Communications (LCES)

Fire Communications Category

Effective communication is a critical backbone of safe and successful operations.

- Discuss the factors that can affect radio communication at the incident.
 - Knowledge of the radio issued to the individuals.
 - Net control, frequencies.
 - Line-of-sight restrictions.
 - Antenna polarization effect (direction of the antenna).
 - Minimizing noise interference.
 - Wide band vs. narrow band.
 - Potentially unfamiliar local jargon (e.g. Coulee, Candle stick, fence post, etc.)

- How can you mitigate potential problems?
 - Implement effective communication procedures--be brief, use clear text, and to-the-point.
 - Give a good comprehensive briefing. (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.)
 - Confirm that relayed information is received and understood.
 - Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
 - Establish emergency check-in procedures.
 - Provide a minimum of 4 radios per 20-person firefighter crew.

- The Five Communication Responsibilities for All Firefighters:
 - Brief others.
 - Debrief your actions.
 - Communicate hazards to others.
 - Acknowledge messages.
 - Ask if you don't know.
