

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, October 3, 2020 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Initial attack activity:	Light (61 new fires)
New large incidents:	0
Large fires contained:	1
Uncontained large fires:***	36
Area Command teams committed:	2
NIMOs committed:	3
Type 1 IMTs committed:	16
Type 2 IMTs committed:	12

Nationally, there are 33 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Northern California Area (PL 5)

New fires: 14
 New large incidents: 0
 Uncontained large fires: 11
 Area Command: 2
 Type 1 IMTs committed: 9
 Type 2 IMTs committed: 3

Glass, Sonoma-Lake Napa Unit, Cal Fire. IMT 1 (Cal Fire Team 3). Thirteen miles northwest of Napa, CA. Tall grass, brush and timber. Active fire behavior with uphill runs, short-range spotting and flanking. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

August Complex (2 fires), Mendocino NF, USFS. Transfer of command from Area Command Team (Jalbert) to Area Command Team (Sexton) will occur today. IMT 1 (AK Team 1) and IMT 1 (PNW Team 2). IMT 1 (SW Team 1) and IMT 1 (GB Team 2) mobilizing. Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Extreme fire behavior with group torching, crowning and running. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

August Complex West Zone, Mendocino Unit, Cal Fire. IMT 1 (Cal Fire Team 5). Four miles northeast of Covelo, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, creeping and isolated torching. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

North Complex, Plumas NF, USFS. IMT 1 (CA Team 4) and IMT 2 (RM Team Black). One mile southwest of Crescent Mills, CA. Timber and brush. Active fire behavior with creeping, torching and spotting. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Zogg, Shasta-Trinity Unit, Cal Fire. IMT 1 (Cal Fire Team 2). Nine miles southwest of Redding, CA. Chaparral, brush and short grass. Minimal fire behavior with creeping and smoldering. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. Transfer of command from IMT 1(NR Team 2) to IMT 2 (NW Team 7) will occur today. IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Moderate fire behavior with backing, flanking and single tree torching. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Moderate fire behavior with backing, flanking and single tree torching. Area and trail closures in effect.

Red Salmon Complex (2 fires), Six Rivers NF, USFS. IMT 2 (NW Team 10). Fourteen miles northeast of Willow Creek, CA. Timber and closed timber litter. Active fire behavior with uphill runs, running and short-range spotting. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. No new information.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: A weak mid-level trough will flatten the ridge over the Pacific Northwest late today with a thermal trough extending through California and into Inland Pacific Northwest. A surface cold front will push south across the central and southern Plains and west into Colorado and New Mexico with dry and breezy conditions behind the front. Precipitation is expected across the Great Lakes and stretching southwest into southern Oklahoma and north Texas. Thunderstorms, including heavy rain, are expected across the Florida Peninsula and along the Carolinas' coast.

AAR part 1

Fire Communication Category

How to conduct an effective After Action Review

An AAR is a professional discussion of an event with the objective to identify successes and failures. It is a tool that leaders, teams, crews, and units can use to get the maximum benefit from every incident or project. It is essential for wildland firefighters to learn from our mistakes and to capitalize on our successes. It is considered a valuable tool in high-risk professions where the smallest mistakes can lead to disastrous results. ***FYI – an AAR is not a critique and not a forum to assign blame. It's an open, honest, and professional discussion for purposes of improvement.***

Once you (the leader/facilitator) have demonstrated that the AAR works and that it will be part of your team's Standard Operating Procedures, the discussion will become more open. Finding out *what* they did is not nearly as important as *why* they did it. Good active listening skills are essential. Do not immediately try to solve or correct the issue, but let it play out. Try to get to the root of the issue. The leader must be a part of the AAR and will have to accept criticism. This is important because the team will be looking for affirmation of the AAR process.

- Have the AAR as soon after an event as possible with all the personnel involved if at all possible.
- The leader's role is to ensure there is skilled facilitation of the AAR.
- Make sure everyone participates.
- Pay attention to time.
- Establish clear ground rules: encourage candor and openness, all participants have equal ownership, focus on improving performance, and keep all discussions confidential.
- End on a positive note.

1. What was planned?

Review the intent of the mission.

Desired "End State" (what does "Right" look like).

2. What actually happened?

Establish the facts.

Pool multiple perspectives to build a shared picture of what happened.

3. Why did it happen?

Analysis of cause and effect.

Focus on WHAT, not WHO.

Provide progressive refinement for drawing out explanations of what occurred.

4. What are we going to do next time?

Correct weaknesses.

Focus on items you can fix, rather than external forces outside of your control.
