# National Interagency Coordination Center <br> Incident Management Situation Report <br> Sunday, October 11, 2020 - 0730 MDT <br> National Preparedness Level 4 

## National Fire Activity:

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires:*** 36
Area Command teams committed: 2
NIMOs committed: 2
Type 1 IMTs committed: 10
Type 2 IMTs committed: 12

Light (36 new fires)
2
42210

Nationally, there are 37 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.
Link to Understanding the IMSR.
NIMO (Houseman) has been assigned to COVID-19 support at Forest Service headquarters in Washington, D.C.

NIMO (Reinarz) has been assigned to provide wildland fire support to California.
Two hundred thirty-four Marines from the $7^{\text {th }}$ Engineer Support Battalion, $1^{\text {st }}$ Marine Logistics Group, 1 Marine Expeditionary Force based out of Camp Pendleton, California are deployed in support of the August Complex.

Eleven fire suppression crews and four overhead personnel from Canada are supporting fire suppression efforts in northern California.

Five fire suppression crews, 15 fire engines and 12 overhead personnel from Canada are supporting fire suppression efforts in Oregon.

Five fire suppression crews and four overhead personnel from Mexico are supporting fire suppression efforts in southern California.

## Northern California Area (PL 5)

| New fires: | 7 |
| :--- | :---: |
| New large incidents: | 0 |
| Uncontained large fires: | 11 |
| Area Command: | 2 |
| Type 1 IMTs committed: | 7 |
| Type 2 IMTs committed: | 3 |

August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Sexton), IMT 1 (PNW Team 2), IMT 1 (SW Team 1) and IMT 1 (GB Team 2). Area Command Team (Stutler) and IMT 1 (GB Team 1) mobilizing. Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, creeping and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Minimal fire behavior with creeping and smoldering. Area and trail closures in effect. Precipitation occurred over the fire area yesterday.

August Complex West Zone, Mendocino Unit, Cal Fire. IMT 1 (Cal Fire Team 5). Four miles northeast of Covelo, CA. Timber, chaparral and tall grass. Moderate fire behavior with flanking, backing and creeping. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

North Complex, Plumas NF, USFS. IMT 1 (CA Team 4). One mile southwest of Crescent Mills, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Several communities and infrastructure threatened. Area, road and trail closures in effect.

Red Salmon Complex (2 fires), Six Rivers NF, USFS. IMT 2 (NW Team 10). IMT 2 (CA Team 12) mobilizing. miles northeast of Willow Creek, CA. Timber. Moderate fire behavior with backing, creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Glass, Sonoma-Lake Napa Unit, Cal Fire. IMT 1 (Cal Fire Team 3). Thirteen miles northwest of Napa, CA. Tall grass, brush and timber. Minimal fire behavior with smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Zogg, Shasta-Trinity Unit, Cal Fire. Nine miles southwest of Redding, CA. Chaparral, brush and short grass. Minimal fire behavior with smoldering.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

## Southwest Area (PL 2)

New fires:
2
New large incidents:
1
Uncontained large fires:

Encinos, Southeast District, Arizona DOF. Twenty-six miles southeast of Sells, AZ. Brush and tall grass. Active fire behavior with wind-driven runs, short-range spotting and flanking. Structures and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Cow Canyon, Apache-Sitgreaves NF, USFS. Four miles southeast of Blue, AZ. Timber and brush. Moderate fire behavior with flanking, backing and torching. Residences threatened. Trail closures in effect.

* Colorado 2, Cibola NF, USFS. Nineteen miles northeast of Grants, NM. Timber. Minimal fire behavior with smoldering. Road closures in effect.

Espinosa, Southeast District, Arizona DOF. Seven miles south of Arivaca, AZ. Brush and grass. No new information.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.
***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.
Predictive Services Discussion: The upper level low will move into the Upper Great Plains bringing cool, wet conditions to the northern portion of the country. Precipitation will continue across Oregon, Washington, and Idaho and will expand into northern Utah, Wyoming, and Montana. Snow levels will be in the 5,000 to 6,500 foot range. Critically dry and windy conditions will develop across the southern Great Basin, southern Colorado, the Southwest, western Texas, and across the Midwest into the Great Lakes. Gusty winds with higher humidity are expected across much of Montana, Wyoming, Colorado, and into the upper Great Plains with many areas seeing wind gusts in the 30 to 40 mph range. Some areas will experience locally higher gusts.

# Medical Incident Report 

Fire Communication Category

The new Medical Incident Report (MIR) form can be found at all of the following: under Emergency Medical Care (pink) in the Incident Response Pocket Guide (IRPG), PMS 461, Medical Plan ICS-206 WF form and in many Incident Action Plans (IAPs). The MIR evolved from, and has replaced, the "9 Line Form" and "Pink Sticker."

The MIR is not always tasked to the EMT or Paramedic in "Patient Care". The intent of the form is to:

1) establish control of the incident whether routine or life-threatening by initiating a new Incident Command System,
2) have a systematic standard process for reporting medical incidents/injuries, similar to a fire size-up form for initial attack, and
3) have any firefighter be able to fill it out and transmit with prior training and direction.

- Treat it like any incident. If the incident is overwhelming, ask for a more qualified IC to assume command and expand/contract the organization's size depending on the needs of the incident.
- Fill this form out completely prior to transmitting the report to dispatch/communications. If there is a life threat, do not let documentation delay patient care.
- When transmitting the report, state the number and title of each section and say "break" and pause between the sections (e.g., "Dispatch, TFLD Jones, Stand by for Priority Medical Incident Report. 1. All other radio traffic please hold BREAK (pause/wait for response.) 2. Incident Status: Nature of IIIness is chest pain. Incident Name is Tank Medical. IC will be TFLD Jones. Patient Care will be Paramedic Smith. BREAK. 3. Initial Patient Assessment is...").
- When using the MIR during a Multi-Casualty Incident (MCI) state the number injured and their severity (Section 3), (e.g., " 3. Initial Patient Assessment, I have 5 patients. 3 Reds, 1 Yellow and 1 Green. Mechanism of Injury is...").
- Use the terms Paramedic or EMT with the provider's last name in "Patient Care." Do not use EMT to describe a Paramedic or the ambiguous term, "Medic." All those roles need to be clearly identified to understand the level of care and treatment the patient(s) will receive.
- Enact more than one transport plan and clear more than one frequency if needed for Sections 5 and 6 .
- Always be ready for the first plan to fail and be flexible enough to move into an alternate plan. Use the acronym PACE (Primary, Alternate, Contingency, and Emergency) for planning purposes.

## Action Items:

- Consider developing medical emergency tabletop scenarios as part of morning briefings or field scenarios on project work to be become familiar with the process. The more comfortable with the MIR you are, the more it will be second nature under stress.
- Ensure dispatchers and radio operators are aware of their roles and responsibilities pertaining to the Medical Incident Report.
- Review your local units' Emergency Plans.

This topic was submitted by AFMO Miles Ellis and Asst. State FMO Paul Hohn with Wyoming BLM and expanded upon by Grand Canyon Helitack's Eric Graff.
