## Northern California Area (PL 4)

New fires: 17
New large incidents: 0
Uncontained large fires: 7
Area Command: 1
Type 1 IMTs committed: 3
Type 2 IMTs committed: 3
August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Stutler), IMT 1 (GB Team 1), IMT 1 (SW Team 1) and IMT 1 (GB Team 2). Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, flanking and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Minimal fire behavior with creeping and smoldering. Area and trail closures in effect.

Red Salmon Complex, Six Rivers NF, USFS. IMT 2 (CA Team 12). Fourteen miles northeast of Willow Creek, CA. Timber. Moderate fire behavior with backing, creeping and smoldering. Several communities threatened. Area, road and trail closures in effect.

North Complex, Plumas NF, USFS. IMT 2 (CA Team 11). One mile southwest of Crescent Mills, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with smoldering. Numerous structures and infrastructure threatened. Area, road and trail closures in effect.

## Rocky Mountain Area (PL 4)

| New fires: | 3 |
| :--- | :--- |
| New large incidents: | 1 |
| Uncontained large fires: | 8 |
| Area Command: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 2 |

Area Command Team (Jalbert) has been mobilized to support wildland fire in Colorado.

Cameron Peak, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. IMT 1 (RM Team 1). Fifteen miles southwest of Redfeather Lakes, CO. Timber. Moderate fire behavior with flanking and single tree torching. Several communities threatened. Evacuations, area, road and trail closures in effect.

Calwood, Boulder County. Ten miles northwest of Boulder, CO. IMT 2 (RM Team Black). IMT is also managing the Lefthand fire. Timber, brush and short grass. Moderate fire behavior with creeping, isolated torching and smoldering. Several communities threatened. Evacuations, area, road and trail closures in effect.

* Lefthand, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. One mile east of Ward, CO. Timber. Extreme fire behavior with crowning, running and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

East Troublesome, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. IMT 1 (PNW Team 3) and IMT 2 (NR Team 6). IMT is also managing the Williams Fork fire. Seventeen miles northeast of Kremmling, CO. Timber and grass. Active fire behavior with wind-driven runs, short-range spotting and isolated torching. Numerous structures, energy and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Sage-grouse habitat threatened.

Williams Fork, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. Fifteen miles southwest of Fraser, CO. Timber. Moderate fire behavior with wind-driven runs, flanking and backing. Several communities and energy infrastructure threatened. Area, road and trail closures in effect.

Mullen, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. IMT 1 (SA Blue Team). Thirtyeight miles west of Laramie, WY. Timber. Minimal fire behavior with creeping and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Middle Fork, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. Ten miles north of Steamboat Springs, CO. Timber. Moderate fire behavior with backing, creeping and group torching. Structures and energy infrastructure threatened. Area, road and trail closures in effect.

Wildhorse, El Paso County. Fourteen miles southwest of Colorado Springs, CO. Timber and tall grass. Minimal fire behavior.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.
Predictive Services Discussion: A broad upper-level trough will continue over the northern tier of the CONUS with upper highs over Florida and Baja California. A cold front will stall from the eastern Great Lakes to the southern High Plains. Lingering precipitation is expected across far northern portions of the CONUS and from the Ozarks into Northeast, west of the Appalachians. Warm and dry conditions will continue over much of the Southwest, Great Basin, and California.

 guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know what the outcome will be. What are the conditions? What are you thinking? What are YOU doing?
## The Pepper Hill Fire - October 19 ${ }^{\text {th }}$, 1938 - PennsyIvania

Incident Summary: Most of north-central Pennsylvania had been extensively logged by large timber companies from 1890-1930. By 1938, fuels in the area consisted of very young second-growth hardwoods, ericaceous shrubs and logging slash. Following an unusually hot and dry summer, a killing frost on October $7^{\text {th }}$ caused the foliage to cure. Precipitation for the past three months had been substantially below normal. High temperatures persisted in the 80's with relative humidity of $20-25 \%$.
At 11:10am on October 19 th, 1938, the Hunts Run Civilian Conservation Corp (CCC) Camp \#S-132 is notified of a possible forest fire. Upon investigation, several fires are located on Pepper Hill Mountain. Two CCC crews are dispatched to the fires. Both crews had just returned from a fire only hours before, and many enrollees requested to stay behind due to fatigue. All enrollees were ordered to go. The two CCC crews began initial attack from both flanks of the fire, anchoring into a nearby road. Both crews began constructing line from the heel of the fire to the top, burning out as needed. For reasons which are still not clear, crew \#2 was ordered to abandon their firing operation on the right flank and proceed to the head of the fire to construct direct downhill line. The crew was $3 / 4$ of the way up Pepper Hill Mountain when the fire below made a rapid run that overtook them. A few were able to find safety atop large nearby rocks, the remaining crew was severely burned, and ultimately eight of the young CCC enrollees would lose their lives.

## Discussion Points:

Training - Most of the CCC enrollees received little or no formal training. They were expected to learn what to do on the job.

- Most of us will work with new firefighters who have little or no experience. It is not reasonable or safe to assume they will learn everything on the fireline. How will your crew prepare new members for success?
Fatigue - Many of the enrollees assigned to the Pepper Hill Fire had just returned to camp from other fires at 5:30am that morning.
- Though we now have work/rest guidelines to help prevent fatigue, a long fire season can still take its toll on even the fittest firefighter. What signs might we see in our crewmembers that could indicate fatigue?
- What impact can fatigue have on your crew, and what can you do to lessen the associated risks?
Tactics - The original plan to use the road as an anchor point seems sound, but poor choices were made on the right flank when the crew moved to the head and abandoned their burnout.
- Without aviation support, would your crew engage this fire? If so, how?
- Though not a sound decision at Pepper Hill, describe conditions where attacking the head of a fire could be a viable tactic, while ensuring safety. Crew Cohesion - The CCC Enrollees had not worked many fires together. On their way up the hill, they became separated due to differences in physical ability.

There were no indications that their crew leader gave them any direction during this critical time.

- No firefighter intends to get into a bad situation. We all train to avoid them, but "what if"? How would you and your crew manage the safety of all firefighters if faced with a similar situation?
