# National Interagency Coordination Center <br> Incident Management Situation Report <br> Tuesday, October 20, 2020 - 0730 MDT <br> National Preparedness Level 3 

National Fire Activity:
Initial attack activity:
Light (48 new fires)
New large incidents:
Large fires contained:
5
Uncontained large fires:***
1

Area Command teams committed:
NIMOs committed:
2
Type 1 IMTs committed: 9
Type 2 IMTs committed:
Nationally, there are 27 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

Type 2 IMTs committed: 2
Area Command Team (Jalbert) has been mobilized to support wildland fire in Colorado.
Cameron Peak, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. IMT 1 (RM Team 1). Fifteen miles southwest of Redfeather Lakes, CO. Timber. Active fire behavior with short crown runs, winddriven runs and single tree torching. Several communities threatened. Evacuations, area, road and trail closures in effect.

Calwood, Boulder County. Ten miles northwest of Boulder, CO. IMT 2 (RM Team Black). IMT is also managing the Lefthand fire. Timber, brush and short grass. Active fire behavior with flanking, creeping and isolated torching. Several communities threatened. Evacuations, area, road and trail closures in effect.

Lefthand, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. One mile east of Ward, CO. Timber. Active fire behavior with short crown runs, creeping and group torching. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

East Troublesome, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. Transfer of command from IMT 2 (NR Team 6) to IMT 1 (PNW Team 3) will occur tomorrow. IMT is also managing the Williams Fork fire. Seventeen miles northeast of Kremmling, CO. Timber and grass. Active fire behavior with wind-driven runs, short-range spotting and group torching. Numerous structures, infrastructure and sagegrouse habitat threatened. Evacuations, area, road and trail closures in effect.

Williams Fork, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. Fifteen miles southwest of Fraser, CO. Timber. Minimal fire behavior with single tree torching, short-range spotting and creeping. Several communities and energy infrastructure threatened. Area, road and trail closures in effect.

Mullen, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. IMT 1 (SA Blue Team). Thirtyeight miles west of Laramie, WY. Timber. Minimal fire behavior with creeping and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

* Ice, San Juan NF, USFS. Five miles west of Silverton, CO. Timber and short grass. Extreme fire behavior with uphill runs, torching and spotting. Structures and energy infrastructure threatened. Area, road and trail closures in effect.

Middle Fork, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. Ten miles north of Steamboat Springs, CO. Timber. Moderate fire behavior with backing, creeping and group torching. Structures and energy infrastructure threatened. Area, road and trail closures in effect.

Wildhorse, El Paso County. Fourteen miles southwest of Colorado Springs, CO. Timber and tall grass. Minimal fire behavior with smoldering.

## Northern California Area (PL 4)

| New fires: | 9 |
| :--- | :--- |
| New large incidents: | 0 |
| Uncontained large fires: | 7 |
| Area Command: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 3 |

August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Stutler), IMT 1 (GB Team 1), IMT 1 (SW Team 1) and IMT 1 (GB Team 2). Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, creeping and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Minimal fire behavior with creeping and smoldering. Area and trail closures in effect.

Red Salmon Complex, Six Rivers NF, USFS. IMT 2 (CA Team 12). Fourteen miles northeast of Willow Creek, CA. Timber. Moderate fire behavior with backing, creeping and flanking. Several communities threatened.
Area, road and trail closures in effect.
North Complex, Plumas NF, USFS. IMT 2 (CA Team 11). One mile southwest of Crescent Mills, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with smoldering. Numerous structures and infrastructure threatened. Area, road and trail closures in effect.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.
Predictive Services Discussion: Strong northwesterly flow aloft will continue over the Pacific Northwest and Northern Rockies with a dry airmass remaining over the southern half of the western US. Gusty northerly and offshore winds will be over portions of northern California through tonight with dry and breezy conditions across portions of Colorado into New Mexico and west Texas during the day. Precipitation will fall over portions of the Pacific Northwest and Northern Rockies, especially over the higher terrain, with snow possible at higher elevations. Rain and snow is expected over portions of the western Great Lakes with rain stretching from Oklahoma through the Midwest and into the Northeast along a surface front.

Frequent Spot Fires Across The Line

This watchout situation clearly indicates how much potential your fire has for rapid, uncontrolled growth. Consider the following questions if you are getting spot fires across your line:

- Can you handle increased spotting? List some ways you can keep ahead of spot fires (gridding the green, lookouts, etc.)
What is your probability of ignition doing? Is it increasing or decreasing?
- Do you have a plan for long-range spotting? In what fuel type and under what conditions will you likely have long-range spotting? What types of plans can you think of for handling long-range spotting?
- Is help available if necessary? What kinds of resources will you have in place, or order, to handle spot fires?
- If fire behavior increases, is your position still defensible? Discuss what type of action you might take if a spot fire takes off.
- Do you have more than one safety zone in case one gets cut off? Describe how you might have multiple safety zones.
- Do the primary lookouts have a good view of the situation? Discuss who might be acting as a lookout (e.g., crew member, air resources, supervisors, etc.) and how you will get good information from that person. (Are you relying on an air attack that is busy with airtankers?)
- Where are you in the burning period? Talk about how your tactics may vary from finding spot fires early in the day to later into the evening. Review Probability of Ignition (PIG) and what it can tell you about spotting potential.
- To reduce the risk, be ready to retreat. Keep your guard up even if spotting has not occurred for a few hours. Review fires where you have had frequent spot fires and what you learned about controlling them.
