

**National Interagency Coordination Center
Incident Management Situation Report
Friday, November 6, 2020 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

| | |
|-------------------------------|----------------------|
| Initial attack activity: | Light (92 new fires) |
| New large incidents: | 7 |
| Large fires contained: | 4 |
| Uncontained large fires:*** | 22 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 3 |

Nationally, there are 15 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: A strong upper low will move southeast over northern and central California as upper-level troughing deepens over the West. Precipitation will spread over much of the Pacific Northwest, California, Nevada, and into the Northern Rockies. Snow is expected in the mountains with heavy snow possible at the higher elevations. A surface cold front will continue sliding southeast through California and the Great Basin with dry and windy conditions ahead of it. Elevated to critical fire weather conditions are expected in the central and southern Great Basin into the Southwest and across portions of the central High Plains.

LEAD Time

Leading Up
Leadership Category

Looking out for our people includes not only those who work for us but also our leaders and peers. Leadership is about influencing others to accomplish tasks that are in the best interest of our organization which often means influencing those above us and **leading up**. Similarly, we are open to upward leadership – and, in fact, encourage and reward it.

Fire leaders are expected to lead in many directions, an expectation that increases complexity and risk. Summoning the courage needed to intervene and influence peers or leaders above can be difficult, especially if providing unwelcome feedback about behavior or pointing out an alternative to a potentially bad decision. In high-risk environments, no one can afford to assume that anyone has all the answers.

To build the kind of healthy and resilient culture required in the wildland fire service, we lead up – holding our leaders accountable, providing unvarnished situational awareness in challenging situations, and offering unbiased and viable alternatives.

Discussion Points:

- How can we practice leading up?
- Describe a situation where leading up took place. How was the situation affected?
- Describe a situation where there was opportunity for leading up but it was not done. How was the situation affected?
- Discuss leading “laterally”: influencing peers or those with similar responsibilities.
