

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, November 8, 2020 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (40 new fires)
New large incidents:	3
Large fires contained:	3
Uncontained large fires:***	18
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	4

Nationally, there are 16 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Southern California Area (PL 2)

New fires:	8
New large incidents:	0
Uncontained large fires:	4
Type 2 IMTs committed:	2

Creek, Sierra NF, USFS. IMT 2 (AK Black Team). Thirty-five miles northeast of Clovis, CA. Timber, chaparral and tall grass. Minimal fire behavior with isolated torching, creeping and smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

SQF Complex, Sequoia NF, USFS. IMT 2 (CA Team 13). Thirty-three miles east of Porterville, CA. Timber and chaparral. Minimal fire behavior with creeping and flanking. Area, road and trail closures in effect.

El Dorado, San Bernardino Unit, Cal Fire. Three miles northeast of Yucaipa, CA. Timber, chaparral and brush. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Area and trail closures in effect.

Coleman, Los Padres NF, USFS. Thirteen miles southwest of King City, CA. Brush and tall grass. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

New fires: 1
 New large incidents: 1
 Uncontained large fires: 4
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 1

Cameron Peak, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. IMT 1 (PNW Team 2). IMT 2 (NW Team 10) mobilizing. Fifteen miles southwest of Redfeather Lakes, CO. Timber. Minimal fire behavior with smoldering, backing and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

East Troublesome, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. Seventeen miles northeast of Kremmling, CO. Timber and grass. Minimal fire behavior with smoldering. Sage-grouse habitat threatened. Area, road and trail closures in effect.

Middle Fork, Medicine Bow-Routt NF and Thunder Basin National Grassland, USFS. Ten miles north of Steamboat Springs, CO. Timber. Minimal fire behavior with smoldering. Energy infrastructure threatened. Area, road and trail closures in effect.

Williams Fork, Arapaho and Roosevelt NF and Pawnee National Grassland, USFS. Fifteen miles southwest of Fraser, CO. Timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

* **Poison Springs**, Grand Mesa Uncompahgre and Gunnison National Forests, USFS. Twenty miles northwest of Gunnison, CO. Timber and short grass. Minimal fire behavior with smoldering and creeping. Last narrative report unless significant activity occurs.

Calwood, Boulder County. Ten miles northwest of Boulder, CO. Timber, brush and short grass. No new information.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: Broad, deep upper-level troughing will continue over the West with an upper low emerging over the Northern Rockies and northern Plains and another upper low moving over the Great Basin. A cold front will push onto the Plains with well below normal temperatures across the West and High Plains. Precipitation, mostly snow, will continue over much of the Intermountain West and the plains of Montana. Dry and breezy conditions are expected on portions of the southern and central High Plains. Heavy rain is expected in South Florida as Tropical Storm Eta approaches.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

Power Line Safety

Miscellaneous Fireline Hazards

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Keep all aviation activity away from power lines. Inform air attack and/or other aviation resources of the location of the power lines.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply a straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
