New fires:
New large incidents: 7
Uncontained large fires:

* Presbury Hill, Osage Agency, BIA. Two miles north of Cleveland, OK. Grass and hardwood litter. Active fire behavior with running and spotting. Structures threatened.
* Boys Camp, Okmulgee Field Office, BIA. Six miles southwest of Okmulgee, OK. Timber. Active fire behavior with running and spotting. Residences threatened.
* Tucker Knob NE, Oklahoma DOF. Twenty-five miles northeast of McAlester, OK. Timber and short grass. Active fire behavior with wind-driven runs and flanking.

Lynn, Wewoka Agency, BIA. Five miles northeast of Konawa, OK. Hardwood litter. Minimal fire behavior with smoldering.

Honey Creek, Oklahoma DOF. Eight miles southwest of Okmulgee, OK. Timber and grass. Minimal fire behavior with smoldering. Structures threatened.

Euchee Creek, Oklahoma DOF. Seven miles west of Sapulpa, OK. Timber and grass. Minimal fire behavior with smoldering.

Rock, Okmulgee Field Office, BIA. Five miles east of Okemah, OK. Tall grass and brush. Moderate fire behavior with backing and creeping. Residences threatened.

Tecolote, Texas A\&M Forest Service. Started on private land twenty-eight miles northeast of McAllen, TX. Tall Grass. Minimal fire behavior. Structures threatened. Reduction in acreage due to more accurate mapping.

Spring Creek, Okmulgee Field Office, BIA. Five miles southeast of Horntown, OK. Hardwood litter. Moderate fire behavior with running and creeping. Residences and energy infrastructure threatened.

Black Calf, Okmulgee Field Office, BIA. Nineteen miles northeast of Okemah, OK. Hardwood litter. Moderate fire behavior with running and creeping.

Javine, Osage Agency, BIA. Two miles north of Barnsdall, OK. Tall grass. No new information.
Hughes, Osage Agency, BIA. Eight miles south of Bartlesville, OK. Tall grass. No new information.
Joy, Osage Agency, BIA. Three miles southwest of Barnsdall, OK. Tall grass and timber. No new information.
Candy Creek, Osage Agency, BIA. Three miles east of Barnsdall, OK. Grass and timber. No new information.
Whitehorn, Osage Agency, BIA. One mile east of Wynona, OK. Tall grass and hardwood litter. No new information.

Spaniard Creek, Oklahoma DOF. Ten miles southwest of Tahlequah, OK. Hardwood litter. No new information. Last report unless significant activity occurs.

| Ten Year Average Fires (2011 - 2020 as of today) | 11,462 |
| :--- | :---: |
| Ten Year Average Acres (2011-2020 as of today) | 533,812 |

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.
***Additional wildfire information is available through the Geographic Areas at https://gacc.nifc.gov/
Predictive Services Discussion: An upper low will move east across the Plains into the Mid-Mississippi Valley today with stronger westerly aloft across much of the West ahead of an approaching upper-level trough moving into the Pacific Northwest. Another round of dry and windy conditions will develop across New Mexico and into eastern Arizona, southern Colorado, and west Texas. Downslope flow will result in dry and breezy conditions in the lee of the Oregon Cascades and the Sierra. Dry conditions will continue across the Carolinas, Georgia, and Florida as well. Thunderstorms are likely from the Lower Mississippi Valley into the Midwest and Great Lakes with severe weather potential in the ArkLaTex and Lower Mississippi Valley.

SAFENET
Fire Communication Category

The SAFENET system is a way for firefighters and support staff to report unsafe or unhealthy situations and nearmisses. SAFENET is an easy, quick way to report a safety concern. It allows firefighters to be involved in the daily job of being safe and keeping others safe by documenting and helping to resolve safety issues. It is also a way for fire managers to hear about and correct hazardous conditions, collect and track important safety data, and identify trends that could be developing.

Here are some facts about SAFENET and how it works:

- Individuals who observe or are involved in an unsafe situation should initiate immediate corrective action, if possible. The occurrence should then be reported via SAFENET.
- Reports should identify unsafe situations in wildland fire, all-hazard operations, training, and other related work environments.
- SAFENET is a confidential database. Users are encouraged but not required to put their name and contact information on the report.
- SAFENET reports are sanitized to display safety and health-related information only, and they will not identify the names of individuals, crews, or other resources.
- If the reporting party did not observe the situation first-hand, the SAFENET report will likely not be published. Instead of filing a report, encourage those who were directly involved to do so.
- SAFENET reports that do not include the name of the incident and/or location of the event will not be posted.
- SAFENET reports that contain unprofessional content (e.g., personal attacks/slander, character defamation) will not be posted, or the offensive comments will be removed prior to posting.
- There is no punishment or penalty for filing a SAFENET report, nor is it mandatory.

Submit a SAFENET Report

Submit directly to the SAFENET system: https://safenet.nifc.gov/safenet.cfm.

For information regarding the SAFENET program please contact: SAFENET_Administrator@blm.gov.
