

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, June 1, 2021– 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (112 fires)
New large incidents:	4
Large fires contained:	2
Uncontained large fires: ***	15
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	2

Nationally, there are 8 fires being managed under a strategy other than full suppression.

\*\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

### **Southwest Area (PL 3)**

New fires: 7  
New large incidents: 1  
Uncontained large fires: 8  
Type 2 IMTs committed: 1

**Sycamore Canyon**, Papago Agency, BIA. IMT2 (SW Team 4). Fifteen miles southeast of Sells, AZ. Grass and brush. Minimal fire behavior with backing, creeping and smoldering. Structures threatened.

\* **Wolf Draw**, Santa Fe NF, USFS. Eleven miles northwest of Regina, NM. Timber. Minimal fire behavior with creeping and smoldering.

**Courthouse**, Central District, Arizona DOF. Thirteen miles southwest of Tonopah, AZ. Grass and chapparal. Active fire behavior with group torching, flanking and backing.

**Warren**, Coronado NF, USFS. Nine miles south of Portal, AZ. Grass and brush. Minimal fire behavior with creeping and smoldering.

**McDonald Tank**, Fort Apache Agency, BIA. Twenty-five miles southeast of Whiteriver, AZ. Timber, brush and grass. Minimal fire behavior with creeping and smoldering. Structures threatened. Area and road closures in effect.

**Dog**, Guadalupe Mountains NP, NPS. Thirty-four miles southwest of Whites City, NM. Timber and grass. Minimal fire behavior with smoldering. Structures threatened. Area and trail closures in effect.

**Eicks**, Socorro District, New Mexico DOF. Nine miles northeast of Cloverdale, NM. Grass and brush. No new information. Last report unless new information is received.

**Boggy Creek**, Apache-Sitgreaves NF, USFS. Fifteen miles southwest of Alpine, AZ. Timber and grass. No new information. Last report unless new information is received.

**Johnson**, Gila NF, USFS. Previously reported incident. Thirty-four miles northeast of Silver City, NM. Timber and grass. Active fire behavior with flanking, backing and running. Structures threatened. Trail closures in effect. Last narrative report unless significant activity occurs.

\*1 Hectare = 2.47 Acres

#### **Predictive Services Discussion:**

Upper-level ridging will continue over the West with a cutoff low forming over northern Baja California. Above average to record setting temperatures will continue with the most anomalously high temperatures stretching from central California into the Pacific Northwest along a thermal trough. Overnight RH recoveries will continue to be poor as well. Isolated to scattered drier thunderstorms are possible over eastern Arizona with wetter thunderstorms in the Colorado Rockies and New Mexico. Severe weather is likely on the southern High Plains into south Texas with potentially heavy rain Arkansas and southern Missouri.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

# LEAD Time

## My Safety

Leadership Category

An important aspect of safety is individual responsibility for one's own health and safety. Even with the best supervision, each individual firefighter will occasionally be required to make personal decisions concerning safety. It is important that individual responsibility is taught as the basis for a viable safety program. Some of those individual responsibilities are:

- Fitness for duty. Begin each work shift both mentally and physically prepared for the rigors of wildland firefighting. Getting adequate sleep, maintaining a healthy diet, and proactively participating in physical training are foundations for your personal safety.
- Utilization of personal protective equipment (PPE). Wear your PPE without being told. Each individual is responsible for performing their own risk assessments. Utilize PPE when a hazard is identified that can be mitigated by wearing a particular PPE component.
- Following safe work practices. For example, using a spotter when backing up vehicles is the prudent and professional course of action. If you are unsure how to perform a job or task safely, ask your supervisor or an experienced coworker.
- Using the correct reference materials is an important aspect of safety. You should have a working knowledge of the [Interagency Standards for Fire and Aviation Operations \(Red Book\)](#), [Incident Response Pocket Guide \(IRPG\)](#), [PMS 461](#), and your local operating guidelines.
- Ensure instructions are clearly understood. Communication is a basic responsibility for all fire personnel. Ask appropriate questions to clarify uncertain issues. Speak up when you observe hazards that may place you or others at risk.
- Maintain situational awareness at all times. Awareness is a vital component of *My Safety*. Pay attention to what is happening around your area of operations. Always display an awareness of what is happening around you by asking questions or sharing information.

**Summary:** Do not expect someone else to be responsible for your safety. Take it upon yourself to make *My Safety* your number one priority.

### Discussions Points:

- Talk about ways you can improve your safety.
- Have your supervisor talk about their expectations for individual safety.
