# National Interagency Coordination Center <br> Incident Management Situation Report <br> Sunday, June 6, 2021- 0730 MDT <br> National Preparedness Level 2 

## National Fire Activity:

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: ***
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Light (150 fires)
3
4
13
0
0
1
3

Nationally, there are 8 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 3)
New fires:
New large incidents: 0
Uncontained large fires: 7
Type 1 IMTs committed: 1
Type 2 IMTs committed: 1
Telegraph, Tonto NF, USFS. IMT 1 (SW Team 2) mobilizing. Five mile southeast of Superior, AZ. Grass and brush. Extreme fire behavior with running, torching and short-range spotting. Numerous structures and energy infrastructure threatened. Evacuations, area and road closures in effect.

Mescal, Gila District Office, BLM. IMT 2 (SW Team 5). Twelve miles northeast of Hayden, AZ. Grass, chaparral and brush. Extreme fire behavior with wind-driven runs, running and flanking. Several communities threatened. Evacuations, area and road closures in effect.

Wolf Draw, Santa Fe NF, USFS. Eleven miles northwest of Regina, NM. Timber. Minimal fire behavior with creeping and smoldering.

Sam, Gila District Office, BLM. Eight miles north of Bylas, AZ. Brush and grass. Minimal fire behavior with smoldering.

Warren, Coronado NF, USFS. Nine miles south of Portal, AZ. Grass and brush. Minimal fire behavior with smoldering.

Dog, Guadalupe Mountains NP, NPS. Thirty-four miles southwest of Whites City, NM. Timber and grass. Minimal fire behavior with smoldering. Structures threatened. Area and trail closures in effect.

McDonald Tank, Fort Apache Agency, BIA. Twenty-five miles southeast of Whiteriver, AZ. Timber, brush and grass. No new information. Last report unless new information is received.

## Great Basin Area (PL 1)

New fires:
New large incidents: 3
Uncontained large fires:
Type 2 IMTs committed: 1

* Mammoth, Dixie NF, USFS. IMT2 (GB Team 5) mobilizing. Twenty miles southwest of Panguitch, UT. Timber. Extreme fire behavior with crowning, short crown runs and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.
* Bennion Creek, Manti-La Sal NF, USFS. Twenty-three miles northwest of Helper, UT. Brush, chaparral and timber. Moderate fire behavior with torching, running and uphill runs. Numerous structures threatened. Evacuations and road closures in effect.

Wilson Creek, Ely District Office, BLM. Fifteen miles northeast of Pioche, NV. Timber and brush. Minimal fire behavior with smoldering and creeping. Structures and communication infrastructure threatened.

Four Mile, Payette NF, USFS. Twelve miles southwest of Yellow Pine, ID. Timber and brush. Minimal fire behavior.

*1 Hectare = 2.47 Acres

Predictive Services Discussion: Another upper low will move into the Pacific Northwest with rain likely in western and northern Washington into northwest Oregon. A cold front will stall from Wyoming through the northern Great Basin into northern California with dry and windy conditions expected along and south of it across northeast California, much of the Great Basin, and the Desert Southwest. Temperatures will increase across much of Alaska with isolated to scattered afternoon showers and thunderstorms likely, especially in south-central Alaska into the Interior. Strong to severe storms are possible across parts of the southern High Plains and Upper Midwest with continued wet conditions across much of the South.

## Aviation Watch Outs

Aviation Category

As part of risk management, especially during high activity fires, each aviation manager and employee should be asking questions about every mission.

- Is the flight necessary?
- Who is in charge?
- Are hazards identified and known?
- Have flight hazards been assessed? Have the pilots been informed?
- Should the operation or the flight be stopped due to a change in conditions? Consider the following:
- Radio communications.
- Environmental conditions - weather, visibility, terrain, elevation, temperatures.
- Mission priorities.
- Successful mission completion probabilities.
- Is there a better way to complete the mission?
- Is there pressure to complete a mission at all costs?
- Can you justify your actions?
- Is the mission airspace confined or congested?
- Multiple aircraft.
- Mixed types of aircraft.
- Poor visibility.
- Do you have an escape route?
- Are any guidelines or policies being ignored?
- Is communication between any individuals strained or tense?
- Are you deviating from the assigned operation or flight?
