# National Interagency Coordination Center <br> Incident Management Situation Report <br> Monday, June 7, 2021- 0730 MDT <br> National Preparedness Level 2 

## National Fire Activity:

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: ***
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Light (139 fires)
3
1
13
0
0
1
3

Nationally, there are 7 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

Uncontained large fires: 5
Type 1 IMTs committed: 1
Type 2 IMTs committed: 1
Telegraph, Tonto NF, USFS. IMT 1 (SW Team 2). Five mile southeast of Superior, AZ. Grass and brush. Active fire behavior with uphill runs, flanking and torching. Numerous structures and energy infrastructure threatened. Evacuations, area, road and trail closures in effect.

Mescal, Gila District Office, BLM. IMT 2 (SW Team 5). Twelve miles northeast of Hayden, AZ. Grass, chaparral and brush. Extreme fire behavior with running, flanking and spotting. Several communities and numerous structures threatened. Evacuations, area and road closures in effect.

Wolf Draw, Santa Fe NF, USFS. Eleven miles northwest of Regina, NM. Timber. Minimal fire behavior with smoldering.

Sam, Gila District Office, BLM. Eight miles north of Bylas, AZ. Brush and grass. Minimal fire behavior with smoldering.

Dog, Guadalupe Mountains NP, NPS. Thirty-four miles southwest of Whites City, NM. Timber and grass. Minimal fire behavior with smoldering. Structures threatened. Area and trail closures in effect.

Johnson, Gila NF, USFS. Previously reported incident. Twenty miles north of Silver City, NM. Timber and grass. Moderate fire behavior with creeping, backing and flanking. Structures threatened. Area and trail closures in effect. Last narrative report unless significant activity occurs.

## Great Basin Area (PL 1)

New fires: 20
New large incidents: 0
Uncontained large fires: 4
Type 2 IMTs committed: 1
Mammoth, Dixie NF, USFS. IMT 2 (GB Team 5). Twenty miles southwest of Panguitch, UT. Timber. Extreme fire behavior with torching, spotting and crowning. Numerous residences threatened. Evacuations, area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

Bennion Creek, Manti-La Sal NF, USFS. Twenty-three miles northwest of Helper, UT. Brush, chaparral and timber. Extreme fire behavior with uphill runs, torching and short-range spotting. Numerous structures threatened. Area, road and trail closures in effect.

Wilson Creek, Ely District Office, BLM. Fifteen miles northeast of Pioche, NV. Timber and brush. Minimal fire behavior with creeping and smoldering. Structures and communication infrastructure threatened.

Four Mile, Payette NF, USFS. Twelve miles southwest of Yellow Pine, ID. Timber and brush. Minimal fire behavior.

Predictive Services Discussion: An upper low will move over southern California while upper-level troughing deepens off the West Coast today. Gusty west-southwest winds will develop over eastern California, the Great Basin, and into the Southwest amid low relative humidity resulting in elevated and critical fire weather conditions. Above average temperatures will continue across the northern Plains through the Great Lakes into the Northeast. Thunderstorms remain possible over much of the central and eastern US with severe weather possible across portions of the northern Plains and Texas.
http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

# Proper Use of Trigger Points 

Weather - Fire Behavior Category

Accurate situation awareness (SA) requires a constant reassessment of conditions (existing and potential) that may impact the safety and effectiveness of tactics. Monitor for the 18 Watch Out Situations and establish trigger points (in the form of operational or environmental limits) ahead of time.
Remember, trigger points are not decision-makers but serve as predetermined cues to prompt you to reevaluate the current and potential situation and its associated risks. They help you to determine and implement the proper course of action.

The following items are considerations in your planning and discussion.

- Use trigger points for preplanning. Do not wait until you are in the wrong place at the wrong time - with no time.
- Trigger points should be based on measurable factors such as:
- Relative Humidity (RH).
- Winds.
- Fire behavior.
- Topographical boundaries.
- Time constraints/time of day.
- Time/distance to safety zones.
- Loss of suppression resources.
- Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication, weather change).
- As you approach predetermined trigger points, go through the Risk Management Process to help you decide if a change in tactics is required:
- Identify hazards.
- Assess hazards.
- Develop controls and make risk decisions.
- Implement controls.
- Supervise and evaluate.
- Consider the following command/leadership responsibilities when changing tactics:
- Communicate the changes to your subordinates, as well as to adjacent forces and up the chain of command.
- Account for all your people.
- Make sure everyone knows and follows the new plan.
