# National Interagency Coordination Center <br> Incident Management Situation Report <br> Sunday, June 13, 2021- 0730 MDT <br> National Preparedness Level 2 

## National Fire Activity:

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: ***
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Light (100 fires)
4
6
16
0
0
1
7

Nationally, there are 6 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 4)
New fires: 12
New large incidents: 1
Uncontained large fires: 7
Type 1 IMTs committed: 1
Type 2 IMTs committed: 3
Telegraph, Tonto NF, USFS. IMT 1 (SW Team 2). Five mile southeast of Superior, AZ. Grass and brush. Extreme fire behavior with uphill runs, group torching and short-range spotting. Numerous structures threatened. Evacuations, area and trail closures in effect.

Pinnacle, Coronado NF, USFS. IMT 2 (SW Team 3). Twenty-eight miles northwest of Safford, AZ. Timber, grass and brush. Active fire behavior with running, spotting and flanking.

Slate, Coconino NF, USFS. Twenty-three miles northwest of Flagstaff, AZ. Chaparral and timber. Extreme fire behavior with crowning and group torching. Road closures in effect.

Shamrock, Coronado NF, USFS. Eleven miles northeast of Nogales, AZ. Grass and brush. Minimal fire behavior with smoldering, creeping and backing. Reduction in acreage due to more accurate mapping.

* Rincon, Sante Fe NF, USFS. IMT 2 (SW Team 4) mobilizing. Twenty-five miles northwest of Las Vegas, NM. Timber. Active fire behavior with crowning, uphill runs and spotting. Structures threatened. Trail closures in effect.

Mescal, Gila District Office, BLM. IMT 2 (SW Team 5). Twelve miles northeast of Hayden, AZ. Grass, chaparral and brush. Minimal fire behavior with flanking, backing and smoldering. Several communities threatened. Numerous structures threatened. Area closures in effect.

Thompson Canyon, Socorro District, New Mexico DOF. Fifteen miles west of Cliff, NM. Timber and brush. Minimal fire behavior.

Johnson, Gila NF, USFS. Twenty miles north of Silver City, NM. Timber and grass. Active fire behavior with group torching, flanking and short-range spotting. Area, road and trail closures in effect. Last narrative report unless significant activity occurs.

## Great Basin Area (PL 3)

New fires: 6
New large incidents: 0
Uncontained large fires: 5
Type 2 IMTs committed: 3
Pack Creek, Manti-La Sal NF, USFS. IMT 2 (GB Team 4). Fourteen miles southeast of Moab, UT. Timber and brush. Active fire behavior with backing, creeping and group torching. Numerous structures threatened.
Evacuations, area and road closures in effect.
Bear, Vernal Field Office, BLM. IMT 2 (CA Team 10). Three miles northwest of Heber, UT. Timber, grass and brush. Moderate fire behavior with single and group tree torching. Community of Helper, UT threatened.
Residences and energy infrastructure threatened.
Bennion Creek, Manti-La Sal NF, USFS. Twenty-three miles northwest of Helper, UT. Brush, chaparral and timber. Active fire behavior with uphill runs, group torching and spotting. Structures and energy infrastructure threatened. Evacuations, area, road and trail closures in effect.

Sandy Valley, Southern Nevada District, BLM. Ten miles southwest of Las Vegas, NV. Brush. Minimal fire behavior with smoldering and isolated torching. Reduction in acreage due to more accurate mapping.

Mammoth, Dixie NF, USFS. Transfer of command from IMT 2 (GB Team 5) back to the local unit will occur tomorrow. Twenty miles southwest of Panguitch, UT. Timber. Minimal fire behavior. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

*1 Hectare $=2.47$ Acres

Predictive Services Discussion: High pressure aloft strengthens over the Intermountain West while deep low pressure remains off the West Coast. Above average temperatures continue across most of the country with record setting values for the Desert Southwest and Intermountain West. Very low relative humidity continues for the Southwest and Great Basin with poor overnight recovery. Breezy winds are also forecast for portions of the Great Basin. Isolated thunderstorms are expected over New Mexico and Colorado east of the Continental Divide, eastern Alaska, and eastern Oregon into western Montana. Showers and thunderstorms will occur across the Appalachian Mountains into the Southeast.

# HAZMAT INCIDENT OPERATIONS 

Miscellaneous Fireline Hazards

Firefighters may encounter hazardous materials (hazmat) in the field and should recognize that it requires special precautions. Hazardous materials include, but are not limited to, clandestine drug waste, which may look like common household trash at first glance; midnight dumping, which may be recognized by the presence of barrels or containers, discoloration of land, plants, or water, and/or dead vegetation and animals; and transportation accidents with spillage or release of hazmat that may result in danger to life, property, or resources.

## Think Safety

- Assess situation.
- Safe approach: upwind/upgrade/upstream.
- Identify, isolate, establish perimeter, and deny entry.
- Notify agency dispatcher.
- Use Global Positioning System (GPS) for exact location.
- Request assistance and identify a safe route.

## Scene Management

- The goal is to protect life, environment, and property.
- Attempt to identify substance using Emergency Response Guide (use binoculars to look for placards/labels, container shapes/colors, Material Safety Data Sheets, shipping papers, and license plate).
- Assess quantity of material involved.
- Identify exposures and hazards surrounding the site.
- Anticipate weather influences.

## Isolation Distances

- Minor event ( 1 drum, 1 bag, etc.) $=150$ feet.
- Major event (more than 1 drum or bag, etc.) $=500$ feet.
- Residential/light commercial $=300$ feet.
- Open areas $=1,000$ feet.
- BLEVE (Boiling Liquid Expanding Vapor Explosion) potential = 2,500 feet (one-half mile).
- Stage arriving units 2,500 feet upwind.
- Position vehicles heading out.
