# National Interagency Coordination Center Incident Management Situation Report <br> Tuesday, July 6, 2021- 0730 MDT <br> National Preparedness Level 4 

National Fire Activity:
Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: ***
Area Command teams committed:
Heavy (342 fires)
3
3
31
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

0
0
4
4

Nationally, there are 14 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

## Link to Geographic Area daily reports.

Link to Understanding the IMSR.

Two MAFFS C-130 airtankers and support personnel each from the $152^{\text {nd }}$ Airlift Wing (Nevada Air National Guard) and one additional from the $146^{\text {th }}$ Airlift Wing (California Air National Guard) have been deployed to McClellan, CA to support wildland fire operations nationally.

*1 Hectare $=2.47$ Acres
Predictive Services Discussion: Upper-level ridging will strengthen over the West with ridging aloft across much of the central and eastern US as well. The upper high will shift westward over the southern Great Basin and southern California, and an upper low will approach the Pacific Northwest. Dry and breezy conditions are likely along and east of the Sierra and parts of the Coast Ranges in southern and central California. Temperatures $10-20^{\circ} \mathrm{F}$ above average and relative humidity generally below $20 \%$ are expected across the West except along the immediate Pacific Coast and in southeast Arizona, New Mexico, and central Colorado. Scattered wet thunderstorms are likely across the Upper Midwest and Great Lakes with well below average temperatures across the northern Plains and Upper Midwest. Isolated thunderstorms are possible over northern Oregon into Washington overnight. Tropical Storm Elsa will move through the Florida Keys and approach the Florida Peninsula Gulf Coast.

July 6, 2021 - Day 7<br>Preparing for Our Future

Today is the twenty-seventh anniversary of a single shift on the South Canyon Fire that took the lives of 14 firefighters. We use this solemn day to remember that instance as we culminate a week of reflection to honor all our sisters and brothers who have perished in the line of duty. We honor them through learning.

We have used this week to reflect on the twentieth anniversary of the Thirtymile Fire. We studied this incident using some of the tools developed partly because of this fire's tragic events. Lessons from Thirtymile have changed the wildland fire service in several ways. One such change is that Thirtymile influenced the shift in focus from accident investigations toward learning reviews and the emphasis on studying unintended outcomes rather than fault-finding after an incident. At the time Thirtymile occurred, these concepts were in their infancy. Today the culture has changed and more readily embraces learning. The events surrounding the Thirtymile Fire helped bring that change.
We reviewed responsibilities of Followers, New Leaders, and Leaders of People. Consider how individuals at the other Levels of Leadership have learned from Thirtymile and other events. Consider how leaders at all levels have applied these lessons to change the wildland fire service.
We also studied how group dynamics impact situation awareness, communication, and decision-making. We looked at the importance of caring for ourselves and others in the aftermath of traumatic events.
On this final day we ask you to think about what you have learned from this week of reflection. Identify what lessons and insights you will use in future operations.

## Discussion Questions

Within your group, discuss the most impactful lessons from the week.
8 Think back to day one of this week, how did you answer the question "What have you learned from Thirtymile already?" What new learning have you added through these exercises? What have you learned from the experiences of others?
2 What topics stood out to you from this week?
2 What did you learn about Leadership Levels?
8 What lessons can you apply today?
We, as fellow firefighters, sincerely hope you never experience something like Thirtymile, South Canyon, or Yarnell Hill. But you might. Are you ready?

Remember, we honor our fallen through learning.
