National Interagency Coordination Center Incident Management Situation Report Monday July 12, 2021– 0730 MDT National Preparedness Level 4

National Fire Activity:

Initial attack activity:	Light (137 fires)
New large incidents:	9
Large fires contained:	2
Uncontained large fires: ***	50
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed	9
Type 2 IMTs committed:	14

Nationally, there are 20 fires being managed under a strategy other than full suppression. ***Uncontained large fires include only fires being managed under a full suppression strategy.

Link to Geographic Area daily reports.

Link to Understanding the IMSR.

Two MAFFS C-130 airtankers and support personnel each from the 152nd Airlift Wing (Nevada Air National Guard) and one additional from the 146th Airlift Wing (California Air National Guard) have been deployed to McClellan, CA to support wildland fire operations nationally.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Reno, NV in support of wildland fire operations.

On July 10, a call when needed Air Attack platform on contract with the United States Forest Service crashed while assigned to the Cedar Basin fire in Arizona. The pilot and the air attack group supervisor were fatally injured. The firefighting community extends its condolences to the family and friends of the deceased.

Northern Rockies Area (PL 5)

New fires:	15
New large incidents:	4
Uncontained large fires:	25
Type 1 IMTs committed	3
Type 2 IMTs committed	6

Snake River Complex (2 fires), Craig Mountain Supervisory Area Office, DOL. IMT 2 (NR Team 4). Twenty miles south of Lewiston, ID. Short grass and timber. Active fire behavior with uphill runs, flanking and spotting. Structures threatened. Evacuations, area, road and trail closures in effect.

Dixie, Nez Perce-Clearwater NF, USFS. IMT 1 (NR Team 2). IMT is also managing the Jumbo incident. Two miles north of Dixie, ID. Timber. Active fire behavior with group torching, uphill runs and long-range spotting. Structures threatened. Area, road and trail closures in effect.

Jumbo, Nez Perce-Clearwater NF, USFS. Eight miles west of Dixie, ID. Timber. Active fire behavior with group torching, uphill runs and long-range spotting. Structures threatened. Area, road and trail closures in effect.

MY Complex, (3 fires) Southern Land Office, DNR. IMT 2 (NR Team 7). Eleven miles northwest of Bighorn, MT. Timber. Active fire behavior with wind-driven runs, group torching and short-range spotting. Residences threatened.

West Lolo Complex, Lolo NF, USFS. IMT 1 (NR Team 1). Six miles north of St. Regis, MT. Brush, closed timber litter and timber. Active fire behavior with wind-driven runs, group torching and short-range spotting. Structures threatened. Area, road and trail closures in effect.

Leland Complex (2 fires), Ponderosa Area Office, DOL. Five miles southwest of Deary, ID. Timber. Extreme fire behavior with short crown runs, spotting and group torching. Structures threatened. Area, road and trail closures in effect.

Cougar Rock Complex (4 Fires), Clearwater Potlach Timber Protective Association, DOL. IMT 2 (NR Team 6). Seventeen miles northeast of Elk River, ID. Light slash and timber. Active fire behavior with group torching, short-range spotting and flanking.

Goose, Beaverhead-Deerlodge NF, USFS. IMT 2 (NR Team 5). Thirty-two miles southeast of Ennis, MT. Timber and brush. Active fire behavior with running, group torching and short-range spotting. Area and trail closures in effect.

Divide Complex (2 fires), Helena-Lewis and Clark NF, USFS. Seventeen miles west of Neihart, MT. Timber and light slash. Extreme fire behavior with crowning, wind-driven runs and long-range spotting. Area, road and trail closures in effect.

Alder Creek, Beaverhead-Deerlodge NF, USFS. Twenty miles northwest of Wisdom, MT. IMT 1 (SA Blue Team). Timber and medium slash. Active fire behavior with uphill runs, single tree torching and spotting. Structures threatened. Area, road and trail closures in effect.

Trail creek, Beaverhead-Deerlodge NF, USFS. Twenty miles west of Wisdom, MT. Active fire behavior with group torching, spotting and short crown runs. Structures threatened. Area, road and trail closures in effect.

Burnt Peak, Kootenai NF, USFS. Nine miles southwest of Troy, MT. Timber. Active fire behavior with group torching, isolated torching and short-range spotting. Road and area closures in effect.

Trestle Creek Complex, Idaho Panhandle NF, USFS. Seven miles north of Hope, ID. Timber and brush. Moderate fire behavior with group torching, creeping and spotting.

Too Kush 2, Maggie Creek Area Office, DOL. IMT 2 (EA Gold team) mobilizing. Four miles southeast of Kooskia, ID. Timber, brush and short grass. Extreme fire behavior with uphill runs, crowning and single tree torching. Structures threatened.

Character Complex, Idaho Panhandle NF, USFS. IMT 2 (NR Team 3) mobilizing. Three miles north of Kellogg, ID. Timber, brush and short grass. Extreme fire behavior with uphill runs, torching and spotting. Area, road and trail closures in effect.

Brewster, Lolo NF, USFS. Twenty miles west of Drummond, MT. Timber and short grass. Minimal fire behavior with backing, creeping and smoldering. Residences threatened. Road and trail closures in effect.

Robertson Draw, Custer Gallatin NF, USFS. Seven miles south of Red Lodge, MT. Short grass, brush and timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

* **Tumbledown**, Idaho Panhandle NF, USFS. Seventeen miles east of Avery, ID. Timber and light slash. Active fire behavior with group torching and short crown runs.

* **Storm Creek**, Nez Perce-Clearwater NF, USFS. Thirty-five miles southwest of Missoula, MT. Brush and timber. Moderate fire behavior with creeping, single tree torching and short-range spotting. Area, road and trail closures in effect.

* **Fourmile**, Big Horn County. Twenty-seven miles south of Lame Deer, MT. Timber. Active fire behavior with running, group torching and wind-driven runs.

LG50 – Garfield County

Northwest Area (PL 4)

New fires:	13
New large incidents:	3
Uncontained large fires:	6
Type 1 IMTs committed	4
Type 2 IMTs committed:	4

Bootleg, Fremont-Winema NF, USFS. IMT 2 (NW Team 10), IMT 1 (PNW Team 2) and IMT 1 (ODF Team 1). Twenty-three miles east of Chiloquin, OR. Timber, brush and closed timber litter. Extreme fire behavior with crowning, wind-driven runs and spotting. Structures threatened. Evacuations, area and road closures in effect.

Jack, Umpqua NF, USFS. IMT 2 (NW Team 9). Thirty-one miles east of Roseburg, OR. Light slash, closed timber litter and brush. Active fire behavior with isolated torching, backing and spotting. Structures and energy infrastructure threatened. Evacuations, area and road closures in effect.

Dry Gulch, Southeast Region, DNR. Transfer of command from IMT 2 (NW Team 7) to IMT 1 (PNW Team 3) will occur today. Two miles southwest of Asotin, WA. Tall grass, brush and timber. Active fire behavior with uphill runs, wind-driven runs and group torching. Structures threatened. Evacuations, area, road and trail closures in effect.

Lewis Rock, John Day Unit, ODF. Transfer of command from IMT 1 (ODF Team 3) back to the local unit will occur today. Four miles south of Mitchell, OR. Short grass and timber. Minimal fire behavior with smoldering.

* **Cedar Creek**, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 8) mobilizing. Fifteen miles northwest of Winthrop, WA. Timber. Moderate fire behavior with group torching, uphill runs and backing. Structures threatened.

Green Ridge, Umatilla NF, USFS. IMT 2 (NW Team 7) mobilizing. Thirty miles east of Walla Walla, WA. Active fire behavior with torching. Structures threatened. Area, road and trail closures in effect.

* **Burbank**, Mid-Columbia National Wildlife Refuge Complex, FWS. Eight miles northeast of Yakima, WA. Tall grass. Extreme fire behavior with running, short-range spotting and wind-driven runs. Area, road and trail closures in effect.

* **Varden**, Okanogan-Wenatchee NF, USFS. Eighteen miles northwest of Winthrop, WA. Timber. Moderate fire behavior with backing, torching and uphill runs. Structures threatened. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Above normal temperatures are forecast for the Intermountain West with very hot, record breaking temperatures continuing for California, the Great Basin, and eastern Oregon. Minimum RH will be very low, below 15%, for most of the Intermountain West with poor overnight recovery, but the Southwest will see more moist conditions. Isolated mixed wet/dry thunderstorms with strong outflow winds are possible for the Peninsular Range, southern Sierra, southern Great Basin, and southwest Colorado. Scattered mainly wet thunderstorms are forecast for the Southwest with the driest storms in northwest Arizona. Elevated fire weather conditions are forecast for the deserts of northeast California into northern Nevada. Breezy and very dry conditions are also expected along eastern slopes of the Coastal Ranges in central and southern California. The Alaskan Interior will see warming and drying with isolated thunderstorms possible. Heavy rain and severe weather are likely across the Ohio and Tennessee River valleys, southern Great Lakes, and the Northeast.

http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

During activity, the body releases more than 70 percent of the energy used by muscles as heat. As a result, heat loss is crucial to prevent an excessive rise in body temperature during firefighting activities. If heat exchange between the body and the environment is impaired, such as in hot or humid environments, firefighter performance can be substantially impaired.

A heat-related illness (HRI) is a potentially fatal disorder caused by elevated body temperatures from internal heat produced by activity or external environmental heat added to the body that cannot be removed to maintain normal body temperature.

Symptoms of an HRI may be difficult to recognize and may occur in no particular order. They may include:

- Profuse sweating with cool, clammy skin leading to hot dry skin.
- Muscle cramps and weakness.
- Dizziness, headache, and irritability.
- Rapid, weak pulse.
- Vomiting.
- Loss of consciousness.

If you suspect a heat illness, stop work and begin treatments to cool down the body, and consider further procedures.

Considerations for mitigation during firefighting activity:

- Ability to handle heat is different between individuals and varies on a daily basis.
- Performing physical tasks, such as hiking or digging fireline, is our largest producer of body heat.
- Hikings typically raises your body temperature 1 to 2 degrees Fahrenheit.
- At elevated body temperatures, the risk of HRI has a lesser margin of error.
- Maintain low skin temperature when possible, as it allows heat transfer from the body.
- Pack weights exceeding 25 percent of body weight add to the body's demands during activity.
- Recovery of high body temperature requires:
 - Reduction of work output.
 - Removal from sources of heat.
 - Proper nutrition and hydration strategies.

Note: Recovery is not just a shift-to-shift concept. It is also task-to-task and even a minute-to-minute process.
