# National Interagency Coordination Center <br> Incident Management Situation Report <br> Saturday, July 17, 2021- 0730 MDT <br> National Preparedness Level 5 

## National Fire Activity:

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: ***
Area Command teams committed: 0
NIMOs committed:
Type 1 IMTs committed
Type 2 IMTs committed:

Light (130 fires)
6
3
57
1
13
21

Nationally, there are 29 fires being managed under a strategy other than full suppression.
***Uncontained large fires include only fires being managed under a full suppression strategy.

## Northern Rockies Area (PL 5)

| New fires: | 20 |
| :--- | :---: |
| New large incidents: | 0 |
| Uncontained large fires: | 29 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 9 |

Character Complex (2 fires), Idaho Panhandle NF, USFS. IMT 2 (NR Team 3). Three miles north of Kellogg, ID. Timber and brush. Active fire behavior with uphill runs, flanking and backing. Structures and energy infrastructure threatened. Area, road and trail closures in effect.

Snake River Complex, Craig Mountain Supervisory Area Office, IDL. IMT 2 (NR Team 4). Twenty miles south of Lewiston, ID. Short grass and timber. Active fire behavior with flanking, group torching and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

Alder Creek, Beaverhead-Deerlodge NF, USFS. IMT 1 (SA Blue Team). IMT is also managing the Trail Creek incident. Twenty miles northwest of Wisdom, MT. Timber and medium slash. Moderate fire behavior with smoldering and creeping. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Trail Creek, Beaverhead-Deerlodge NF, USFS. Twenty miles west of Wisdom, MT. Moderate fire behavior with creeping. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Goose, Beaverhead-Deerlodge NF, USFS. IMT 2 (NR Team 5). Thirty-two miles southeast of Ennis, MT. Timber and brush. Active fire behavior with short crown runs, group torching and short-range spotting. Structures threatened. Area, road and trail closures in effect. Sage-grouse habitat threatened.

Dixie, Nez Perce-Clearwater NF, USFS. IMT 1 (NR Team 2). IMT is also managing the Jumbo incident. Two miles north of Dixie, ID. Timber. Active fire behavior with group torching, uphill runs and spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Jumbo, Nez Perce-Clearwater NF, USFS. Eight miles west of Dixie, ID. Timber. Active fire behavior with group torching, backing and spotting. Area, road and trail closures in effect.

Leland Complex (2 fires), Ponderosa Area Office, IDL. Five miles southwest of Deary, ID. Timber. Active fire behavior with uphill runs, isolated torching and flanking. Evacuations, area, road and trail closures in effect.

Cougar Rock Complex (6 Fires), Clearwater Potlach Timber Protective Association, IDL. IMT 2 (NR Team 6). Seventeen miles northeast of Elk River, ID. Light slash and timber. Active fire behavior with group torching, short-range spotting and flanking. Road closures in effect. Reduction in acreage due to more accurate mapping.

West Lolo Complex (2 Fires), Lolo NF, USFS. IMT 1 (NR Team 1). Six miles north of St. Regis, MT. Brush, closed timber litter and timber. Moderate fire behavior with flanking, single tree torching and spotting. Area, road and trail closures in effect.

Burnt Peak, Kootenai NF, USFS. IMT 2 (GB Team 4). Nine miles southwest of Troy, MT. Timber. Active fire behavior with flanking, backing and spotting. Area and road closures in effect.

Divide Complex (2 fires), Helena-Lewis and Clark NF, USFS. Seventeen miles west of Neihart, MT. Timber and light slash. Active fire behavior with group torching, flanking and backing. Area, road and trail closures in effect.

Too Kush 2, Maggie Creek Area Office, IDL. IMT 2 (EA Gold Team). Four miles southeast of Kooskia, ID. Timber, brush and short grass. Minimal fire behavior. Structures threatened.

MY Complex, (3 fires) Southern Land Office, DNR. IMT 2 (NR Team 7). Eleven miles northwest of Bighorn, MT. Timber. Minimal fire behavior with smoldering and creeping.

Granite Pass Complex, Lolo NF, USFS. IMT 2 (CA Team 15). Thirty miles southwest of Missoula, MT. Timber, brush and medium slash. Moderate fire behavior with group torching, spotting and creeping. Structures threatened. Area, road and trail closures in effect.

Dolly Creek, Idaho Panhandle NF, USFS. IMT 2 (SW Team 5) mobilizing. Seventeen miles west of Superior, MT. Timber. Active fire behavior with short crown runs, torching and spotting.

Tumbledown, Idaho Panhandle NF, USFS. Seventeen miles east of Avery, ID. Timber and light slash. Active fire behavior with short crown runs, spotting and torching. Area, road and trail closures in effect.

Johnson Creek, Clearwater Potlach Timber Protective Association, IDL. Five miles northeast of Elk River, ID. Timber and brush. Active fire behavior with backing, creeping and short-range spotting. Residences threatened. Road closures in effect.

South Tullock Creek, Crow Agency, BIA. Twenty-two miles southeast of Hardin, MT. Short grass and brush. Minimal fire behavior.

Brewster, Lolo NF, USFS. Twenty miles west of Drummond, MT. Timber and short grass. Minimal fire behavior with smoldering. Road and trail closures in effect.

Robertson Draw, Custer Gallatin NF, USFS. Seven miles south of Red Lodge, MT. Short grass, brush and timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Crooked Creek, Billings Field Office, BLM. Twenty-five miles east of Bridger, MT. Timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

Storm Creek, Nez Perce-Clearwater NF, USFS. NIMO (Team 1). Thirty-five miles southwest of Missoula, MT. Brush and timber. No new information.

## Northwest Area (PL 5)

| New fires: | 18 |
| :--- | :---: |
| New large incidents: | 3 |
| Uncontained large fires: | 15 |
| Type 1 IMTs committed: | 6 |
| Type 2 IMTs committed: | 8 |

Bootleg, Fremont-Winema NF, USFS. IMT 1 (NW Team 2), IMT 1 (ODF Team 1) and IMT 2 (NW Team 10). IMT's are also managing the Log incident. Twenty-three miles east of Chiloquin, OR. Timber, brush and closed timber litter. Extreme fire behavior with crowning, running and spotting. Numerous structures and energy infrastructure threatened. Evacuations, area and road closures in effect.

Log, Fremont-Winema NF, USFS. Twenty-one miles northwest of Paisley, OR. Timber and brush. Active fire behavior with running, torching and spotting. Area and road closures in effect.

Chuweah Creek, Colville Agency, BIA. IMT 2 (NW Team 12). Four miles north of Nespelem, WA. Tall grass and timber. Active fire behavior with single tree torching, flanking and backing. Numerous structures threatened. Area and road closures in effect.

Red Apple, Southeast Region, DNR. IMT 1 (OSC Team 1). Two miles southeast of Cashmere, WA. Tall grass and brush. Minimal fire behavior with backing and smoldering.

Darlene, Prineville District, BLM. IMT 2 (NW Team 6). Two miles southeast of LaPine, OR. Timber and brush. Minimal fire behavior with smoldering. Structures threatened. Road closures in effect.

Jack, Umpqua NF, USFS. IMT 2 (NW Team 9). Thirty-one miles east of Roseburg, OR. Timber, closed timber litter and brush. Moderate fire behavior with flanking, isolated torching and short-range spotting. Numerous structures and energy infrastructure threatened. Evacuations, area, road and trail closures in effect.

Cedar Creek, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 8). IMT is also managing the Delancy incident. Includes previously reported Varden incident. Fifteen miles northwest of Winthrop, WA. Timber, medium slash and short grass. Active fire behavior with short crown runs, flanking and short-range spotting. Numerous residences threatened. Area, road and trail closures in effect.

* Delancy, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, short grass and medium slash. Active fire behavior with short crown runs, flanking and backing.

Grandview, Sisters Unit, ODF. IMT 1 (ODF Team 2). Ten miles northeast of Sisters, OR. Timber and brush. Minimal fire behavior with backing, creeping, and smoldering. Numerous structures threatened. Evacuations, area and road closures in effect.

Lick Creek, Umatilla NF, USFS. IMT 1 (PNW Team 3). Fifteen miles southeast of Pomeroy, WA. Timber and closed timber litter. Active fire behavior with flanking backing and creeping. Numerous structures threatened. Area, road and trail closures in effect.

Bruler, Willamette NF, USFS. IMT 2 (NW Team 13). Nine miles south of Detroit, OR. Moderate fire behavior with creeping, flanking and backing. Area, road and trail closures in effect.

Green Ridge, Umatilla NF, USFS. IMT 2 (NW Team 7). Thirty miles east of Walla Walla, WA. Short grass, hardwood and timber. Active fire behavior with uphill runs, group torching and spotting. Structures threatened. Area, road and trail closures in effect.

Summit Trail, Colville Agency, BIA. IMT 2 (NO Team 10). Seventeen miles west of Inchelium, WA. Medium slash, timber and brush. Active fire behavior with torching and spotting. Numerous structures threatened. Area, road and trail closures in effect.

Elbow Creek, Umatilla NF, USFS. IMT 1 (ODF Team 3). Twenty-six miles northeast of Elgin, OR. Timber and brush. Extreme fire behavior with long-range spotting and group torching. Structures threatened. Area, road and trail closures in effect.

* Goddard Road, Southeast Region, DNR. Twelve miles southwest of Kettle Falls, WA. Timber and short grass. Active fire behavior with single tree torching, spotting and backing. Numerous structures threatened. Evacuations in effect.
* Cub Creek 2, Southeast Region, DNR. Five miles north of Winthrop, WA. Brush, short grass and timber. Active fire behavior with running, spotting and torching. Numerous residences threatened. Evacuations and road closures in effect.

Predictive Services Discussion: High pressure will strengthen across the Four Corners today with temperatures above normal for much of the West extending into the northern Plains and western Great Lakes. Isolated mixed wet/dry thunderstorms are forecast for eastern Idaho, Utah, Colorado, and Wyoming. The Southwest will continue to experience deep monsoon moisture with scattered afternoon wet thunderstorms and temperatures near normal. Local elevated conditions are expected along the east slopes of the Cascades and Sierra late this afternoon and this evening. A slow-moving cold front will bring areas of heavy rain to the Tennessee Valley into the Mid-Atlantic and Northeast. Much of Alaska will see above normal temperatures with the warmest temperatures occurring in south-central Alaska and the eastern Interior.

This Day in History is a brief summary of a powerful learning opportunity and is not intended to second guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know what the outcome will be. What are the conditions? What are you thinking? What are YOU doing?

## Battlement Creek Fire

Incident Summary: It's 1976 and western Colorado is experiencing an unusually severe fire season caused partly by unusual fuel conditions and heavy lightning activity during dry weather. A severe frost in June kills a high percentage of the leaves on Gambel oak which remain on the branches and is considered one of Colorado's most flammable fuels. 10 hour fuels are at $3-5 \%$. A large-scale highpressure weather pattern sits over western Colorado allowing for local weather to be influenced by terrain and diurnal winds averaging 10-15 mph in the afternoon with higher gusts. The weather is fair and hot with the temperatures at Grand Junction and Rifle reaching into the mid and upper 90's. A fire is reported 40 miles northeast of Grand Junction, in the Battlement Creek drainage. The fire is burning over an elevation range of 6200-8400 ft on a steep west-facing slope.
Friday July 16, 0630, two hotshot crews from the Coconino NF Arizona arrive at the Battlement Creek fire. This is the seventeenth fire of the first season for the newly formed Mormon Lake Hotshot Crew. The strategy is to prevent western and southern spread. The crews begin a major burnout of the catline (dozer line) from the rocky bluffs (Point A) at about 1615, downhill along the catline toward the Battlement Creek road at the bottom (Point C) ending about 2030. The fire makes an uphill run in oak brush burning out a large portion of the drainage (from the road east to the ridgetop) in about 20 minutes. Two "impressive" fire whirls are observed between 1600-1700. The night shift continues the burn out (Point C-D and beyond along the road) but is spotty with considerable unburned fuel remaining. Other night shift crews construct line along the ridgetop (Point $E$ to $G$ ). Based on Friday's fire behavior, the E -G line is a crucial spot on the fire. Saturday, July $17^{\text {th }}, 0700$, at morning briefing the Mormon Lake crew is assigned to burn out this section of line.

Saturday morning, July $17^{\text {th }}$ - Due to a delay with the helicopter, the Mormon Lake crew does not get to the base of the rock bluff (Point E) until 1100. They are instructed to improve and burn out the line from the rocky bluff to the helispot (Point E-G). The burnout squad consisted of the crew boss, squad boss, and 2 crewmembers. The rest of the crew is improving the handline down the ridgetop.

At this same time, another crew is burning out in the bottom of the draw (Point C-D). The draw burns readily, uphill toward the ridge and the Mormon Lake crew. Neither crew knew of the specific location or assignment of the other.
$1400-1 / 3$ the way from the rock bluff to the upper helispot, there is a noticeable increase in smoke from the draw below (where the other crew had been burning). The crew boss is instructed to speed up the line improvement squad on toward the safety zone (Point G) and to narrow down and speed up his burnout on down the ridgeline to join the remainder of the crew in the safety zone when his burnout was done. Upslope winds have increased to $25-35 \mathrm{mph}$.
1425-1440 - The line improvement squad just makes it into the safety zone when the flame front hits the ridge. 200 yards back, the burnout squad radios that they are "trapped". Their escape is blocked by heavy smoke and flames.
1440-1445 - The squad removes their canvas vests to cover their head and face, moistened the vests and their clothes with water from their canteens, and lays face down in the mineral soil of the fireline.
1448 - All four firefighters are very badly burned. Three will lose their lives.

## Discussion Points

The day prior to the burnover, an airtanker crashed during a retardant dropping mission on the Battlement Creek fire killing the pilot.

| Resources $\begin{array}{c}\text { Staff Ride to the Battlement Creek Fire } \\ \text { Battlement Creek Fire Investigation Report }\end{array}$ |
| :---: |

$\checkmark \quad$ Discuss how incidents and distractions can affect our judgment and situational awareness.
The crew all wore aluminum hardhats, canvas vests, Nomex shirts and non-fire-resistant work pants. Fire shelters were not used. Fire shelters may have prevented serious burns and death at this incident. Policy on issuing and carrying shelters had not been established yet. This incident became the catalyst for the mandatory use of fire shelters and fire-resistant clothing.
$\checkmark \quad$ Take this opportunity to inspect, repair, or replace your PPE and fire shelter if needed to ensure that it protects you as well as possible.
