

**National Interagency Coordination Center
Incident Management Situation Report
Monday, July 19, 2021– 0730 MDT
National Preparedness Level 5**

National Fire Activity:

Initial attack activity:	Light (116 fires)
New large incidents:	4
Large fires contained:	6
Uncontained large fires: ***	60
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed	14
Type 2 IMTs committed:	21

Nationally, there are 31 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Northern Rockies Area (PL 5)

New fires:	28
New large incidents:	3
Uncontained large fires:	31
NIMOs committed:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	8

Character Complex (2 fires), Idaho Panhandle NF, USFS. IMT 2 (NR Team 3). Three miles north of Kellogg, ID. Timber and brush. Active fire behavior with uphill runs, flanking and backing. Numerous structures threatened. Area, road and trail closures in effect.

Snake River Complex, Craig Mountain Supervisory Area Office, IDL. IMT 2 (NR Team 4). Twenty miles south of Lewiston, ID. Short grass and timber. Active fire behavior with flanking, group torching and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

Alder Creek, Beaverhead-Deerlodge NF, USFS. IMT 1 (SA Blue Team). IMT is also managing the Trail Creek incident. Twenty miles northwest of Wisdom, MT. Timber and medium slash. Active fire behavior with short crown runs, spotting and uphill runs. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

Trail Creek, Beaverhead-Deerlodge NF, USFS. Twenty miles west of Wisdom, MT. Active fire behavior with uphill runs, group torching and spotting. Structures threatened. Area, road and trail closures in effect.

Goose, Beaverhead-Deerlodge NF, USFS. IMT 2 (NR Team 5). Thirty-two miles southeast of Ennis, MT. Timber and brush. Moderate fire behavior with uphill runs, group torching and spotting. Structures and sage-grouse habitat threatened. Area, road and trail closures in effect.

Dixie, Nez Perce-Clearwater NF, USFS. IMT 1 (NR Team 2). IMT is also managing the Jumbo incident. Two miles north of Dixie, ID. Timber. Active fire behavior with group torching, uphill runs and spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Jumbo, Nez Perce-Clearwater NF, USFS. Eight miles west of Dixie, ID. Timber. Active fire behavior with group torching, backing and spotting. Area, road and trail closures in effect.

Anderson Hill, Butte Field Office, BLM. Thirty miles southeast of Missoula, MT. Timber and medium slash. Active fire behavior with group torching, backing and spotting. Structures threatened. Evacuations, area and road closures in effect.

Granite Pass Complex (3 fires), Lolo NF, USFS. IMT 2 (CA Team 15). Thirty miles southwest of Missoula, MT. Timber, brush and medium slash. Moderate fire behavior with flanking, backing and single tree torching. Structures threatened. Area, road and trail closures in effect.

Leland Complex (2 fires), Ponderosa Area Office, IDL. IMT 2 (EA Gold Team). Five miles southwest of Deary, ID. Timber. Active fire behavior with flanking, backing and isolated torching. Evacuations, area, road and trail closures in effect.

Cougar Rock Complex (6 Fires), Clearwater Potlach Timber Protective Association, IDL. IMT 2 (NR Team 6). Seventeen miles northeast of Elk River, ID. Light slash and timber. Active fire behavior with short-range spotting, single tree torching and flanking. Road closures in effect.

West Lolo Complex (2 Fires), Lolo NF, USFS. IMT 1 (NR Team 1). Six miles north of St. Regis, MT. Brush, closed timber litter and timber. Moderate fire behavior with flanking, single tree torching and spotting. Area, road and trail closures in effect.

Divide Complex (2 fires), Helena-Lewis and Clark NF, USFS. Seventeen miles west of Neihart, MT. Timber and light slash. Active fire behavior with group torching, short-range spotting and flanking. Evacuations, area, road and trail closures in effect.

Burnt Peak, Kootenai NF, USFS. IMT 2 (GB Team 4). Nine miles southwest of Troy, MT. Timber and light slash. Active fire behavior with flanking, backing and spotting. Structures threatened. Area and road closures in effect.

Robertson Draw, Custer Gallatin NF, USFS. Seven miles south of Red Lodge, MT. Short grass, brush and timber. Minimal fire behavior with smoldering and creeping. Area, road and trail closures in effect.

Dolly Creek, Idaho Panhandle NF, USFS. IMT 2 (SW Team 5). IMT is also managing the Tumbledown incident. Seventeen miles west of Superior, MT. Timber. Active fire behavior with short crown runs, torching and spotting. Area, road and trail closures in effect.

Tumbledown, Idaho Panhandle NF, USFS. Seventeen miles east of Avery, ID. Timber and light slash. Active fire behavior with short crown runs, spotting and torching. Area, road and trail closures in effect.

* **Wolf Coulee**, Richland County. Twelve miles southwest of Culbertson, MT. Timber and chaparral. Active fire behavior with running and wind-driven runs.

* **Outlaw**, Beaverhead County. Started on private land 18 miles southeast of Hysham, MT. Short grass, brush and timber. Extreme fire behavior with spotting, group torching and uphill runs. Structures threatened.

Harris, Carbon County. Five miles south of Park City, MT. Timber and short grass. Minimal fire behavior with single tree torching and smoldering. Numerous structures threatened. Road closures in effect. Reduction in acreage due to more accurate mapping.

Buffalo, Yellowstone County. Seven miles east of Billings, MT. Short grass, timber and brush. Minimal fire behavior with single tree torching and smoldering. Structures threatened.

Johnson Creek, Clearwater Potlach Timber Protective Association, IDL. Five miles northeast of Elk River, ID. Timber and brush. Active fire behavior with backing, creeping and short-range spotting. Residences threatened. Road closures in effect.

Crooked Creek, Billings Field Office, BLM. Twenty-five miles east of Bridger, MT. Timber. Minimal fire behavior with isolated torching. Area, road and trail closures in effect.

South Tullock Creek, Crow Agency, BIA. Twenty-two miles southeast of Hardin, MT. Short grass and brush. Minimal fire behavior with smoldering and creeping.

Storm Creek, Nez Perce-Clearwater NF, USFS. NIMO (Team 1). Thirty-five miles southwest of Missoula, MT. Brush and timber. No new information.

* **Lynx**, Nez Perce-Clearwater NF, USFS. Twenty miles southeast of Elk City, ID. Timber. Active fire behavior with uphill runs, running and group torching. Structures threatened. Road closure in effect. Last narrative report unless significant activity occurs.

American Fork, Helena-Lewis and Clark NF, USFS. Twenty-four miles southwest of Harlowton, MT. Extreme fire behavior with group torching, spotting and running. Last narrative report unless significant activity occurs.

Northwest Area (PL 5)

New fires: 6
 New large incidents: 0
 Uncontained large fires: 15
 Type 1 IMTs committed: 6
 Type 2 IMTs committed: 7

Bootleg, Fremont-Winema NF, USFS. IMT 1 (NW Team 2), IMT 1 (ODF Team 1). IMTs are also managing the Log incident. Twenty-three miles east of Chiloquin, OR. Timber, brush and closed timber litter. Extreme fire behavior with crowning, wind-driven runs and long-range spotting. Numerous structures and energy infrastructure threatened. Evacuations, area and road closures in effect.

Log, Fremont-Winema NF, USFS. Twenty-one miles northwest of Paisley, OR. Timber and brush. Active fire behavior with running, torching and spotting. Area and road closures in effect.

Cedar Creek, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 8). IMT is also managing the Delancy and Cub Creek 2 incidents. Fifteen miles northwest of Winthrop, WA. Timber, medium slash and short grass. Active fire behavior with short crown runs, backing and short-range spotting. Numerous residences threatened. Area, road and trail closures in effect.

Delancy, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, short grass and medium slash. Active fire behavior with short crown runs, backing and short-range spotting. Area, road and trail closures in effect.

Cub Creek 2, Southeast Region, DNR. Five miles north of Winthrop, WA. Timber, brush and closed timber litter. Extreme fire behavior with uphill runs, flanking and short-range spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

Summit Trail, Colville Agency, BIA. IMT 2 (CA Team 10). Seventeen miles west of Inchelium, WA. Medium slash, timber and brush. Extreme fire behavior with crowning, spotting and torching. Numerous structures threatened. Area, road and trail closures in effect.

Chuweah Creek, Colville Agency, BIA. IMT 2 (NW Team 12). Four miles north of Nespelem, WA. Brush, timber and short grass. Active fire behavior with spotting, group torching and running. Numerous structures threatened. Area and road closures in effect.

Elbow Creek, Umatilla NF, USFS. IMT 1 (ODF Team 3). Twenty-six miles northeast of Elgin, OR. Timber and short grass. Active fire behavior with group torching, short crown runs and spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Green Ridge, Umatilla NF, USFS. IMT 2 (NW Team 7). Thirty miles east of Walla Walla, WA. Brush and timber. Moderate fire behavior with uphill runs, backing and spotting. Structures threatened. Area, road and trail closures in effect.

Jack, Umpqua NF, USFS. Transfer of command from IMT 2 (NW Team 9) to (NW Team 10) will occur on 7/21. Thirty-one miles east of Roseburg, OR. Timber, closed timber litter and brush. Moderate fire behavior with flanking, isolated torching and short-range spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Lick Creek, Umatilla NF, USFS. IMT 1 (NW Team 3). Fifteen miles southeast of Pomeroy, WA. Timber and closed timber litter. Active fire behavior with flanking, backing and creeping. Numerous structures threatened. Area, road and trail closures in effect.

Bruler, Willamette NF, USFS. IMT 2 (NW Team 13). Nine miles south of Detroit, OR. Moderate fire behavior with backing, flanking and torching. Area, road and trail closures in effect.

Red Apple, Southeast Region, DNR. IMT 1 (CA Team 1). Two miles southeast of Cashmere, WA. Tall grass, brush and timber. Minimal fire behavior with smoldering and creeping.

Grandview, Sisters Unit, ODF. IMT 1 (ODF Team 2). Ten miles northeast of Sisters, OR. Timber and brush. Minimal fire behavior with smoldering. Numerous structures threatened. Evacuations, area and road closures in effect.

Goddard Road, Northeast Region, DNR. Started on private land 12 miles southwest of Kettle Falls, WA. Timber and short grass. Active fire behavior with single tree torching, spotting and backing. Numerous structures threatened.

Predictive Services Discussion: Isolated to scattered mixed wet and dry thunderstorms are expected over southern and central California, the Sierra, western and northern Nevada, south-central and eastern Oregon, eastern Washington, Idaho, and western Montana. Isolated to scattered showers with possible embedded thunderstorms are likely to track over the northern Great Basin into the Northern Rockies early to mid-day. Some thunderstorms are likely to continue overnight, especially over eastern Oregon and Washington, Idaho, and into western Montana. Widespread smoke will continue for portions of the inland Pacific Northwest and Northern Rockies. Monsoon thunderstorms are expected across the Southwest, Four Corners, and southern Great Basin with scattered to numerous thunderstorms from central Texas through the South along and south of a surface front. Additionally, dry and windy conditions are expected in eastern Montana into northeast Wyoming and northwest South Dakota with hot, dry, and unstable conditions across portions of the Northern Rockies and Plains into northern Minnesota.

Hazard Tree Identification

Felling Safety Category

Some Common tree deficiencies which contribute to potential felling hazards:

Weak Limbs: limbs of all sizes and species with decay evident cracking, loose, hung-up or fire damaged limbs. Avoid working under overhead hazards.

Weak Tops: split/schoolmarm tops that could have weakened unions, fire weakened tops, rotten or dead tops.

Witches Broom: caused by mistletoe infection, limbs can grow very large and heavy (200+ lbs). Can contribute to uneven weight distribution.

Split Trunk: cracked trunk from frost, lightning or wind. Visible evidence of advanced decay indicates serious weakness where the tree could fail. May increase wood fiber tension contributing to barber chair potential.

Stem Damage: caused by windfall, scarring, fire, machine, and animal damage, as well as heart rot diseases.

Cat Face: look for enough solid wood to construct an effective undercut and back cut. Complexity increases when desired felling direction is different than that of the cat face.

Thick Sloughing Bark: usually found on dead trees. Loose bark, particularly on Douglas firs, can injure sawyers.

Butt and Stem Cankers: usually found on deciduous trees but can occur on Douglas fir and pine. The infected areas weaken the stem.

Fungal Fruiting Bodies or Conks: found on stems may indicate massive interior rot. Excessive resinosis (resin flow) also indicates heart or root diseases.

Heavy Tree Lean: look for any ground cracks around the base of the tree. May be caused by damaged roots or lifting root mats, shallow or wet soils. In some cases, the tree may have corrected itself which can be determined by looking for corrected top growth.

Root Condition: Weakened roots may reduce felling control. Signs of decay or fungal conks on the roots, or fire weakened roots.

Species Consideration: consult local experts for species deficiencies particular to local areas. A good habit is to observe overall tree stand health wherever you're working.

Felling a hazard tree requires accurate risk assessment and complexity analysis and demands the sawyer's full situational awareness. Do not bypass hazard trees without taking some action such as felling or establishing a No-Work-Zone.

Discuss indicators of tree defects specific to your local area.
