

**National Interagency Coordination Center
Incident Management Situation Report
Friday, August 20, 2021– 0730 MDT
National Preparedness Level 5**

National Fire Activity:

Initial attack activity:	Light (80 fires)
New large incidents:	1
Large fires contained:	6
Uncontained large fires: ***	88
Area Command teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed	15
Type 2 IMTs committed:	20

Nationally, there are 49 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Northern California Area (PL 5)

New fires:	19
New large incidents:	0
Uncontained large fires:	10
NIMOs committed:	1
Type 1 IMTs committed:	6
Type 2 IMTs committed:	4

Dixie, Butte Unit, Cal Fire. Unified command between IMT 1 (Cal Fire Team 3) and IMT 1 (CA Team 1). Fifteen miles northeast of Paradise, CA. Timber and brush. Active fire behavior with wind-driven runs, group torching and short-range spotting. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Caldor, Eldorado NF, USFS. IMT 1 (Cal Fire Team 6). Sixteen miles northeast of Plymouth, CA. Timber, light slash and brush. Active fire behavior with short-range spotting and torching. Several communities and numerous structures threatened. Evacuations, area, road and trail closures in effect.

Monument, Shasta-Trinity NF, USFS. Unified command between IMT 1 (Cal Fire Team 5) and IMT 1 (AK Team 1). One mile southwest of Del Loma, CA. Timber and brush. Active fire behavior with uphill runs, torching and short-range spotting. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

McFarland, Shasta-Trinity NF, USFS. IMT 2 (CA Team 10). Four miles southeast of Wildwood, CA. Timber, chaparral and closed timber litter. Active fire behavior with wind-driven runs and spotting. Several communities and infrastructure threatened. Area, road and trail closures in effect.

Antelope, Klamath NF, USFS. IMT 2 (SW Team 4). IMT 1 (SA Red Team) mobilizing. Twenty miles northeast of McCloud, CA. Timber and brush. Active fire behavior with uphill runs, torching and spotting. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

River Complex (3 fires), Klamath NF, USFS. NIMO (Team 3) and IMT 2 (CA Team 15). Nine miles southwest of Etna, CA. Timber and brush. Active fire behavior with backing, uphill runs and spotting. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

McCash, Six Rivers NF, USFS. IMT 2 (SW Team 3). Fourteen miles northeast of Somes Bar, CA. Timber, brush and short grass. Active fire behavior with uphill runs, running and short-range spotting. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Lava, Shasta-Trinity NF, USFS. Four miles east of Weed, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Area and road closures in effect.

Northwest Area (PL 5)

New fires:	3
New large incidents:	1
Uncontained large fires:	38
Type 1 IMTs committed:	7
Type 2 IMTs committed:	10

Schneider Springs, Okanogan-Wenatchee NF, USFS. IMT 2 (EA Silver Team). IMT 1 (PNW Team 2) mobilizing. IMT is also managing the Windy Pass incident. Twenty-one miles northwest of Tieton, WA. Short grass, timber and brush. Extreme fire behavior with uphill runs, running and flanking. Several communities and numerous structures threatened. Evacuations, area, road and trail closures in effect.

Windy Pass, Okanogan-Wenatchee NF, USFS. Eleven miles southwest of Cle Elum, WA. Timber and short grass. Minimal fire behavior. Structures threatened. Area, road and trail closures in effect.

Walker Creek, Northeast Region, DNR. Transfer of command from IMT 2 (NR Team 6) to IMT 2 (RM Blue Team) will occur tomorrow. IMT is also managing the Chickadee Creek incident. Four miles northwest of Wauconda, WA. Timber. Active fire behavior with single tree torching, short-range spotting and wind-driven runs. Several communities and numerous structures threatened. Evacuations, area, road and trail closures in effect.

Chickadee Creek, Northeast Region, DNR. Sixteen miles northwest of Tonasket, WA. Timber and short grass. Active fire behavior with single tree torching, short-range spotting and wind-driven runs.

Ford Corkscrew, Northeast Region, DNR. IMT 2 (SW Team 5). Eleven miles south of Springdale, WA. Timber and closed timber litter. Moderate fire behavior with flanking, isolated torching and spotting. Several communities and numerous structures threatened. Evacuations and road closures in effect. Precipitation occurred over the fire area yesterday.

Rough Patch Complex (5 fires), Umpqua NF, USFS. IMT 1 (GB Team 2). IMT is also managing the Jack incident and Devil's Knob Complex. Eighteen miles southwest of Oakridge, OR. Closed timber litter and timber. Active fire behavior with short crown runs, uphill runs and torching. Area, road and trail closures in effect.

Jack, Umpqua NF, USFS. Thirty-one miles east of Roseburg, OR. Closed timber litter and timber. Moderate fire behavior with torching, backing and creeping. Area, road and trail closures in effect.

Devil's Knob Complex (4 fires), Umpqua NF, USFS. Twenty miles northeast of Azalea, OR. Timber and medium slash. Active fire behavior with short crown runs, uphill runs and group torching. Structures threatened. Area, road and trail closures in effect.

Fox Complex (2 fires), Fremont-Winema NF, USFS. IMT 1 (ODF Team 3). Fourteen miles west of Lakeview, OR. Timber, short grass and brush. Moderate fire behavior with flanking, backing and isolated torching. Numerous structures and infrastructure threatened. Evacuations and road closures in effect.

Summit Trail, Colville Agency, BIA. IMT 2 (NW Team 10). IMT is also managing the Upper Lime Creek incident. Seventeen miles west of Inchelium, WA. Timber and light slash. Active fire behavior with flanking, creeping and torching. Numerous structures and communication infrastructure threatened. Area and road closures in effect.

Upper Lime Creek, Colville Agency, BIA. Six miles northwest of Keller, WA. Timber and light slash. No new information.

Middle Fork Complex (2 fires), Willamette NF, USFS. IMT 1 (PNW Team 3). IMT is also managing the Knoll incident. Nine miles northeast of Oakridge, OR. Closed timber litter and timber. Active fire behavior with uphill runs, flanking and torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Knoll, Willamette NF, USFS. Seven miles northeast of McKenzie Bridge, OR. Timber, closed timber litter and light slash. Minimal fire behavior with creeping and smoldering. Structures and infrastructure threatened. Area, road and trail closures in effect.

Muckamuck, Colville NF, USFS. IMT 1 (CA Team 2). IMT is also managing the Cub Creek 2, Cedar Creek and Delancy incidents. Four miles northwest of Conconully, WA. Timber and closed timber litter. Active fire behavior with group torching, short-range spotting and creeping. Several communities threatened. Area, road and trail closures in effect.

Cub Creek 2, Southeast Region, DNR. Five miles north of Winthrop, WA. Short grass, closed timber litter and timber. Active fire behavior with single tree torching, short-range spotting and creeping. Several communities and infrastructure threatened. Area, road and trail closures in effect.

Cedar Creek, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, brush and short grass. Active fire behavior with single tree torching, short-range spotting and creeping. Several communities threatened. Area, road and trail closures in effect.

Delancy, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, short grass and closed timber litter. Minimal fire behavior. Area, road and trail closures in effect.

Green Ridge, Umatilla NF, USFS. IMT 2 (RM Team Black). Thirty miles east of Walla Walla, WA. IMT is also managing the Lick Creek incident. Short grass, timber and medium slash. Moderate fire behavior with uphill runs, single tree torching and short-range spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Lick Creek, Umatilla NF, USFS. Fifteen miles southeast of Pomeroy, WA. Short grass, hardwood litter and timber. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect.

Black Butte, Malheur NF, USFS. IMT 2 (NW Team 6). Thirty-six miles southeast of John Day, OR. Timber and light slash. Minimal fire behavior with creeping, isolated torching and smoldering. Structures threatened. Area, road and trail closures in effect.

Whitmore, Colville Agency, BIA. Transfer of command from IMT 2 (NW Team 12) back to the local unit will occur today. Twenty-seven miles northeast of Bridgeport, WA. Timber. Minimal fire behavior with smoldering and creeping. Infrastructure threatened. Area and road closures in effect.

Skyline Ridge Complex (3 fires), South Unit, ODF. Transfer of command from IMT 1 (ODF Team 1) back to the local unit will occur today. Five miles southeast of Days Creek, OR. Timber and light slash. Minimal fire behavior with backing, smoldering and creeping.

Twenty-five Mile, Okanogan-Wenatchee NF, USFS. IMT 1 (SW Team 1). Twelve miles northwest of Chelan, WA. Timber, grass and brush. Extreme fire behavior with uphill runs, group torching and long-range spotting. Numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Bulldog Mountain, Colville NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Mack Mountain incident. Sixteen miles northwest of Kettle Falls, WA. Heavy slash and timber. Minimal fire behavior with backing, creeping and smoldering. Residences threatened. Area, road and trail closures in effect.

Mack Mountain, Colville NF, USFS. Fifteen miles north of Kettle Falls, WA. Timber and brush. Minimal fire behavior with flanking, creeping and smoldering. Area, road and trail closures in effect.

Bull Complex, Mt. Hood NF, USFS. IMT 2 (GB Team 4) mobilizing. Twenty-five miles northeast of Mill City, OR. Timber. Active fire behavior with backing, creeping and single tree torching. Area, road and trail closures in effect.

Twin Peaks, Vale District, BLM. Thirteen miles northwest of McDermitt, NV. Brush, short grass and tall grass. No new information. Last report unless significant activity occurs.

* **Moraine Lake**, North Cascades National Park, NPS. Thirty-one miles northeast of Darrington, WA. Timber. Active fire behavior with uphill runs, backing and creeping. Last narrative report unless significant activity occurs.

MSF – Mt. Baker-Snoqualmie NF, USFS

Northern Rockies Area (PL 5)

New fires:	7
New large incidents:	0
Uncontained large fires:	33
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	4

Pine Grove, Fort Belknap Agency, BIA. Three miles northeast of Hays, MT. Timber and short grass. Minimal fire behavior with creeping and smoldering. Structures threatened. Area and road closures in effect. Precipitation occurred over the fire area yesterday.

Character Complex (2 fires), Idaho Panhandle NF, USFS. Three miles north of Kellogg, ID. Timber and brush. Moderate fire behavior with backing, single tree torching and smoldering. Evacuations, area, road and trail closures in effect.

Richard Spring, Rosebud County. IMT 2 (NR Team 3). Started on private land ten miles southwest of Colstrip, MT. Short grass, brush and timber. Minimal fire behavior with smoldering. Numerous structures, communities and infrastructure threatened. Area closures in effect. Precipitation occurred over the fire area yesterday.

Lame Deer, Northern Cheyenne Agency, BIA. Five miles northwest of Lame Deer, MT. Short grass, brush and timber. Minimal fire behavior with smoldering. Numerous residences threatened. Area closures in effect.

Woods Creek, Helena-Lewis and Clark NF, USFS. IMT 1 (RM Team 1). IMT is also managing the Divide Complex and American Fork incident. Sixteen miles northeast of Townsend, MT. Short grass, timber and brush. Minimal fire behavior with creeping and smoldering. Residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Divide Complex (2 fires), Helena-Lewis and Clark NF, USFS. Seventeen miles west of Neihart, MT. Short grass and timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

American Fork, Helena-Lewis and Clark NF, USFS. Twenty-four miles southwest of Harlowton, MT. Short grass, timber and brush. Minimal fire behavior with creeping and smoldering. Residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

West Lolo Complex, Lolo NF, USFS. IMT 2 (SA Gold Team). Six miles north of St. Regis, MT. Timber, closed timber litter and brush. Minimal fire behavior with backing and creeping. Community of Thompson Falls and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Alder Creek, Beaverhead-Deerlodge NF, USFS. Transfer of command from IMT 1 (SA Blue Team) to IMT 2 (NR Team 5) will occur tomorrow. IMT is also managing the Trail Creek, Christensen and Black Mountain incidents. Twenty miles northwest of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Trail Creek, Beaverhead-Deerlodge NF, USFS. Twenty miles west of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Community of Gibbonsville threatened. Area, road and trail closures in effect.

Christensen, Beaverhead-Deerlodge NF, USFS. Ten miles northeast of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Black Mountain, Beaverhead-Deerlodge NF, USFS. Twenty miles east of Salmon, ID. Timber, heavy slash and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Bedrock, Ponderosa Area Office, IDL. Transfer of command from IMT 2 (RM Team Blue) back to the local unit occurred yesterday. Started on tribal land twenty-five miles northeast of Lewiston, ID. Timber and brush. Minimal fire behavior with smoldering and creeping. Numerous structures threatened.

Cougar Rock Complex (4 fires), Clearwater Potlach Timber Protective Association, IDL. Seventeen miles northeast of Elk River, ID. Light slash and timber. Moderate fire behavior with creeping. Area and road closures in effect.

Stateline Complex (7 fires), Idaho Panhandle NF, USFS. Twenty-two miles southwest of Superior, MT. Closed timber litter, timber and light slash. Minimal fire behavior with backing, creeping and smoldering. Area, road and trail closures in effect.

Granite Pass Complex (3 fires), Lolo NF, USFS. Thirty miles southwest of Missoula, MT. Timber, closed timber litter and brush. Minimal fire behavior with creeping and smoldering. Community of Lolo Hot Springs, structures and communication infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Storm Theatre Complex (12 fires), Nez Perce-Clearwater NF, USFS. Transfer of command from NIMO (Team 1) back to the local unit will occur tomorrow. Thirty-five miles southwest of Missoula, MT. Timber and closed timber litter. Minimal fire behavior with flanking, backing and creeping. Area, road and trail closures in effect.

Burnt Peak, Kootenai NF, USFS. IMT 2 (GB Team 5). IMT is also managing the South Yaak incident. Nine miles southwest of Troy, MT. Timber and light slash. Minimal fire behavior with creeping, smoldering and backing. Structures threatened. Area, road and trail closures in effect.

South Yaak, Kootenai NF, USFS. Four miles northwest of Troy, MT. Timber and light slash. Minimal fire behavior with creeping, smoldering and backing. Area, road and trail closures in effect.

Harris Mountain, Cascade County. Seven miles southeast of Cascade, MT. Closed timber litter and timber. Minimal fire behavior with smoldering. Structures threatened. Precipitation occurred over the fire area yesterday.

Boulder 2700, Flathead Agency, BIA. Three miles northeast of Finley Point, MT. Timber and brush. Moderate fire behavior with creeping, backing and smoldering. Numerous residences and infrastructure threatened. Evacuations, area and trail closures in effect.

Whitetail Creek, Northwestern Land Office, DNR. Nine miles northeast of Finley Point, MT. Timber and medium slash. Minimal fire behavior with smoldering.

Twin, Northwestern Land Office, DNR. Thirty-three miles north of Plains, MT. Timber and medium slash. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

Toetly 3, Coeur d'Alene Tribe, BIA. Started on private land two miles northeast of Plummer, ID. Timber and brush. Minimal fire behavior with smoldering and creeping. Numerous structures threatened.

Predictive Services Discussion: An upper low will track from Wyoming through the northern Plains as it weakens tomorrow with another upper low dropping into Washington during the afternoon while troughing continues across the West. A cold front will move through the Plains and into Minnesota with dry and breezy conditions possible ahead of the front, in the Cascade gaps of Oregon, and along the Sierra Front. Strong post-frontal west winds are possible in southeast Wyoming, southwest South Dakota, and western Nebraska tomorrow, but temperatures will be cool. Showers and thunderstorms are forecast along the front in the northern Plains into Minnesota with some of the storms likely to be severe. Wetting rain is likely across much of Minnesota except for northeast portions. Scattered showers and isolated thunderstorms are possible across much of eastern Montana and Wyoming in the wake of the first upper low. Scattered showers and thunderstorms are expected across much of Washington into northern Oregon and the Idaho Panhandle. Heavy rain is likely from eastern North Carolina into Delaware.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

This Day in History is a brief summary of a powerful learning opportunity and is not intended to second guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know the outcome. What are the conditions? What are you thinking? What are YOU doing?

The Great Fires of 1910 (The Big Blowup) - August 20th

Incident Summary: The 1910 fire season in the Northern Rockies was an unprecedented challenge to the US Forest Service. Record drought conditions had combined with an unusually strong lightning cycle and an abundance of man-caused fires. By July 15, there were over 3000 firefighters on the fireline in Region 1 of the Forest Service alone. On August 8, President Taft deployed numerous companies of the regular Army to northern Idaho and western Montana.

On August 20, an upper-level trough, centered in Saskatchewan, moved through the Northern Rockies between 1000 and 2100 hrs. This cold front passage brought a strong west/southwest wind that caused numerous fires to blowup and join together to create large fire fronts that moved across the landscape. Fire crews across the Northern Rockies found themselves in danger of entrapment. Many were able to take refuge in previously burned areas, natural safety zones, and mine tunnels. Some were completely cut off, and by the end of the day, 85 persons - 78 of them firefighters - had lost their lives at 9 separate fatality sites.

This day in wildland fire history is dedicated to all those at the Big Blowup.

Discussion Points:

The fire behavior on August 20 was influenced a great deal by the drought conditions.

- Discuss what a [National Fire Danger Rating System pocket card](#) tells us and where to get them.

Messengers were sent to some of the crews to warn them of the impending windstorm, but most of the crews received no warning.

- We often depend on our handheld radios to receive critical weather updates. What backup systems / technologies can be used if our radios don't work?

On the West Fork Big Creek fire, a 60-person crew was instructed by their supervisor to choose between two safety zones, the black from the previous burning period or the creek bottom below. 19 firefighters chose to take shelter in a nearby homesteader's cabin which ignited as the flame front passed. 18 of them perished rushing outside. The one survivor tripped at the door and fell to the ground.

- What is your agency's policy on taking refuge in a structure? What considerations would you take into account?

The 18 firefighters on the Stevens Peak fire burned out a safety zone in light fuels. One firefighter perished when he breathed in super-heated air.

- Discuss the importance of protecting your airway in entrapment situations, and methods of doing so.

When the 70 firefighters working on the Setser Creek fire were instructed by their supervisor to proceed down-

stream to a safety zone, 27 of them disregarded the order and chose instead to follow the instructions of the Camp Cook who insisted there was no danger. All 28 lost their lives.

- What tools are used by your crew/unit to improve crew cohesion in times of stress?

On the Middle Fork Big Creek fire, one crew had retreated to a two-acre clearing with a stream running through

it. Most of the firefighters who sought refuge in the stream survived. Three firefighters, however, were killed when a large tree fell on them.

- What factors influence the selection of a good safety zone? (Review Safety Zones found under Operational Engagement section (green) in the [Incident Response Pocket Guide \(IRPG\), PMS 461](#)).

On the Storm Creek fire, the crew supervisor had led his 70-person crew to a safety zone consisting of black from the previous day's burn. This safety zone proved to be a good one, as the crew safely watched the fire burn around them. One firefighter left the protection of the safety zone and was found dead the next day.

- How do you and your crew provide for firefighter accountability?

After the Big Blowup, there were 116 injured firefighters. Some received their initial care from Army field surgeons. Others, including famous Ranger Ed Pulaski, were left with long-term disabilities.

- What are the burn injury protocols on your unit?
