## Southern Area (PL 4)

New fires: 175
New large incidents: 20
Uncontained large fires: 37
Type 2 IMTs committed: 1
Thomas Divide, Great Smoky Mountains NP, NPS. IMT 2 (SA Gold Team). Two miles northeast of Bryson City, NC. Hardwood litter. Minimal fire behavior with smoldering. Road closures in effect. Residences and infrastructure threatened.

* Interceptor, Seminole Tribe, BIA. Twenty-one southeast of Immokalee, FL. Southern rough and tall grass. Active fire behavior with wind-driven runs. Structures threatened. Evacuations in effect.

Chimney Rock, Cherokee NF, USFS. Six miles northeast of Del Rio, TN. Hardwood litter. Minimal fire behavior with creeping and smoldering. Residences threatened. Road and trail closures in effect.

Washita River, Oklahoma DOF. Two miles southeast of Durham, OK. Timber, brush and grass. Active fire behavior with wind-driven runs, single tree torching and smoldering. Structures threatened.

[^0]Rocky Point, National Forests in Florida. Four miles east of Salt Springs, FL. Southern rough. Minimal fire behavior.

Valley View Ranch, Georgia Forestry Commission. Seven miles northwest of Trion, GA. Timber. Moderate fire behavior with backing and running. Structures threatened.

Blue Devil, Wewoka Agency, BIA. Five miles southeast of Bowlegs, OK. Hardwood litter and tall grass. Minimal fire behavior with smoldering. Residences threatened.

Cedar Creek, North Carolina Forest Service. Ten miles southeast of Fayetteville, NC. Southern Rough. Minimal fire behavior with creeping.

* Beech, Daniel Boone NF, USFS. Four miles northeast of Manchester, KY. Timber. Moderate fire behavior with wind-driven runs, short-range spotting and backing.
* Hurricane, Daniel Boone NF, USFS. Five miles southwest of Oneida, KY. Timber. Moderate fire behavior with wind driven-runs, backing and short-range spotting.
* Hwy 199, Georgia Forestry Commission. Fifteen miles south of East Dublin, GA. Southern Rough. Active fire behavior with running.

Smyth Cemetery Road, Kentucky DOF. Three miles northwest of Zoe, KY. Timber. Moderate fire behavior with running.

[^1] Extreme fire behavior with running, wind-driven runs and uphill runs. Structures threatened.

West Nueces, Texas A\&M Forest Service. Started on private land 34 miles northwest of Uvalde, TX. Tall grass and brush. Moderate fire behavior with smoldering.

* North Angel, Kentucky DOF. One mile southwest of Athol, KY. Timber. Active fire behavior with running and backing.
* Homestead Estates, Kentucky DOF. Three miles west of Tutor Key, KY. Timber. Moderate fire behavior with creeping. Structures threatened.

Canadian River Bottom, Texas A\&M Forest Service. Started on private land 15 southwest of Canadian, TX. Tall grass. Moderate fire behavior with creeping and smoldering.

Borrega, Texas A\&M Forest Service. Started on private land 10 miles west of Kingsville, TX. Brush and tall grass. Active fire behavior with wind-driven runs and flanking. Residences threatened.

Das Goat, Texas A\&M Forest Service. Started on private land 15 miles northeast of Hondo, TX. Brush and tall grass. Minimal fire behavior with creeping and smoldering. Numerous structures threatened.

Ramsey, Texas A\&M Forest Service. Started on private land two miles northwest of Blanket, TX. Timber and brush. Minimal fire behavior with smoldering. Residences threatened.

137 Ave, Florida Forest Service. One mile west of Tamiami, FL. Chaparral and timber. Active fire behavior with running.

* Double Barrel, Texas A\&M Forest Service. Started on private land three miles south of Pampa, TX. Short grass. Minimal fire behavior with creeping and smoldering. Structures threatened.
* L 30, Florida Forest Service. Twelve miles southwest of Miramar, FL. Tall grass. Moderate fire behavior with creeping.
* Kingdom, Kentucky DOF. Three miles east of Buckhorn, KY. Timber, grass and hardwood litter. Extreme fire behavior with wind-driven runs, uphill runs and running. Structures threatened.
* Bethlehem, Kentucky DOF. Two miles southeast of Jackson, KY. Timber and slash. Moderate fire behavior with creeping, backing and flanking. Structures threatened.

Crittenburg Complex, Texas A\&M Forest Service. Started on private land 12 miles southeast of Gatesville, TX. Tall grass and brush. Moderate fire behavior with smoldering. Numerous structures threatened.

Webster Ranch, Osage Agency, BIA. One mile southwest of Barnsdall, OK. Hardwood litter and tall grass. No new information. Last report unless new information is received.

Salt, Okmulgee Field Office, BIA. Eight miles northwest of Henryetta, OK. Tall grass. No new information. Last report unless new information is received.

Round Mountain, Oklahoma DOF. Thirteen miles southeast of Stillwell, OK. Hardwood litter. No new information. Last report unless new information is received.

Scott Hollow, Oklahoma DOF, State Government Agencies. Eight miles southeast of Tahlequah, OK. Tall grass and timber. No new information. Last report unless new information is received.

Gator, Oklahoma DOF. Thirteen miles north of Muldrow, OK. Hardwood litter and timber. No new information. Last report unless new information is received.

Stone Gate, Alabama Private Lands. Started on private land 13 miles southeast of Birmingham, AL. Brush. No new information. Last report unless new information is received.

Birch Creek, Osage Agency, BIA. Two miles southwest of Barnsdall, OK. Short and tall grass. No new information. Last report unless new information is received.

Copeland Ranch, Oklahoma DOF. Three miles southeast of Locust Grove, OK. No new information. Last report unless new information is received.

Carol Lane, Alabama Private Lands. Started on private land 12 miles northeast of Attalla, AL. Chaparral. No new information. Last report unless new information is received.

Hollingsworth, Alabama Private Lands. Started on private land six miles northeast of Bay Minette, AL. Brush. No new information. Last report unless new information is received.

Predictive Services Discussion: Dry and breezy conditions will develop across portions of the southern High Plains into the Texas Hill Country today, with a chance of isolated dry thunderstorms in portions of west Texas and far eastern New Mexico. Dry post-frontal conditions are expected across portions of the Southeast and from the western Great Basin into the Southwest. Isolated to scattered thunderstorms are forecast on portions of the southern Plains and Florida Peninsula, with scattered rain showers on the central Plains into the Midwest. Lingering snow showers are also likely across portions of the Northeast, with another round of precipitation for western Washington and northwest Oregon.

## Serious Injury Procedures <br> Firefighter Health \& First Aid

Dealing with serious injuries on the fireline can add even more stress to our hectic work environment. In the event a fireline accident occurs, adherence to the following principles is important to ensure an adequate and appropriate response is made.

- Before entering the scene, determine whether it is safe to approach. Look for hazards as well as what may have happened. It may be necessary to move the patient or to make the area safe before doing an assessment.
- Provide first aid and assess the extent of the injuries.
- Make contact with your supervisor. Depending on the complexity of the fire, that could be your Crew Boss, Division Supervisor, Incident Commander, or even dispatch. If your fire has a medical plan, follow the plan.
- Provide accurate, concise information on the following:
- Number of people injured.
- Type of injuries.
- Severity of injuries (light, moderate, severe, life threatening).
- Mechanism of injury.
- Vital signs (pulse, respiration, level of consciousness, etc.).
- Determine the best method of evacuation. Depending on the severity of injury or availability of resources, this decision may already be made for you.
- Keep the radio frequency clear of non-emergency traffic. Provide updates of the patient's condition and await instructions.
- If evacuation is by helicopter, it may be necessary to construct a helispot. Document treatment provided in case it is necessary to send the information along with the patient in the aircraft.
- If the patient needs to be carried to a road, ensure enough people are available to work in relays.
- Once the patient is clear, take a moment to write down witness statements, clean up notes and timelines, and document any other pertinent information.
