

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, May 29, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (68 fires)
New large incidents:	1
Large fires contained:	1
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	5
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there is 1 fire being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 5)

New fires:	19
New large incidents:	0
Uncontained large fires:	7
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	3

Hermits Peak, Santa Fe NF, USFS. NIMO (Team 2), IMT 1 (CA Team 2) IMT 1 (CA Team 5) and IMT 1 (PNW Team 2). IMT 1 (SW Team 2) mobilizing. Twelve miles northwest of Las Vegas, NM. Grass and timber. Active fire behavior with uphill runs, backing and group torching. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

Black, Gila NF, USFS. Transfer of command from IMT 2 (SW Team 5) to IMT 2 (SW Team 3) will occur tomorrow. Twenty-four miles north of Mimbres, NM. Timber and chaparral. Active fire behavior with uphill runs, flanking and group torching. Structures threatened. Evacuations, area, road and trail closures in effect.

Lost Lake, Colorado River Agency, BIA. Fifteen miles southwest of Parker, AZ. Active fire behavior with wind-driven runs, torching and spotting. Numerous structures threatened. Road and area closures in effect.

Bear Trap, Cibola NF, USFS. IMT 2 (CA Team 10). Twenty-two miles southwest of Magdalena, NM. Timber. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Area, road and trail closures in effect.

Cerro Pelado, Santa Fe NF, USFS. IMT 2 (RM Team 3). Seven miles east of Jemez Springs, NM. Grass, brush and timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect.

Elgin Bridge, Arizona DOF. One mile northeast of Elgin, AZ. Brush, grass and chaparral. Minimal fire behavior with smoldering. Structures threatened.

Biggs, Capitan District, New Mexico State Forestry. Seven miles east of Corona, NM. Brush and grass. No new information.

Predictive Services Discussion: A cold front will continue to slowly push south through central California and into the southern Great Basin and southern Colorado before stalling. Elevated to critical conditions due to southwest winds 15-35 mph with gusts 35-50 mph amid relative humidity of 5-20% are likely across the southern Great Basin, Southwest, southern Colorado, and the Texas Panhandle. Extremely critical conditions are possible from southwest Colorado through New Mexico into the Texas Panhandle. Numerous showers and thunderstorms will develop from the Northwest through the northern Great Basin, Montana, and Wyoming, then into the northern Plains. Snow levels will drop to 4,000 – 7,000 feet in some areas. Rain will continue in New England during the morning while scattered wet thunderstorms will develop across the central and southern Florida Panhandle. Hot and dry conditions will continue for much of Alaska, with isolated wet thunderstorms possible in the eastern Interior.

Aviation Mishap Response

Aviation Category

It is critical to respond quickly and effectively to aviation mishaps. A posted and accessible written mishap response action plan is an important first step. A checklist of actions will ensure that nothing is missed in a stressful, time-critical period. All crew members must know where to find the plan and must understand how to use it in an emergency.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations with the following priorities in mind:
 - Preserve life. Ensure the safety of all rescuers as you respond to assist any victims.
 - Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
 - Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
 - Secure the area. Treat the crash site as a crime scene. Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media.
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.

Activity: Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.
