

**National Interagency Coordination Center  
Incident Management Situation Report  
Monday, June 13, 2022 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (59 fires)
New large incidents:	5
Large fires contained:	1
Uncontained large fires: **	13
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	7
***Complex IMTs committed:	0

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 27 fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

## **Southwest Area (PL 4)**

New fires:	12
New large incidents:	2
Uncontained large fires:	9
NIMOs committed:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	4

\* **Pipeline**, Coconino NF, USFS. IMT 2 (CA Team 15). IMT 1 (GB Team 2) mobilizing. Five miles north of Flagstaff, AZ. Timber, brush and grass. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Communication infrastructure and numerous structures threatened. Evacuations, area, road and trail closures in effect.

**Black**, Gila NF, USFS. Transfer of command from IMT 2 (SW Team 3) to IMT 2 (SW Team 4) will occur tomorrow. Twenty-four miles north of Mimbres, NM. Grass and timber. Active fire behavior with uphill runs, backing and short-range spotting. Structures threatened. Evacuations, area, road and trail closures in effect.

**Hermits Peak**, Santa Fe NF, USFS. NIMO (Team 2) and IMT 1 (SW Team 1). Transfer of command from IMT 1 (SW Team 2) to IMT 2 (SW Team 5) will occur tomorrow. IMT is also managing the Midnight fire. Twelve miles northwest of Las Vegas, NM. Hardwood litter, timber and light slash. Active fire behavior with flanking, backing and torching. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

**Midnight**, Carson NF, USFS. Eight miles northwest of El Rito, NM. Timber. Extreme fire behavior with wind-driven runs, running and group torching. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

**Cerro Bandera**, Bernalillo District, NM State Forestry. Eighteen miles southeast of Grants, NM. Timber, grass and brush. Minimal fire behavior with creeping and smoldering. Structures threatened. Road closures in effect.

**Deer Creek**, Coronado NF, USFS. Twenty-five miles southwest of Animas, NM. Grass and brush. Minimal fire behavior with backing, creeping and smoldering.

\* **Mule**, Coronado NF, USFS. Thirteen miles west of Rio Rico, AZ. Grass and brush. Minimal fire behavior with creeping and smoldering.

**Mixen**, Las Cruces Field Office, BLM. Eleven miles south of Alamogordo, NM. Grass. Minimal fire behavior.

**Cerro Pelado**, Santa Fe NF, USFS. Seven miles east of Jemez Springs, NM. Grass, closed timber litter and medium slash. Minimal fire behavior. Area, road and trail closures in effect.

### **Alaska Area (PL 3)**

New fires:	3
New large incidents:	2
Uncontained large fires:	0
Type 2 IMTs committed:	2

**East Fork**, Galena Zone, BLM. IMT 2 (AK Green Team). Started on FWS land 25 miles northeast of St. Mary's, AK. Grass, brush and timber. No new information.

**Aghaluk Mountain**, Southwest Area, Alaska DOF. IMT 2 (AK Black Team) mobilizing. Forty-nine miles east of Aniak, AK. Grass and timber. Moderate fire behavior with isolated torching and backing. Structures threatened.

\* **Ongoke River**, Southwest Area, Alaska DOF. Started on FWS land 38 miles northwest of Dillingham, AK. Brush. Active fire behavior with smoldering and creeping. Structures threatened. Last narrative report unless significant activity occurs.

\* **Ponglevik River**, Southwest Area, Alaska DOF. Started on FWS land 74 miles northeast of Hooper Bay, AK. Brush. Active fire behavior with creeping. Last narrative report unless significant activity occurs.

**Submarine Creek**, Southwest Area, Alaska DOF. Forty-five miles west of Telida, AK. Timber, grass and hardwood litter. Moderate fire behavior with creeping, torching and backing. Structures threatened. Last narrative report unless significant activity occurs.

**Pike Creek**, Southwest Area, Alaska DOF. Thirty-eight miles north of Igiugig, AK. Timber and brush. Active fire behavior with backing, running and short crown runs. Residences threatened. Last narrative report unless significant activity occurs.

**Predictive Services Discussion:** Ahead of a cold front, elevated and critical fire weather conditions will develop across the southern Great Basin through the West Slope, much of the Southwest, and onto southern High Plains today, with southwest sustained winds of 15-30 mph, gusting to 35-50 mph amid minimum relative humidity of 5-15%. Isolated mixed wet and dry thunderstorms are likely from southeast Arizona into the western Trans Pecos, with lower chances of thunderstorms farther north in New Mexico. Behind the cold front, showers will develop across portions of the Pacific Northwest, especially west of the Cascades and in northeast Washington, through the northern Rockies, with snow likely above 5,000 feet in northwest Montana. Heavy rain is possible from northeast Washington into far northwest Montana as well. Thunderstorms are expected across northern Utah into southwest Montana, with severe storms across the northern Plains, Upper Midwest, Great Lakes, and into the Mid-Atlantic. Hot and humid conditions will develop from the central Gulf Coast through the Mississippi, Missouri, and Ohio Valleys, and Midwest. Temperatures will warm in central and eastern Alaska, with stronger winds across much of the state. Showers and thunderstorms will spread over western Alaska and the Panhandle, with wetter thunderstorms spreading from south-central Alaska through the Interior.

## HAZMAT INCIDENT OPERATIONS

*Miscellaneous Fireline Hazards*

Firefighters may encounter hazardous materials (hazmat) in the field and should recognize that it requires special precautions. Hazardous materials include, but are not limited to, clandestine drug waste, which may look like common household trash at first glance; midnight dumping, which may be recognized by the presence of barrels or containers, discoloration of land, plants, or water, and/or dead vegetation and animals; and transportation accidents with spillage or release of hazmat that may result in danger to life, property, or resources.

### Think Safety

- Assess situation.
- Safe approach: upwind/upgrade/upstream.
- Identify, isolate, establish perimeter, and deny entry.
- Notify agency dispatcher.
- Use *Global Positioning System (GPS)* for exact location.
- Request assistance and identify a safe route.

### Scene Management

- The goal is to protect life, environment, and property.
- Attempt to identify substance using *Emergency Response Guide* (use binoculars to look for placards/labels, container shapes/colors, Material Safety Data Sheets, shipping papers, and license plate).
- Assess quantity of material involved.
- Identify exposures and hazards surrounding the site.
- Anticipate weather influences.

### Isolation Distances

- Minor event (1 drum, 1 bag, etc.) = 150 feet.
- Major event (more than 1 drum or bag, etc.) = 500 feet.
- Residential/light commercial = 300 feet.
- Open areas = 1,000 feet.
- BLEVE (Boiling Liquid Expanding Vapor Explosion) potential = 2,500 feet (one-half mile).
- Stage arriving units 2,500 feet upwind.
- Position vehicles heading out.
