

**National Interagency Coordination Center
Incident Management Situation Report
Monday, June 20, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (102 fires)
New large incidents:	3
Large fires contained:	1
Uncontained large fires: **	15
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 31 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 4)

New fires:	18
New large incidents:	0
Uncontained large fires:	10
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3

Contreras, Papago Agency, BIA. IMT 2 (EA Gold Team). Fifteen miles northeast of Topawa, AZ. Brush and short grass. Moderate fire behavior with uphill runs, wind-driven runs and backing. Numerous structures threatened. Evacuations, road and trail closures in effect.

Haywire, Coconino NF, USFS. IMT 1 (GB Team 2). IMT is also managing the Pipeline fire. Seventeen miles northeast of Flagstaff, AZ. Timber, brush and short grass. Minimal fire behavior with creeping, backing and flanking. Numerous residences threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Pipeline, Coconino NF, USFS. Five miles north of Flagstaff, AZ. Timber, brush and grass. Minimal fire behavior with creeping, backing and flanking. Communication infrastructure and residences threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Hermits Peak, Santa Fe NF, USFS. NIMO (Team 2), IMT 1 (SW Team 1) and IMT 2 (SW Team 5). IMT 1 (SW Team 1) is also managing the Midnight fire. Twelve miles northwest of Las Vegas, NM. Hardwood litter, timber and light slash. Minimal fire behavior with flanking, backing and creeping. Numerous residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Black, Gila NF, USFS. IMT 2 (SW Team 4). Twenty-four miles north of Mimbres, NM. Grass and timber. Minimal fire behavior with flanking, backing and creeping. Structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Raspberry, Coronado NF, USFS. Eleven miles northeast of Portal, AZ. Timber, brush and short grass. Minimal fire behavior with smoldering. Structures and communication infrastructure threatened. Reduction in acreage due to more accurate mapping.

Midnight, Carson NF, USFS. Eight miles northwest of El Rito, NM. Timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Tonto Canyon, Coronado NF, USFS. Seven miles southeast of Ruby, AZ. Brush and tall grass. Minimal fire behavior with smoldering. Area and road closures in effect.

Cerro Bandera, Bernalillo District, NM State Forestry. Eighteen miles southeast of Grants, NM. Timber, grass and brush. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

Fish, Apache-Sitgreaves NF, USFS. Twenty miles southwest of Alpine, AZ. Timber and medium slash. No new information.

Alaska Area (PL 3)

New fires: 3
 New large incidents: 0
 Uncontained large fires: 0
 Type 2 IMTs committed: 2

Lime Complex (12 fires), Southwest Area Forestry, Alaska DOF. IMT 2 (AK Black Team). Fifty miles east of Chuathbaluk, AK. Grass, timber and brush. Active fire behavior with group torching, flanking and backing. Numerous structures threatened.

East Fork, Galena Zone, BLM. Transfer of command from IMT 2 (AK Green Team) back to the local unit will occur on 6/22. IMT is also managing the Apoon Pass fire. Started on FWS land 25 miles northeast of St. Mary's, AK. Minimal fire behavior with smoldering and creeping. Structures threatened. Precipitation occurred over the fire area yesterday.

Sawpit Creek, Southwest Area, Alaska DOF. Previously reported incident. Twenty miles south of Aniak, AK. Timber. Minimal fire behavior with smoldering. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Strong high pressure aloft will bring above normal temperatures and very dry conditions to much of the Southeast. Temperatures will be 90-105 with afternoon relative humidity dropping as low as 10%. Very dry conditions are likely in western Arizona into the southern Great Basin as well, with breezy west winds and dry conditions likely across Wyoming into northern Colorado. Rain will continue during the day across much of northern Montana with severe thunderstorms possible across the northern Plains. Monsoon thunderstorms will also continue across New Mexico into southeast Colorado today. In Alaska, very warm conditions with low afternoon relative humidity are forecast across the western Interior but winds will be light. Isolated thunderstorms will develop this afternoon across much of Interior Alaska, with the driest storms in the western Interior.

Lookouts (LCES)

Operational Engagement Category

Lookouts are often best situated to notice the cumulative changes of fire behavior.

Standard Firefighting Order #5 is: Post lookouts when there is possible danger.

- Discuss why lookouts should be posted at all times.

What are you looking for when you are selecting a lookout location?

- Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
- Never rely exclusively on aircraft as your lookout.

What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout?

- Experienced firefighter.
- Solid knowledge of fire behavior and the ability to recognize and monitor other environmental hazards.
- Knowledge of crew locations, escape and safety locations, and trigger points.
- Good communicator.
- Knowledge of weather patterns, and signs of incoming weather changes.
- Advises the crew of fire behavior changes, and tracks weather trends and relays the information.
- Monitors and accounts for all individuals within the assigned area at all times, and notifies others if breaks are needed.

What is the necessary equipment for a lookout?

- Personal protective equipment (PPE), radio with extra batteries, compass, binoculars, belt weather kit, an Incident Action Plan (IAP), map, food, water, and watch.
