

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, July 26, 2022 – 0730 MDT
National Preparedness Level 3**

National Fire Activity:

Initial attack activity:	Light (132 fires)
New large incidents:	2
Large fires contained:	10
Uncontained large fires: **	12
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	4
Type 2 IMTs committed:	6
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 105 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: As the weak upper low tracks along the northern California and Pacific Northwest coasts, isolated high-based showers and dry thunderstorms are possible in the central/northern Sierra, Sacramento Valley, and Coast Ranges and southern Cascades of northern California into southern and perhaps western Oregon. Chances for high-based showers and dry thunderstorms may extend into northwest Nevada as well. Hot, dry, and unstable conditions are expected across much of California, the Pacific Northwest, and northern Great Basin into the northern Rockies, with high temperatures in the 90s and 100s about 8-20°F above normal. Poor to moderate RH recovery is expected as well. Monsoonal thunderstorms remain likely across much of the Southwest, southern Great Basin, and Colorado Rockies, with mixed wet/dry thunderstorms likely in the southern/central Sierra and Transverse Ranges.

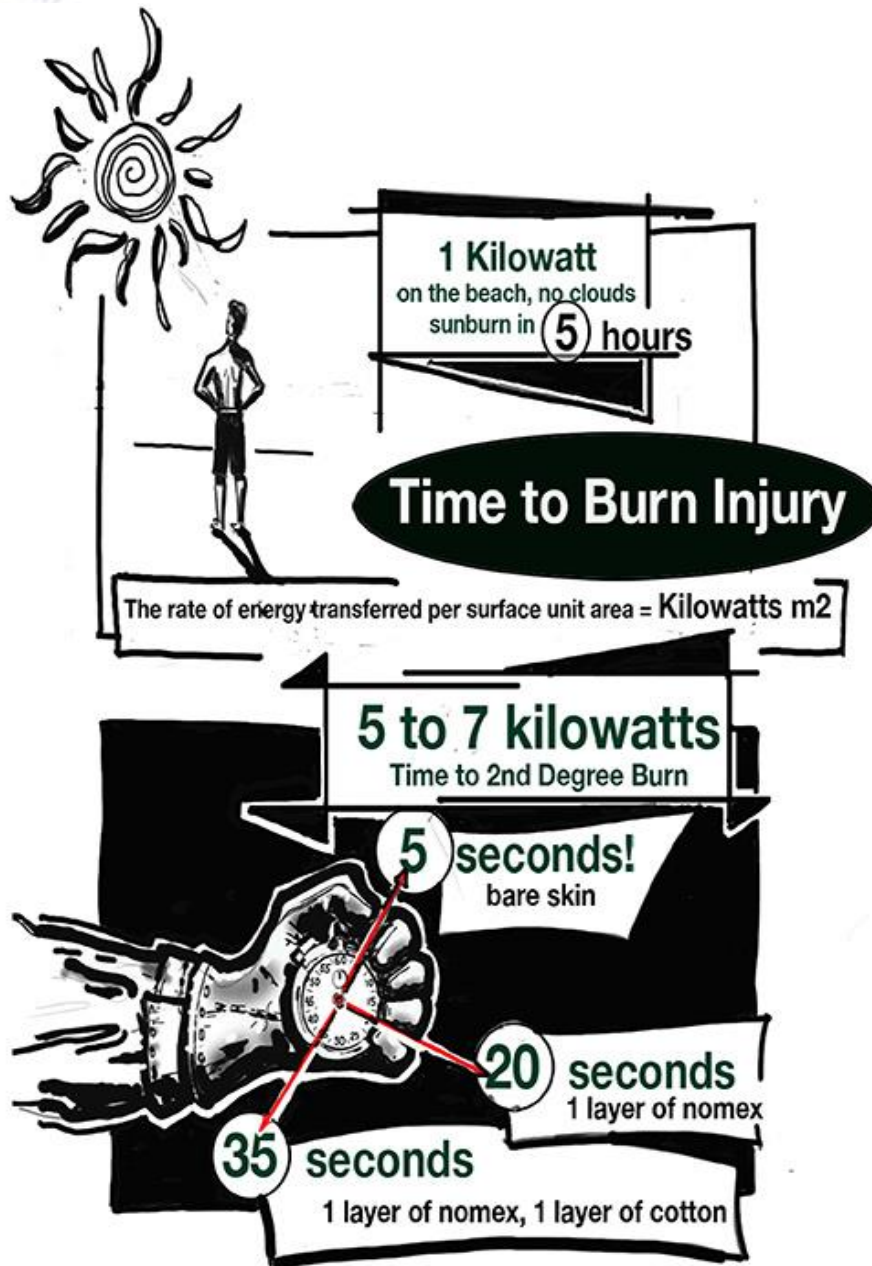

Hot, dry, and unstable conditions will continue across the southern Plains and into Arkansas and the Lower Mississippi Valley, with thunderstorms likely from the Ohio Valley through the southern/central Appalachians into the Mid-Atlantic and along the Gulf Coast. Gusty southwest winds will continue across the northern half of Alaska, with wetting rain and showers likely to push into central and eastern portions of the Interior, but the northeast Interior may remain dry.

Take 5@2 – PPE

Firefighter Health and First Aid

We strongly advise the use of proper personal protective equipment (PPE).
