${ }^{* * *}$ Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 62 fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.

## Northwest Area (PL 4)

| New fires: | 21 |
| :--- | :---: |
| New large incidents: | 7 |
| Uncontained large fires: | 11 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 5 |

Double Creek, Wallowa-Whitman NF, USFS. IMT 1 (PNW Team 2). IMT is also managing the Sturgill, Nebo, and Goat Mountain Two fires. Ten miles southeast of Imnaha, OR. Timber and short grass. Extreme fire behavior with short crown runs, wind-driven runs and spotting. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Sturgill, Wallowa-Whitman NF, USFS. Fifteen miles southwest of Enterprise, OR. Timber and closed timber litter. Extreme fire behavior with short crown runs, uphill runs and spotting. Structures threatened. Evacuations, area and trail closures in effect.

Nebo, Wallowa-Whitman NF, USFS. Twenty-one miles southeast of Enterprise, OR. Timber. Active fire behavior with group torching, flanking and backing. Area, road and trail closures in effect.

Goat Mountain Two, Wallowa-Whitman NF, USFS. Nine miles south of Lostine, OR. Timber. Moderate fire behavior with backing.

Boulder Mountain, Northeast Region, DNR. IMT 2 (GB Team 7). Started on private land nine miles northwest of Cusick, WA. Timber. Active fire behavior with single tree torching, group torching and short-range spotting. Structures threatened. Evacuations, area, road and trail closures in effect.

Cedar Creek, Willamette NF, USFS. IMT 1 (AK Team 1) and IMT 2 (NW Team 6). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Active fire behavior with flanking, group torching and spotting. Structures threatened. Area, road and trail closures in effect.

Rum Creek, Medford District, BLM. IMT 1 (ODF Team 1) and IMT 2 (NR Team 6). Twelve miles northwest of Hugo, OR. Timber and closed timber litter. Active fire behavior with backing, flanking and single tree torching. Several communities and numerous structures threatened. Evacuations, area, road and trail closures in effect.

Crockets Knob, Malheur NF, USFS. IMT 2 (NW Team 12). Nineteen miles north of Prairie City, OR. Brush, closed timber litter and timber. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Area, road and trail closures in effect.

* Chilliwack Complex (4 fires), North Cascades NP, NPS. NIMO (Team 2). IMT is also managing the NW Pasayten Complex. Includes the previously reported Brush Creek 2 and Copper Lake fires. Thirty miles east of Maple Falls, WA. Timber. Active fire behavior with group torching and uphill runs. Structures threatened. Trail closures in effect.
* NW Pasayten Complex (3 fires), Okanogan-Wenatchee NF, USFS. Twenty miles northeast of Diablo, WA. Timber. Active fire behavior with torching, spotting and short crown runs. Communication infrastructure and structures threatened. Trail closures in effect.

Potter, Willamette NF, USFS. IMT 2 (NW Team 9). Forty-six miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with backing, creeping and isolated torching. Area, road and trail closures in effect.

White River, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with flanking. Numerous structures threatened. Area, road and trail closures in effect.

Irving Peak, Okanogan-Wenatchee NF, USFS. Twenty-six miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with flanking. Structures threatened. Area, road and trail closures in effect.

Seven Bays, Northeast Region, DNR. Fifteen miles northwest of Davenport, WA. Timber and hardwood litter. Minimal fire behavior with creeping and smoldering. Structures threatened.

* Sheephead, Vale District, BLM. Eighteen miles southwest of Adrian, OR. Brush and short grass. Extreme fire behavior with wind-driven runs, running and flanking. Sage-grouse habitat threatened.
* Van Meter, Lakeview District, BLM. Thirteen miles southeast of Klamath Falls, OR. Timber, brush and short grass. Extreme fire behavior with running, torching and spotting. Numerous structures threatened. Evacuations in effect.

## Great Basin Area (PL 3)

| New fires: | 16 |
| :--- | :--- |
| New large incidents: | 2 |
| Uncontained large fires: | 5 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 2 |

Four Corners, Payette NF, USFS. IMT 1 (GB Team 2). Six miles west of Cascade, ID. Timber and closed timber litter. Moderate fire behavior with backing, creeping and torching. Several communities, numerous structures and communication infrastructure threatened. Area, road and trail closures in effect.

Ross Fork, Sawtooth NF, USFS. IMT 2 (GB Team 3). Six miles east of Atlanta, ID. Closed timber litter, timber and short grass. Extreme fire behavior with group torching, short-range spotting and wind-driven runs. Structures threatened. Area, road and trail closures in effect.

Moose, Salmon-Challis NF, USFS. IMT 2 (GB Team 5). IMT 1 (GB Team 1) mobilizing. Seventeen miles north of Salmon, ID. Short grass, brush and timber. Extreme fire behavior with group torching, short crown runs and long-range spotting. Area, road and trail closures in effect.

Ruby, Boise NF, USFS. Started on state land two miles northeast of Prairie, ID. Timber. Minimal fire behavior with smoldering. Structures threatened. Road and trail closures in effect. Reduction in acreage due to more accurate mapping.

Wildhorse, Boise NF, USFS. Started on county land twenty-four miles northeast of Mountain Home, ID. Tall grass, brush and timber. Minimal fire behavior with smoldering. Structures threatened.

* Heath Springs, Oneida County. Five miles north of Malad, ID. Short grass and brush. Active fire behavior with wind-driven runs and running. Structures threatened.
* Tenmile, Payette NF, USFS. Nine miles west of Warren, ID. Timber. Active fire behavior with spotting, torching and running. Structures threatened. Last narrative report unless significant activity occurs.

Norton, Salmon-Challis NF, USFS. Previously reported incident. Thirty-seven miles northwest of Challis, ID. Timber, brush and short grass. Active fire behavior with short crown runs, uphill runs and flanking. Structures threatened. Last narrative report unless significant activity occurs.

Woodtick, Salmon-Challis NF, USFS. Previously reported incident. Twenty-seven miles northwest of Challis, ID. Timber, short grass and brush. Active fire behavior with uphill runs, crowning and spotting. Structures threatened. Area, road and trail closures in effect. Last narrative report unless significant activity occurs.

## Rocky Mountain Area (PL 2)

New fires: 6
New large incidents: 1
Uncontained large fires: 2
Washakie Park, Wind River Agency, BIA. Ten miles west of Fort Washakie, Wyoming. Closed timber litter and timber. Extreme fire behavior with wind-driven runs and short-range spotting. Structures threatened. Area, road and trail closures in effect.

* Antelope Creek, Converse County. Forty miles northeast of Glenrock, WY. Tall grass. Active fire behavior with wind-driven runs, creeping and smoldering. Structures threatened.

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.
***Additional wildfire information is available through the Geographic Areas at https://gacc.nifc.gov/

Predictive Services Discussion: An upper-level trough will slide southeast into the Northern Rockies as an associated cold front pushes south and east through Montana and Wyoming, mostly along and east of the Divide, and into the northern and central Plains. Ahead of the front, dry and gusty west-northwest winds are likely across central and southern Idaho into southwest Montana and central and southern Wyoming. Gusty southerly winds amid low relative humidity of $8-20 \%$ are likely in portions of South Dakota, Nebraska, and southwest Minnesota ahead of the front turning northerly behind it with little increase of relative humidity into the evening. Dry and breezy conditions are also likely in portions of the Inland Northwest. Winds will turn more northerly across the Northwest, Idaho, and Montana and eventually to the northeast or east by the evening and overnight.

Hot, dry, and unstable conditions will continue south of the front across California and the southern half of the Intermountain West. Temperatures will cool behind the front with temperatures mostly in the 70s and 80s in much of the Northwest, Idaho, and Montana. Showers with isolated thunderstorms will develop behind the front along and east of the Rockies in Montana into northern Wyoming, northern South Dakota, and central Minnesota. Isolated drier thunderstorms are expected for northeast Utah, central and southern Wyoming, and the greater Four Corners area, with the greatest potential for new ignitions across central and southern Wyoming. Showers and thunderstorms are likely along the Gulf Coast and in the Southeast.

Heat Stress<br>Firefighter Health \& First Aid Category

During activity, the body releases more than 70 percent of the energy used by muscles as heat. As a result, heat loss is crucial to prevent an excessive rise in body temperature during firefighting activities. If heat exchange between the body and the environment is impaired, such as in hot or humid environments, firefighter performance can be substantially impaired.
A heat-related illness (HRI) is a potentially fatal disorder caused by elevated body temperatures from internal heat produced by activity or external environmental heat added to the body that cannot be removed to maintain normal body temperature.

## Symptoms of an HRI may be difficult to recognize and may occur in no particular order. They may

 include:- Profuse sweating with cool, clammy skin leading to hot, dry skin.
- Muscle cramps and weakness.
- Dizziness, headache, and irritability.
- Rapid, weak pulse.
- Vomiting.
- Loss of consciousness.

If you suspect a heat illness, stop work and begin treatments to cool down the body, and consider further procedures.

Considerations for mitigation during firefighting activity:

- Ability to handle heat is different between individuals and varies on a daily basis.
- Performing physical tasks, such as hiking or digging fireline, is our largest producer of body heat.
- Hiking typically raises your body temperature 1 to 2 degrees Fahrenheit.
- At elevated body temperatures, the risk of HRI has a lesser margin of error.
- Maintain low skin temperature when possible, as it allows heat transfer from the body.
- Pack weights exceeding 25 percent of body weight add to the body's demands during activity.
- Recovery of high body temperature requires:
- Reduction of work output.
- Removal from sources of heat.
- Proper nutrition and hydration strategies.

Note: Recovery is not just a shift-to-shift concept. It is also task-to-task and even a minute-to-minute process.
