# National Interagency Coordination Center Incident Management Situation Report <br> Friday, October 7, 2022 - 0730 MDT <br> National Preparedness Level 2 

National Fire Activity:
Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: **
Light (90 fires)
2
2

Area Command teams committed: 0
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
***Complex IMTs committed:

0 212002

4
1
***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 68 fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.

| Ten Year Average Fires (2012 - 2021 as of today) | 46,020 |
| :--- | :---: |
| Ten Year Average Acres (2012 - 2021 as of today) | $6,527,151$ |

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.
***Additional wildfire information is available through the Geographic Areas at https://gacc.nifc.gov

Predictive Services Discussion: A cold front will push south through Texas and the Southeast to the Gulf Coast. Low relative humidity of $20-35 \%$ will continue across portions of east Texas through the Southeast. Warm and dry conditions with light winds will continue in California, the western and northern Great Basin, and Northwest. Numerous showers and thunderstorms will continue over eastern Arizona and New Mexico, spreading into portions of the Texas panhandle and Colorado Rockies as well. Light rain is likely across portions of Nebraska and Kansas in the morning while scattered showers and isolated thunderstorms are likely across portions of the Northeast.

# No Communication Link with Crewmembers or Supervisor <br> Fire Communication Category 

Watch Out Situation \#7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

## Can communication(s) be established?

- Talk about how communications are set up on fires, including the variables that must be considered.
- Review situations where communications were a problem.
 Discuss what was done to fix the problem.
- Ask yourself, "Do we need a repeater setup or can an experienced firefighter act as a human repeater?"

## Is the communication triangle complete?

- Review the communication triangle: speaker, message, and audience. Discuss where it comes up in the 10 Standard Fire Orders and the 18 Watch Out Situations.
- Discuss ways that firefighters can maintain the communication triangle on the fireline.

## How can we reduce the risks?

- If the situation is complex, wait until communications are in place.
- Talk about the fires where crews had to leave the line, did not go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications in these situations.
- Discuss scenarios in which communications could be disrupted. What are some possible solutions?
