

**National Interagency Coordination Center
Incident Management Situation Report
Monday, October 10, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (54 fires)
New large incidents:	3
Large fires contained:	1
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 68 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Northwest Area (PL 2)

New fires: 3
 New large incidents: 0
 Uncontained large fires: 5
 Type 2 IMTs committed: 1

Cedar Creek, Willamette NF, USFS. IMT 2 (NW Team 12). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Moderate fire behavior with uphill runs, creeping and spotting. Numerous structures threatened. Area, road and trail closures in effect.

Goat Rocks, Gifford Pinchot NF, USFS. Eight miles east of Packwood, WA. Timber and closed timber litter. Minimal fire behavior with flanking, backing and creeping. Numerous residences threatened. Area, road and trail closures in effect.

White River, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

Kalama, Gifford Pinchot NF, USFS. Six miles north of Cougar, WA. Timber. Moderate fire behavior with smoldering, creeping and backing. Structures threatened. Area, road and trail closures in effect.

Double Creek, Wallowa-Whitman NF, USFS. Ten miles southeast of Imnaha, OR. Timber and grass. Minimal fire behavior with creeping and smoldering. Road closures in effect.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov>

Predictive Services Discussion: An upper trough and associated cold front in British Columbia will move south and east into the Columbia Basin and northern Rockies tonight. West winds 12-25 mph with gusts 25-40 mph will develop across the Inland Northwest through Idaho and into Montana and Wyoming. Relative humidity of 10-25% will create elevated conditions, particularly in the Inland Northwest where fuels are driest. Low afternoon relative humidity of 15-30% will continue across the northern Plains into the Midwest and Deep South, with breezy south winds across the northern Plains creating locally elevated conditions.

Isolated showers and thunderstorms are expected across southeast California into the southern Great Basin and Arizona while scattered to numerous showers and thunderstorms are forecast farther east into New Mexico, the Colorado Rockies, and west Texas. Showers and isolated thunderstorms may spread into portions of the central Plains overnight as well. Behind the front in the northwestern US, isolated to scattered showers are possible in the Washington Cascades and northwest Montana. Scattered showers and thunderstorms are also forecast across portions of the Florida peninsula.

Firefighter Stress Management

Firefighter Health & First Aid Category

The job of wildland firefighting can often be stressful and sometimes traumatic. In the wildland fire environment, conditions can take a toll on mental health. It is vital to mental fitness to address feeling overwhelmed by stress and trauma before they become a mental health issue. Mental fitness is just as essential as physical fitness for duty.

AWARENESS – Stress Injuries can be caused by:

- A Life Threat: Due to an experience of death-provoking terror, horror, or helplessness.
- A Loss Injury: A grief injury due to the loss of cherished people, things, or parts of oneself.
- A Moral Injury: Due to behaviors or the witnessing of behaviors that violate moral values.
- Cumulative Stress: Due to the accumulation of stress from all sources over time without sufficient rest and recovery.

RECOGNITION – Stress Size-up, monitor yourself and others for:

- Hazardous attitudes and stress reactions.
- Behavior changes (not talking, isolating, outbursts, increased use of substances, or making mistakes).
- Troubling feelings (fear, anger, anxiety, sadness, guilt, or shame).
- Thoughts of or mention self-harm or suicide.

MITIGATION – Stress First Aid:

- Shrink the stigma – talk about it!
- Provide opportunities to calm:
 - Take a tactical stress pause.
 - Refocus; identify what really matters.
 - Try tactical breathing or similar techniques.
 - Get additional time off if needed.
- Get help. Just like in a medical incident, a higher level of care may be necessary.
- Reach out to friends, peers, loved ones, etc., for support.

Burnout vs. Stress

Stress is often caused by a feeling that life is out of control. Stress can be brought on by long work hours, conflicts at home, or working under pressure. Typically, once the situation resolves itself or changes, stress lessens, or may disappear entirely. If not resolved, stress can impact your physical and mental well-being. Having to choose between work, family, or other priorities can become a long-term stressor.

Burnout is a state of emotional, physical, and mental exhaustion caused by excessive and prolonged stress. It can take place over a long period. Burnout might occur if your work seems meaningless or if there is no end in sight under difficult work conditions. Burnout may happen due to a disconnect between work and life outside of work. Long fire seasons away from family, shortage of resources, gaps in key leadership positions, and communities threatened or lost can all contribute to burnout of wildland fire personnel. Additional contributing factors to burnout can be a culture that is pressured to be as tough as possible, not show weakness, or to speak up when you need help.

ACTION: Discuss what signs indicate stress in a person? How can you as an individual, or you as a crew, mitigate stress and prevent burnout?

Resources:

For ideas to reduce stress and prevent burnout, watch this short video on Work-Life Balance, <https://www.youtube.com/watch?v=jdpIKXLLYYM>.
