## National Interagency Coordination Center Incident Management Situation Report Thursday, October 13, 2022 – 0730 MDT National Preparedness Level 2

# **National Fire Activity:**

Initial attack activity:	Light (93 fires)
New large incidents:	3
Large fires contained:	1
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3
***Complex IMTs committed:	0

<sup>\*\*\*</sup>Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 70 fires being managed under a strategy other than full suppression.

Link to Geographic Area daily reports.

**Link** to Understanding the IMSR.

IMT 1 (Florida Red Team) has been mobilized to Fort Meyers, FL to assist with Hurricane Ian response operations.

	Active Incident Resource Summary														
GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

Total	42	727,505	57	182	33	4,318	49								

<sup>\*\*</sup>Uncontained large fires include only fires being managed under a full suppression strategy.

## Northwest Area (PL 2)

New fires:	9
New large incidents:	2
Uncontained large fires:	7
Type 2 IMTs committed:	1

**Cedar Creek**, Willamette NF, USFS. IMT 2 (NW Team 12). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Moderate fire behavior with uphill runs, creeping and spotting. Numerous structures threatened. Area, road and trail closures in effect.

**Goat Rocks**, Gifford Pinchot NF, USFS. Eight miles east of Packwood, WA. Timber and closed timber litter. Minimal fire behavior with backing, flanking and creeping. Numerous residences threatened. Area, road and trail closures in effect.

**White River**, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

**Kalama**, Gifford Pinchot NF, USFS. Six miles north of Cougar, WA. Timber. Moderate fire behavior with smoldering, creeping and backing. Structures threatened. Area, road and trail closures in effect.

**Nakia Creek**, Pacific Cascade Region, Washington DNR. Started on private land nine miles northeast of Camas, WA. Timber, medium slash and brush. Active fire behavior with uphill runs, single tree torching and short-range spotting. Numerous structures and communication infrastructure threatened. Area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

- \* **Suiattle River**, Mt. Baker-Snoqualmie NF, USFS. Eleven miles northeast of Darrington, WA. Timber. Moderate fire behavior with flanking, backing and torching. Structures threatened. Road and trail closures in effect.
- \* Murphy Lake, Mt. Baker-Snoqualmie NF, USFS. Eleven miles east of Skykomish, WA. Timber and closed timber litter. Active fire behavior with uphill runs, flanking and backing. Area and trail closures in effect. Last narrative report unless significant activity occurs.

**Double Creek**, Wallowa-Whitman NF, USFS. Ten miles southeast of Imnaha, OR. Timber and grass. No new information.

Predictive Services Discussion: Strong northwest winds of 15-35 mph with gusts 30-50 mph amid low relative humidity of 12-25% will continue across much of the northern and central Plains and spread into the Ozarks, Mid and Lower Mississippi Valley, and western Ohio Valley. Critical conditions are most likely to occur across the northern and central Plains where fuels are driest, with elevated conditions likely over the Mid-Mississippi and western Ohio Valleys that have received little to no recent precipitation. Dry conditions are likely to extend into Oklahoma and central and east Texas as well, while above normal temperatures and low afternoon relative humidity of 10-25% are likely to spread across the West from the Divide to the coast. Scattered showers and thunderstorms will continue ahead of a cold front from the east slopes of the Appalachians to the East Coast, with heavy rain and flooding possible over the Northeast. Scattered showers will continue across the Great Lakes as well, most numerous downwind of Lakes Superior and Michigan.

# Minutes FOR SAFETY

# **Hypothermia**

# Firefighter Health & First Aid Category

Hypothermia occurs when your core body temperature falls below normal. It can easily happen in cold winds or wetness. Hypothermia can also occur in moderately cool temperatures, particularly if coupled with dehydration. People tend to forget to drink on cool, wet days, and can get hypothermic even when the temperature stays well above freezing.

#### Symptoms of hypothermia include:

- Slurred speech.
- Weakness and loss of coordination.
- Confusion.
- Irrational behavior.
- Uncontrollable shivering (although, at extremely low body temperatures, shivering may stop).
- Pale and cold skin.
- Drowsiness—especially in more severe stages.
- Slowed breathing or heart rate.

Your body automatically begins to shiver to warm itself. As your energy is used up to keep warm, you may reach a point where your body will be unable to warm itself. If left untreated, your body will gradually shut down; and you can die.

#### You can avoid hypothermia with the following precautions:

- · Stay hydrated.
- Avoid fatigue.
- Avoid cold winds.
- Change out of wet clothes.
- Be aware of the symptoms and act immediately upon their onset.

#### If you recognize hypothermia, take the following steps:

- Move the patient to shelter.
- Remove wet clothes and replace them with warm, dry garments.
- If the victim is alert, give them food and warm liquids to drink.
