

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, October 15, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (45 fires)
New large incidents:	3
Large fires contained:	0
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 63 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Northwest Area (PL 2)

New fires:	4
New large incidents:	1
Uncontained large fires:	6
Type 2 IMTs committed:	1

Cedar Creek, Willamette NF, USFS. IMT 2 (NW Team 12). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Moderate fire behavior with uphill runs, creeping and spotting. Numerous structures threatened. Area, road and trail closures in effect.

Goat Rocks, Gifford Pinchot NF, USFS. Eight miles east of Packwood, WA. Timber and closed timber litter. Minimal fire behavior with backing, flanking and creeping. Numerous residences threatened. Area, road and trail closures in effect.

White River, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior. Numerous structures threatened. Area, road and trail closures in effect.

Kalama, Gifford Pinchot NF, USFS. Six miles north of Cougar, WA. Timber. Moderate fire behavior with smoldering, creeping and backing. Structures threatened. Area, road and trail closures in effect.

Nakia Creek, Pacific Cascade Region, Washington DNR. Started on private land nine miles northeast of Camas, WA. Timber, medium slash and brush. Moderate fire behavior with creeping, smoldering and backing. Numerous structures and communication infrastructure threatened. Area, road and trail closures in effect.

Suiattle River, Mt. Baker-Snoqualmie NF, USFS. Eleven miles northeast of Darrington, WA. Timber. Active fire behavior with uphill runs, flanking and backing. Structures threatened. Road and trail closures in effect.

Bolt Creek, Northwest Region, DNR. Previously reported incident. Two miles north of Skykomish, WA. Timber, closed timber litter and hardwood litter. Active fire behavior with backing, creeping and smoldering. Numerous structures threatened. Area, road and trail closures in effect. Last narrative report unless significant activity occurs.

* **Slick Ear**, Umatilla NF, USFS. Twenty-three miles east of Walla Walla, WA. Timber, short grass and brush. Moderate fire behavior with backing, torching and spotting. Last narrative report unless significant activity occurs.

Ten Year Average Acres (2012 – 2021 as of today)	6,651,304

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov>

Predictive Services Discussion: Gusty offshore, easterly winds of 20-40 mph with minimum relative humidity of 20-35% are likely early this morning through tomorrow morning on western slopes of the Cascades in Washington and Oregon. Above normal temperatures and minimum relative humidity of 8-25% are expected across much of the Great Basin, Colorado Rockies, northern California, and the Inland Pacific Northwest as well. Warm and dry conditions are expected in portions of the Florida Panhandle, Georgia, Alabama, and South Carolina, but recent rainfall and light winds should help mitigate fire weather concerns. Isolated to scattered thunderstorms and showers are likely from southern California through much of the Southwest, west and north Texas, Oklahoma, Arkansas, western Tennessee, and southwest Kentucky. Isolated showers, including possible snow, are likely in portions of the Great Lakes and northern and central Rockies.

LEAD Time

Building the Team
Leadership Category

Fire leaders build cohesive teams—not simply groups of individuals putting forth individual efforts—to accomplish missions in high-risk environments.

Cohesive teams are more creative and adaptable when dealing with complex situations. This enables them to detect and mitigate errors before irreparable damage occurs. Cohesion allows team members to anticipate the needs and actions of other team members. This increases efficiency and saves time.

Fire leaders set the stage by creating an environment in which cohesive teams thrive: establishing a foundation of trust, enabling healthy conflict, requiring commitment, setting an expectation of accountability, and bringing focus to the team result.

Discussion Points:

- What is the difference between a team and a group?
- How does command climate positively and negatively affect team performance?
- How does cohesion influence team performance?
- Why is trust so important in team building?
